**Hamilton Laboratory Solutions Announces Product Launch**

Manitowoc, WI – Hamilton Laboratory Solutions is pleased to announce the company's Quick Ship product launch, designed to ensure rapid fulfillment of standard product for new and existing customers. The Quick Ship product line features Concept fume hoods and steel casework in a highly durable powder coat finish (petal white color) with steel wire pulls.

Features of Quick Ship also include standard product details, various cabinet styles and configurations, tables and frames, reagent rack assemblies and wall rail systems. All product details are outlined in [online](#) Hamilton Laboratory Solutions Quick Ship catalog.

The Quick Ship product line is in stock and ready for delivery, thereby drastically reducing turnaround time for urgent projects. An added benefit to customers is cost reduction, making Quick Ship the ideal solution for economy labs or facilities with small budgets. The Hamilton Laboratory Solutions Quick Ship is a hassle-free product for labs of all sizes and functions. For more product details, to place an order or request a quote, contact [sales@hamiltonlab.com](mailto:sales@hamiltonlab.com).

Hamilton Laboratory Solutions is a global leader of laboratory furniture and fume hoods for the education, health care and industrial laboratory markets. Founded in 1880, Hamilton Laboratory Solutions offers consistently high quality products to meet customer delivery requirements.
