

## ADAPTABLE SYSTEMS CATALOG

---

# 2023

## Table of Contents

### HAMILTON MAX SYSTEM

#### MAX/Lab

<b>MAX/Lab Introduction</b>	<b>3</b>
<b>Ordering Guide</b>	<b>4-9</b>
<b>Support Structures</b>	<b>10-57</b>
Island Cores	10-15
Wall Cores	16-20
Core Accessories and Hardware	21-27
Island Panels	28-37
Wall Panels	38-39
Panel Accessories and Hardware	40-45
Wall Rail System	46-48
Wall Rail Accessories	49-51
Bench-Top Uprights	52-53
<b>Table Frames</b>	<b>54-57</b>
Cantilevered Table Frames	55-56
Freestanding Table Frames	57
Storage Shelf	57

#### MAX/Mobile

<b>MAX/Mobile Introduction</b>	<b>58-64</b>
<b>Service/Delivery Modules</b>	<b>65-72</b>
Overhead Service Carrier	66-71
Vertical Overhead Service Carrier	72
<b>Transporters</b>	<b>73-96</b>
Mobile Instrument Carts	73-75
Heavy-Duty Mobile Equipment Rack	76-78
Component Accessories	79-80
Complete Assemblies	80
Heavy-duty Equipment Rack	81-85
PowerBench	86-87
Equipment Carts	88-90
Mobile Table Frames	91-93
Table Frame Work Surfaces	94-95
Table Frame Work Surface Accessories	96

#### MAX/Wall

<b>Specifying Hamilton MAX/Wall</b>	<b>97-99</b>
<b>How to Order</b>	<b>100-107</b>
Step 1, Select a Frame Configuration	100
Step 2, Select a Frame Style	101-102
Step 3, Select System Components	103-104
Step 4, Colors	105-106
Step 5, Select Work Surfaces	107
Step 6, Select System Accessories	107
Step 7, Select Auxiliary Lab Components	107
<b>Product Selection</b>	<b>108-122</b>
Frame Component Identification	108
Frame Styles	109-111
Lower Facing Inserts	109-111
Reagent Facing Inserts	112-113
Service Umbilical	114-115
Ledge Caps	116
Upper Facing Inserts	116
Ceiling Facing Inserts	117
Open Ceiling Trim Kit	118
Frame Components	119-120
Accessories – Drains	121
Door Frame Assemblies	122

#### System Components

<b>Above-Counter Storage</b>	<b>123-129</b>
Shelves	123-128
Cabinet Accessories	129
<b>Work Surfaces</b>	<b>130-141</b>
<b>Auxiliary Lab Components</b>	<b>142-152</b>

#### Technical Information

<b>Modular Workstation Assemblies</b>	<b>153-159</b>
Panel/End Panel Supported	153
Panel/Cabinet Supported	154
Core/End Panel Supported	155
Core/Cabinet Supported	156
Utility Wall Frame/Configuration Supported	157
Utility Wall Frame/Cabinet Supported	158
Utility Wall Frame/Ceiling/Floor Supported	159
<b>Assembly Guidelines</b>	<b>160-176</b>
Island Panel	160-162
Wall Panel	163
Island/Wall Core	164-168
Wall Rail	169-171
Bench-Top Uprights	172
Structurally Supported	173
Cabinet/Table Supported	174
Configuration Supported	175-176
<b>Specifications &amp; Compliance Tests</b>	<b>177-182</b>

### HAMILTON DISTINCTION SYSTEM

<b>Introduction</b>	<b>183-184</b>
<b>System Colors</b>	<b>185</b>
<b>System Components</b>	<b>186</b>
<b>Bench Components</b>	<b>187-214</b>
Bench Frames	188-191
Bench Leg Kit	190
Single Frame Assemblies	192-208
Shared Frame Assemblies	209-213
Wall Mounted Units	214
Suspended Units	214
<b>Upper Storage</b>	<b>215-221</b>
Shelving Diagram	216
Wall-Mount Standards	217
Shelf Front Retainer Rods	217
Steel Shelving	218
Shelf Brackets	219-220
Steel Shelf Lip	221
<b>Work Surfaces</b>	<b>222-232</b>
Phenolic	223
Epoxy Resin	223
Backsplash and Sidesplash Panels	224-232
<b>Accessories</b>	<b>233-242</b>
Services Fixtures	234-236
Back-to-Back and Side-to-Side Mounting Kit	236
Task Lights	237
LCD Arm	237
Modesty Panels	238
Bulletin Boards	239-240
Ceiling Service Panels	241-242

**To specify MAX/Lab Adaptable:**

1. Select the appropriate **support structures** (pages 4-5) for each work area, based on current and future requirements. Consider your overall room layout as well as needs for individual task-oriented modules. Refer to Accessories and Assembly Guidelines sections for each type of support structure to choose fillers, base covers, columns, and other “finishing touches” to your assemblies. These sections also include valuable assembly information, including load ratings, wall blocking guide lines, plumbing access dimensions, and more.
2. Choose specific **system components** (pages 6-7), including storage cabinets and table frames. A full line of steel cabinets designed especially for the MAX/Lab System is included in this catalog. Refer to **Common Components** section (pages 123-129) for Below-Counter Storage and Above-Counter Storage components for fillers, supports, mounting hardware, drawer partitions and other steel accessory items.
3. Use **option menus** (pages 8-9) to choose system colors and cabinet options.
4. Select modular or continuous **work surfaces** (pages 130-141) in the material that best suits the work performed in your lab.
5. Choose **system accessories** as needed, including task lighting, marker boards or divider panels.

All products are shipped assembled unless otherwise noted.

## How to Order a MAX System – STEP ONE: Choose Support Structures

**Core Support Structures**

Cores are designed for applications where a service chase is required. Cores are available in upper, lower and full-height configurations. MAX/Lab cores are also available with reagent racks.

**Island Cores**

Island cores are free-standing structures that can be anchored to the floor. They provide support for cantilevered work surfaces, shelves, and storage units. Island cores are 12" (305 mm) deep.

(See pages 10-15 for sizes)

**Wall Cores**

Wall cores are designed for the perimeter of your lab. They are anchored to the wall and floor, and they provide support for cantilevered work surfaces and suspended cabinets. Wall cores are 8-3/4" (222 mm) deep.

(See pages 16-20 for sizes)

**Wall Rail Supports**

With only a 1" (25 mm) profile, wall rails offer MAX/Lab benefits with no significant reduction in lab floor space. Wall rails are economical and well suited to applications where the only services required are data transmission and electricity. They support a full range of work surface components.

Wall rail supports are the ideal way to stretch your budget in new construction or major renovation projects, and are perfectly suited for dry analytical environments. Available in full-height and above-counter systems.

(See pages 46-48 for sizes)

## How to Order a MAX System – STEP ONE: Choose Support Structures (continued)

**Panel Support Structures**

Panel support structures perform the same structural functions as core support structures, but are designed for areas which require electricity and data transmission, but no plumbed services.

**Island Panels**

Island panels can be supported by structural tables, self-supporting configurations of multiple panels, or floor-mounted cabinets. They provide support for cantilevered work surfaces, shelves and storage units. Available with or without upper and lower painted steel or fabric panel inserts. Island panels are 3-1/4" (83 mm) deep.

(See pages 28-37 for sizes)

**Wall Panels**

Wall panels can be attached to the wall and floor. Like island panels, they provide support for cantilevered components. Wall panels can be open-frame or closed. All are 3-1/4" (83 mm) deep.

(See pages 38-39 for sizes)

Shown with optional base cover

All core and panel supports are available as upper, lower or full-height assemblies, with or without electric service and facing inserts on one or both sides.

**Bench-top Upright Supports**

Bench-top uprights are another money-saving MAX/Lab exclusive. They provide the benefits of MAX/Lab system technology while allowing you to make full use of economical fixed height floor-mounted cabinets. Bench-top uprights easily attach to the top of any new or existing cabinet structure to help your lab grow up, while keeping your costs down.

Bench-top uprights are the ideal way to make full use of space above the work surface. Mount on any cabinet structure to add low cost storage and shelving space.

(See pages 52-53)

**How to Order a MAX System – STEP TWO: Choose System Components****Table Frames**

---

**Cantilevered Tables**

Attach to support structure. Can support cabinets. Vertical adjustment in 1" (25 mm) increments. Available in various sizes.

(See pages 55-56)

**Freestanding Tables**

Available as stationary or mobile units. Fixed- or adjustable-height. Many models support suspended cabinets.

(See pages 57)

**Four-leg Tables**

Available as fixed- or adjustable-height, with or without casters. Able to support structures. Can support storage shelf and/or suspended cabinets.

(See pages 57)

**Instrument Carts**

A practical combination of storage space and mobility. Insures optimal use of instrumentation by allowing quick and easy movement. Choose any combination of shelves and cabinets.

(See pages 73-75)

Refer to the MAX/Mobile section for a complete selection of mobile workstations.

(See pages 58-96)

**Below-counter Storage**

---

**Suspended Cabinets**

Mount under a variety of tables to permit height adjustability and system flexibility. Available in a variety of styles and sizes.

## How to Order a MAX System – STEP TWO: Choose System Components (continued)

Above-Counter Storage

---

**Suspended Wall Cases**

Mount on wall or support structure. Wide selection of heights, widths and depths. Choose from open and closed units. Hinged or sliding doors – solid or glass.

**Upper Cases**

Rugged cases rest directly on work surface or mount to wall. Solid or framed-glass doors. For use only on work surfaces supported by floor-mounted cabinets.

**Outer Shelves**

Hang on the outside of support structure. Available with or without lip in various depths. Tilting shelves and top shelves also available.

(See pages 123-128)

**Inner Shelves** Hang between upright supports. Available with or without lip. Can be positioned at the same height as outer shelves to provide up to 5' (1524 mm) of shelf depth.

(See pages 123-128)

---

**Flammable Liquid Storage**

---

**Flammable Liquid Storage**

Available in suspended, floor-mounted or mobile. For storage of flammable or combustible liquids. Convenient rear access panel.

## How to Order a MAX System – STEP THREE: Choose System Colors and Cabinet Options

Following are option menus for cabinets, insert panels and drawer and door pulls. Choose the options that best suit your specific requirements and preferences.

### Choosing MAX System Colors

MAX components are available in **18 standard** colors. Choose a single color for an individual component or for your entire system. Choose a base color for support structure frames, cabinet bodies and table frames, and an accent color for inserts and drawer and door fronts. It is not necessary to choose the same base and accent colors for each component in your system.

The following illustrations show typical MAX/Lab system modules and the location of base and accent colors.

Color selection guidelines are as follows:

**Support Structures** – Base color for framework; accent color or fabric for facing inserts. (Insert fronts and backs are considered independently.)

**Cabinets** – Base color for cabinet body; accent color for drawer and door fronts.

**Table Frames, Instrument Carts and Shelves** – Base color only.

**Fillers, Service Columns and Other Visible Accessories** – Base color only.

**Island Core with Cantilevered Table and Suspended Cabinet**

**IMPORTANT:** You may choose different base colors for each type of component in your system.

**Wall Rail Assembly with Cantilevered Table**

**Island Panel with Structural Table**

## System Colors

## 1 Powdercoat Colors

Select from 18 standard colors. Finished with a special powdercoating which has excellent chemical and abrasion-resistant characteristics.

Use the two-letter code for each color name to specify color choice.

## Steel Base Color

Code	Reference Color
<b>BK</b>	Black
<b>BL</b>	Blue
<b>BS</b>	Blue Slate
<b>BD</b>	Brown Burgundy
<b>CH</b>	Chameleon
<b>DK</b>	Dark Khaki
<b>G1</b>	Dove Gray
<b>G3</b>	Gray Slate
<b>HG</b>	Hunter Green
<b>IN</b>	Indigo
<b>KK</b>	Khaki
<b>PW</b>	Petal White
<b>PM</b>	Piedmont Green
<b>PL</b>	Platinum
<b>PA</b>	Purple
<b>SA</b>	Sand
<b>SS</b>	Sandstone
<b>SW</b>	Shell White

## Steel Accent Color

Code	Reference Color
<b>BK</b>	Black
<b>BL</b>	Blue
<b>BS</b>	Blue Slate
<b>BD</b>	Brown Burgundy
<b>CH</b>	Chameleon
<b>DK</b>	Dark Khaki
<b>G1</b>	Dove Gray
<b>G3</b>	Gray Slate
<b>HG</b>	Hunter Green
<b>IN</b>	Indigo
<b>KK</b>	Khaki
<b>PW</b>	Petal White
<b>PM</b>	Piedmont Green
<b>PL</b>	Platinum
<b>PA</b>	Purple
<b>SA</b>	Sand
<b>SS</b>	Sandstone
<b>SW</b>	Shell White

## 2 Inset Panel Fabric Colors

Code	Reference Color
<b>AE</b>	Amethyst
<b>AM</b>	Aquamarine
<b>BA</b>	Baltic
<b>BB</b>	Bleu Papier
<b>BN</b>	Blue Neutral
<b>CN</b>	Cherry Neutral
<b>DB</b>	Deep Burgundy
<b>GM</b>	Gray Mix
<b>GN</b>	Green Neutral
<b>LW</b>	Lake
<b>LC</b>	Lavender Neutral
<b>MR</b>	Medium Gray
<b>OP</b>	Opal
<b>QU</b>	Quartz
<b>SN</b>	Silver Neutral
<b>SP</b>	Silver Papier
<b>VT</b>	Verte Papier
<b>WW</b>	Wedgewood

**Recommendation:** Prior to making your final selection, please contact your representative to obtain samples.

## Island Cores

Island Cores are designed to provide support for cantilevered MAX/Lab work surfaces and storage units in applications requiring major services such as air, water, gas and vacuum. Island Cores are 12" (305 mm) deep, and are available in various widths in upper, lower, or full-height configurations. Reagent assemblies with or without electric service are available for lower and full-height island cores.

## Island Cores

**To be used with:**

- Table frames
- Suspended storage cabinets
- Core accessories

**Common features:**

- Structure includes chase for housing gas, air, vacuum, water, electrical and other services
- Work surfaces not included; refer to work surfaces section on pages 130-141 for specification guidelines and product choices
- Optional facing inserts are simple to install and remove, providing easy access to services
- Easily connected to adjacent cores
- Hanging devices for service lines included

- Includes floor angle support for base molding
- Chemical-resistant plastic filler blocks included
- Inserts with electric include one duplex box, 20-amp hospital-grade receptacle and flush plate per foot each side
- All electrical outlets and cover plates are ivory-colored
- 12" (305 mm) deep
- See pages 10-15 for ordering information

**Installation information:**

- Anchoring hardware provided; see page 166 for floor anchoring guidelines
- Leveling glides included for ease of installation

## Lower Island Cores — 36" High

Island Cores

To be used with:

- Lower island cores

Common features:

- Easy fastening to adjacent cores
- Chemical-resistant plastic filler blocks included
- Inserts with electric include one duplex box, 20-amp hospital-grade receptacle and flush plate per foot each side
- All electrical outlets and cover plates are ivory-colored

- 12" (305 mm) deep

- See pages 10-15 for ordering information

Installation information:

- All installation hardware provided

Upper Island Cores — 49" High

- 85" (2159 mm) high when combined with lower island core
- Used atop lower island core to accept upper storage and shelving
- No facing inserts or work surfaces available

Product No.	Width
FLE49200	24" (610 mm)

Upper Reagent Island Cores — 49" High

- 85" (2159 mm) high when combined with lower island core
- Used atop lower island core to accommodate cupsinks, fixtures, and utility services
- Reagent facing inserts included
- Facing inserts included
- Combine with work surface from lower island core
- Can be hard wired on either side
- Optional electric one or both sides

## Wall Cores

Wall Cores are designed for installation around the perimeter of your lab. They anchor to the wall and floor, and provide support for MAX/Lab cantilevered work surfaces and suspended cabinets. Wall cores are 8-3/4" (222 mm) deep, and are available in various widths in upper, lower, or full-height configurations. Reagent assemblies with or without electric service are available for lower and full-height wall cores.

## Wall Cores

**To be used with:**

- Suspended storage cabinets
- Table frames
- Core accessories

**Common features:**

- Structure includes chase for housing gas, air, vacuum, water, electrical and other services
- Work surfaces not included; refer to work surfaces section on pages 130-141 for specification guidelines and product choices
- Optional facing inserts are simple to install and remove, providing easy access to services
- Easily connected to adjacent cores
- Hanging devices for service lines not included

- Chemical-resistant plastic filler blocks included
- Inserts with electric include one duplex box, 20-amp hospital-grade receptacle and flush plate per foot each side
- All electrical outlets and cover plates are ivory-colored
- 8-3/4" (222 mm) deep
- See pages 16-20 for ordering information

**Installation information:**

- Floor anchoring hardware provided; see page 166 for anchoring guidelines
- Leveling glides included for ease of installation

## Core Accessories and Hardware

Be sure to specify all appropriate accessories for your MAX/Lab support structures.

**Reagent racks** can be added to existing lower or full-height island and wall cores with a variety of insert panels.

**End facings** conceal exposed ends, giving a finished appearance to your MAX/Lab system.

**Service and corner columns** channel piping, conduits, and drain lines while providing easy access to all of your services.

To assist in correct and convenient specification and installation, pertinent assembly information is provided. It is recommended that you review this section on pages 164-168 before specifying MAX/Lab core support structures.

Island Core with  
Reagent Panel and  
End Facing

## Core Accessories

**To be used with:**

- Existing lower island and wall cores
- Existing full-height island and wall cores

**Common features:**

- Chase in reagent rack to house utilities
- Electrical insert panels include one duplex box, 20 amp hospital-grade receptacle and flush plate per foot of reagent core

- Specify one frame and two insert panels for each reagent assembly

**Installation information:**

- Frames are attached with bolts and screws (provided)
- Panels snap in place with hook-and-loop fasteners

## Reagent Frames for Island and Wall Cores

## ■ Frame only

Product No.	Width
Add to existing full-height island cores

Add to existing lower island cores	
437H4180	24" (610 mm)
437H3180	30" (762 mm)
437H6180	36" (914 mm)
437H8180	48" (1219 mm)
437H0180	60" (1524 mm)
437H2180	72" (1829 mm)

## Insert Panels for Reagent Assemblies

- Specify two panels for each island or wall core reagent assembly

Product No.	Width
One plain insert panel	
465H2110	24" (610 mm)
465H0110	30" (762 mm)
465H3110	36" (914 mm)
465H4110	48" (1219 mm)
465H6110	60" (1524 mm)
465H7110	72" (1829 mm)

One electrical insert panel	
466H2110	24" (610 mm)
466H0110	30" (762 mm)
466H3110	36" (914 mm)
466H4110	48" (1219 mm)
466H6110	60" (1524 mm)
466H7110	72" (1829 mm)

Core Accessories

- To be used with:**
- Lower island or wall cores
  - Reagent racks
  - Upper island or wall cores

- Common features:**
- Closes off exposed ends of core support structures
- Installation information:**
- Hook-and-loop fasteners (provided) permit assembly without tools

End Facings

- 36" (914 mm) high

Product No.	Width	Base End Cover Style
For lower island cores		
FWA10200	5-1/2" (140 mm)	Center*
FWA10300	8-3/4" (222 mm)	Left-hand
FWA10400	8-3/4" (222 mm)	Right-hand
FWA10500	12" (305 mm)	Double
For lower wall cores		
FWA11200	5-1/2" (140 mm)	Center
FWA11300	8-3/4" (222 mm)	Left-hand
FWA11400	8-3/4" (222 mm)	Right-hand

\*Center style base end cover does not cover upright anchoring hardware, but only the 5-1/2" (140 mm) area between uprights.  
\*Left hand covers conceal center pipe chase plus the upright to the left.

Lower Bolting Hardware Only (for concealed ends)

Product No.
For island cores
950H5140
For wall cores
950H5150

- For island or wall core reagent racks
- 11" (279 mm) high
- 5-1/2" (140 mm) wide

Product No.
920H1010

- For upper island or wall cores
- 49" (1245 mm) high
- 5-1/2" (140 mm) wide

Product No.
920H1490

- For upper island or wall cores above reagent racks
- 38" (965 mm) high
- 5-1/2" (140 mm) wide

Product No.
920H1360

Core Accessories

- To be used with:**

  - Full-height island and wall cores

**Common features:**

  - Allows placement of electrical pedestals off the work surface and into the vertical space above the work surface - usually a wasted area
  - Vertical stacked instrumentation has a point-of-use plug-in instead of running cabling to a remote service feed
- Product includes the powder-coated vertical chase members (painted to match core finish), and a system of four vertically stacked junction boxes
  - Electrical and telecommunication components and cover plates are to be ordered through the Fixtures and Accessories Catalog

**Installation information:**

  - Junction boxes are to be hard-wired in the field by other trades
  - All raceway mounting hardware is included

Electrical/Telecommunications Raceway

Product No.	
920H1470	Electrical chase – MAX Riser, single outside end, inside facing
920H2480	Electrical chase – MAX Riser, double inside, double facing outlets
920H1480	Electrical chase – MAX Riser, double inside risers, single facing outlets
(Not for use with bench top uprights)	
Refer to page 125 for corresponding pocket shelf	

## Core Accessories

**To be used with:**

- Island or wall cores

**Common features:**

- Vertical sheathing that channels and conceals piping, electrical conduits, drain lines, and other services between ceiling and core tops
- Removable facings provide access to services

- Choice of sizes to match width of core

- Prohibits use of inner shelf

**Installation information:**

- Requires field cutting of hole in top of reagent rack or lower core

## Service Columns

- For island cores and bench top uprights
- Includes pair of cross rails to replace shelf at top of upper core

Product No.	Width of Core
Dimension A = 18" (457 mm)	
930H6620	24" (610 mm)

Product No.	Width
930H6610	18" (457 mm)
930H6710	24" (610 mm)

- Upper extensions for wall core service columns
- 12" (305 mm) high

Product No.	Width
930H6680	18" (457 mm)
930H6780	24" (610 mm)

Core Accessories

- To be used with:**

  - Island or wall cores

**Common features:**

  - Channels and conceals piping, electrical conduits, drain lines, and other services for cores and reagent racks
  - Removable facings provide access to services
- Specify one 85" (2159 mm) and one 36" (914 mm) unit for 121" (3073 mm) high columns
  - Various heights available to match height of service run to be concealed

**Installation information:**

  - Columns bolt to adjoining cores (all hardware provided)

Corner Columns

LKX03500      LKX01300      LKX04900      908H1240      LKX08400      908H0100

- Vertical column used to turn corner with island core
- Provides structural support for hanging components
- 12" (305 mm) wide by 12" (305 mm) deep

Product No.	Height
One-piece lower structural* LKX03500	36" (914 mm)
One-piece reagent structural LKX01300	11" (279 mm)
One-piece upper structural LKX04900	49" (1245 mm)
One-piece full-height 908H1240	85" (2159 mm)
Two-piece full-height LKX08400	85" (2159 mm)
Upper extension 908H0100	36" (914 mm)

\* Includes three lower end facings only. If opening between structural uprights needs to be covered, specify an island core end facing, page 23.

LJX03500      LJX01300      LJX04900      LJX08400      908H1040

- Vertical column used to turn corner with wall core
- 8-3/4" (222 mm) wide by 8-3/4" (222 mm) deep

Product No.	Height
One-piece lower structural LJX03500	36" (914 mm)
One-piece reagent structural LJX01300	11" (279 mm)
One-piece upper structural LJX04900	49" (1245 mm)
Two-piece full-height LJX08400	85" (2159 mm)
Upper extension 908H1040	36" (914 mm)

Core Accessories

Peninsula Columns

- Vertical column used to turn corner from wall core to island core
- Channels and conceals piping, electrical conduits, drain lines, and other services for cores and reagent racks
- Removable facings provide access to services
- Various heights available to match height of service run to be concealed
- Specify one 85" (2159 mm) and one 36" (914 mm) unit for 121" (3073 mm) high columns
- 8-3/4" (222 mm) deep by 12" (305 mm) wide

Product No.	Height
One-piece lower LHX03500	36" (914 mm)
One-piece reagent LHX01300	11" (279 mm)
One-piece upper LHX04900	49" (1245 mm)
Two-piece full-height LHX08400	85" (2159 mm)
Upper extension 908H1140	36" (914 mm)

Hardware for Core Support Structures

- Seismic brace kit
- Enables 24" (610 mm) through 72" wide (1829 mm) island or wall cores to meet Seismic requirements
- One brace kit required per core
- See page 166 for anchorage guidelines

Product No.	Length
For island cores	
901H2000	36" (914 mm)
	72" (1829 mm)
901H2100	24" (610 mm)
	30" (762 mm)
For wall cores	
901H2010	36" (914 mm)
	72" (1829 mm)
901H2110	24" (610 mm)
	30" (762 mm)

- Strut type service line support (each core comes with two)
- Adds extra support for service lines
- Attaches to interior of island and wall cores
- Installation hardware provided
- Ten assemblies included for each product number ordered

Product No.
900H1500

- Facing insert removal tool
- For quick access to service chase

Product No.
900H0050

## Island Panels

Island Panels are designed to provide support for MAX/Lab work surfaces and storage units in applications requiring electrical and data transmission services only.

Island panels are available with or without upper and lower painted steel or fabric-covered inserts. Island panels are 3-1/4" (83 mm) deep, and are available in a wide range of heights and widths to accommodate virtually any lab floorplan requirement.

## Island Panels

## Lower Island Panels — 36" High

**To be used with:**

- Cantilevered work surfaces
- Suspended storage units
- Upper island panels

**Common features:**

- Provides support structure where no plumbed services are required
- Easily fastened to adjacent panels, or connected to adjacent cores
- When ordered with electric, 24" (610 mm) and 30" (762 mm) wide island panels have one duplex box and 20 amp hospital-grade receptacle and flush plate at toe-base and work surface per side, all other panels have two each
- 3-1/4" (83 mm) deep
- See pages 10-27 for ordering information

**Installation information:**

- Work surface for island panels not included; see work surface section on pages 130-141
- Leveling glides included for ease of installation
- Floor angle for supporting base molding not included
- Floor brackets and anchors not included (See page 166)

## Open Island Panels — 47" High

**To be used with:**

- Cantilevered work surfaces
- Above-counter storage and shelving

**Common features:**

- Provides support structure where no plumbed services are required
- Structural support extending both above and below work surface height
- Easily fastened to adjacent panels, or connected to adjacent cores
- When ordered with electric, 24" (610 mm) and 30" (762 mm) wide island panels have one duplex box and 20 amp hospital-grade receptacle and flush plate at toe-base and work surface per side, all other panels have two each
- 3-1/4" (83 mm) deep
- See pages 28-37 for ordering information

**Installation information:**

- Work surface for island panels not included; see work surface section on pages 130-141
- Leveling glides included for ease of installation
- Floor angle for supporting base molding not included
- Floor brackets and anchors not included (See page 166)

Island Panels

To be used with:

- Cantilevered work surfaces
- Above-counter storage and shelving

Common features:

- Provides support structure where no plumbed services are required
- Structural support extending both above and below work surface height
- Easily fastened to adjacent panels, or connected to adjacent cores
- Chemical-resistant colored plastic filler blocks included

- When ordered with electric, 24" (610 mm) and 30" (762 mm) wide island panels have one duplex box and 20 amp hospital-grade receptacle and flush plate at toe-base and work surface per side, all other panels have two each
- 3-1/4" (83 mm) deep
- See pages 10-27 for ordering information

Installation information:

- Work surface for island panels not included; see work surfaces section on pages 130-141
- Leveling glides included for ease of installation
- Floor brackets and anchors not included

Open Island Panels

**To be used with:**

- Base cabinets (specified separately)
- Above-counter storage and shelving components

**Common features:**

- Single-panel core assembly is 85" (2159 mm) high
- Combination of panel support structures with or without service chase and modular steel base cabinets
- Specify two island panels with combined width of base cabinets
- Optional facing inserts and base cover
- See pages 10-27 for ordering information

**Installation information:**

- Panel-to-base cabinet attachment required

Open Island Panel Core Assembly

- Island panel frame with cover for underside of upper cross rail
- Work surfaces must be special ordered with notches to clear uprights – or – standard panel work surfaces can be used to cover area between uprights, see work surfaces section

## Wall Panels

Like island panels, wall panels are designed to provide support for MAX/Lab work surfaces and storage units in applications requiring electrical and data transmission services only. They bolt to the wall and floor and are available in a variety of sizes.

# Wall Panels

**To be used with:**

- Cantilevered components
- Above-counter storage and shelving

**Common features:**

- Provides support structure for cantilevered components where no plumbed services are required
- Bolts to both wall and floor
- Choice of open frame or facing inserts

- Panels with electric include one duplex box, 20-amp hospital-grade receptacle and flush plate per foot each side
- 3-1/4" (83 mm) deep
- See pages 10-27 for ordering information

**Installation information:**

- Floor brackets and anchors included
- Wall panels are shipped disassembled from the factory

Island and Wall Panel Accessories and Hardware

**Base covers** give your wall panels a finished appearance by concealing receptacles and conduit.

**Conversion panel accessories**, enable you to update existing MAX/Lab systems.

**Corner posts and corner fillers** allow you to connect island or wall panels to other panels or cores. Corner posts can be used with **power poles**, which conceal and route electrical, data and communication wires. Corner Fillers are available in a variety of sizes to accommodate the 90° intersection of two to four panels.

To assist in correct and convenient specification and installation, pertinent assembly information is provided. It is recommended that you review this section before specifying MAX/Lab panel support structures.

Power pole

Three-way and four-way corner filler

Floor anchor kit

## Island Panel Accessories

## Upper Conversion Frames, Covers and Facing Inserts for 85" Island Panels

- Painted steel open upper panels for field conversion of existing full-height 85" (2159 mm) MAX/Lab panels
- Order cover for underside of cross frame separately

Product No.	Width
438H2490	24" (610 mm)
438H3090	30" (762 mm)

Fabric-covered inserts	
453H2470	24" (610 mm)
453H3070	30" (762 mm)
453H3670	36" (914 mm)
453H4870	48" (1219 mm)
453H6070	60" (1524 mm)
453H7270	72" (1829 mm)

Island Panel Accessories

Lower Conversion Facing Inserts

- Painted steel facing inserts for field conversion of existing MAX/Lab island panels with steel toe-base
- Not intended to be used with wall panels
- Inserts with electric cutouts include duplex and flush plate only
- Order one insert for each side of island panel
- 3-1/4" (83 mm) deep

Product No.	Width
Facing inserts	
464H2280	24" (610 mm)
464H0280	30" (762 mm)
464H3280	36" (914 mm)
464H4280	48" (1219 mm)
464H6280	60" (1524 mm)
464H7280	72" (1829 mm)
Facing inserts with electric cutouts	
463H2280	24" (610 mm)
463H0280	30" (762 mm)
463H3280	36" (914 mm)
463H4280	48" (1219 mm)
463H6280	60" (1524 mm)
463H7280	72" (1829 mm)

Conversion Panel Base Covers

- Painted steel base covers for field conversion of existing MAX/Lab island panels with steel toe-base
- Not intended to be used with wall panels
- Covers with electric cutouts include duplex and flush plate only
- Order one base cover for each side of island panel
- 3-1/4" (83 mm) deep

Product No.	Width
Base covers	
465H2070	24" (610 mm)
465H0070	30" (762 mm)
465H3070	36" (914 mm)
465H4070	48" (1219 mm)
465H6070	60" (1524 mm)
465H7070	72" (1829 mm)
Base covers with electric cutouts	
466H2070	24" (610 mm)
466H0070	30" (762 mm)
466H3070	36" (914 mm)

466H6070	60" (1524 mm)
466H7070	72" (1829 mm)

Conversion Electrical Kit

- Electric kit for use with 466H series base covers and 463H series facing inserts
- Includes bracket, "J" box, duplex and cover
- Ivory flush plate and receptacle

**Product No.**  
901H3100

Island Panel Accessories

Corner Posts for Island Panels

- For connecting island panels to other panels or cores
- Connects components of equal or different heights
- Specify corner post based on height of tallest component
- Provision for two-, three-, and four-way connections at 30° increments from 90° to 180°
- Four connections maximum
- Accommodates power pole for wire and cable management

Product No.	Height of Tallest Component
903H4260	26"+ (660 mm+)
903H4290	29"+ (737 mm+)
903H4360	36"+ (914 mm+)
903H4490	49"+ (1245 mm+)
903H4660	66"+ (1676 mm+)
903H4840	85"+ (2134 mm+)

Power Poles

- Use between corner post and ceiling to conceal and route electrical, data and communication wires
- Telescoping power pole has locking collar to set height
- Ceiling trim plate and junction box included
- When added to length of corner post, must accommodate ceiling height
- 2-3/10" (58 mm) inside diameter

Product No.	Height
930H6510	72" (1829 mm)

Corner Fillers

- Two-way corner filler
- Accommodates 90° intersection of two island panels
- Connects island panels of equal or different heights
- Specify corner filler based on height of lowest island panel
- No corner post required
- Cannot be used with power pole

Product No.	Height
904H2360	36" (914 mm)
904H2490	47" (1194 mm)
904H2670	67" (1702 mm)
904H2840	84" (2134 mm)

- Three-way and four-way corner filler
- Accommodates 90° intersection of three or four island panels
- Connects island panels of equal or different heights
- Specify corner filler based on height of lowest island panel
- No corner post required
- 85" (2159 mm) high unit only may be used with power pole

Product No.	Height
904H4360	36" (914 mm)
904H4490	47" (1194 mm)
904H4670	67" (1702 mm)
904H4840	85" (2159 mm)

Island Panel Accessories

Hardware for Island Panel Support Structures

- Facing insert removal tool
- For quick access to wiring

Product No.  
900H0050

- Floor anchor kit for securing both uprights of an island panel to the floor
- Includes one cement (Rawl) anchor per end
- Complete instructions included

Product No.  
901H3000

Cover Assembly for Island Panel without Service Chase

- Panel-to-base cabinet attachment assembly without service chase
- Specify one cover assembly per island panel

Product No.  
903H3500

Island Panel Service Corridor Kit

- Use to create 24" (610 mm) wide walk-in plumbing access space behind two island panel assemblies
- Load rated at 760 lbs. per side
- One pair of brackets required for each panel
- Color per order
- Attaching hardware including floor anchor kit (901H3000) included

Product No.  
901H3240 One pair of brackets

Support Legs for Cantilevered Work Surfaces

- Provides additional support for cantilevered work surface runs mounted on panel support structures
- Attaches to cantilevered work surface support frame
- Adjustable in 1" (25 mm) increments

Product No.	Depth
225H0230	23" (584 mm)
225H0290	29" (737 mm)

Wall Panel Accessories

Base Covers for Wall Panels

- Cover plate for bottom of wall panel
- Enclosure to mount base molding or AC receptacles and conduit

Product No.	Width	
922H0500	24"	(610 mm)
922H0550	30"	(762 mm)
922H0510	36"	(914 mm)
922H0520	48"	(1219 mm)
922H0530	60"	(1524 mm)
922H0540	72"	(1829 mm)

Floor Angle Bracket for Island and Wall Panels

- Closes off gap between bottom of panel and floor to mount base molding
- MAX/Lab cores and MAX/Wall frames include two floor angle brackets per unit
- Each product number includes ten angles

Product No.	Fits Frame Width	
900H5240	24"	(610 mm)
900H5300	30"	(762 mm)
900H5360	36"	(914 mm)
900H5480	48"	(1219 mm)
900H5600	60"	(1524 mm)
900H5720	72"	(1829 mm)

## Wall Rail System

The MAX/Lab wall rail system is intended for use where no services are required, and where load-bearing requirements are light.

The MAX/Lab wall rail system is intended for new construction or major renovation projects, where adequate blocking can be provided. With a 1" (25 mm) profile, wall rails won't infringe on your lab floor space. Easy to specify and economical to install, these supports attach directly to the wall.

**Full-height Wall Rail System**

**Above-counter Wall Rail System**

## Wall Rail System

### To be used with:

- Cantilevered work surfaces
- Shelves

### Features:

- Attaches to wall to provide support structure where no services are required
- For areas requiring light load-bearing capacities
- Above-counter and full-height systems available
- System includes upper and lower horizontal rails, and three vertical rails
- Options include insert panels, rail covers, and island supports
- Specify storage components separately
- 8' (2438 mm) long

- Only 1" (25 mm) deep

- 85" (2159 mm) high

### Installation information:

- All fasteners must contact wall structural supports, studs or blocking; see page 171 for wall blocking guidelines
- Procure mounting hardware appropriate to your wall material
- One No. 10 pan-head screw required every 12" (305 mm) to attach horizontal rails
- One No. 10 flat-head screw required in each pre-drilled pilot hole to attach vertical rails; must be 1" (25 mm) longer than pan-head screws on the horizontal rails

## Full-height Wall Rail Assembly

### IMPORTANT:

Significant blocking required. Do not install on finished walls with insufficient blocking. See page 171 for blocking guidelines.

## Vertical Rails

- For full-height system
- 79" (2007 mm) high
- Specify two single-slotted and one double-slotted vertical rail for each wall rail system

### Product No.

Single-slotted  
483H9010

Double-slotted  
483H9020

## Horizontal Rails

- 8' (2438 mm) long
- Both upper and lower rails included in one product number

### Product No.

483H9000

## Wall Rail System

### To be used with:

- Cantilevered work surfaces
- Shelves

### Features:

- Attaches to wall to provide support structure where no services are required
- For areas requiring light load-bearing capacities
- Above-counter and full-height systems available
- System includes upper and lower horizontal rails, and three vertical rails
- Options include insert panels, rail covers, and island supports
- Specify storage components separately
- 8' (2438 mm) long

- Only 1" (25 mm) deep

- 36" (914 mm) high

### Installation information:

- All fasteners must contact wall structural supports, studs or blocking; see page 171 for wall blocking guidelines
- Procure mounting hardware appropriate to your wall material
- One no. 10 pan-head screw required every 12 inches to attach horizontal rails
- One No. 10 flat-head screw required in each pre-drilled pilot hole to attach vertical rails; must be 1" (25 mm) longer than pan-head screws on the horizontal rails

## Above-counter Wall Rail Assembly

### Important:

Significant blocking required. Do not install on finished walls with insufficient blocking. See page 171 for blocking guidelines.

## Vertical Rails

- For above-countersystem
- 36" (914 mm) high
- Specify two single-slotted and one double-slotted vertical rails for each wall rail system

### Product No.

Single-slotted  
483H9030

Double-slotted  
483H9040

## Horizontal Rails

- 8' (2438 mm) long
- Both upper and lower rails included in one product number

### Product No.

483H9000

### Wall Rail Accessories

**Wall rail covers** are available in any required length to give your wall rail system a finished appearance.

Steel or fabric-covered **insert panels** can be specified for either above-counter or full-height wall rail systems.

**Island supports** must be specified when extending an island core or panel from a wall rail system, or when joining two wall rail systems to one another.

Pertinent assembly information is also provided in this section and should be reviewed before specifying a wall rail system. Typical configuration drawings also are included.

**Wall Rail System with Optional Insert Panel and Rail Cover**

**Island Core Support Panel**

Wall Rail Accessories

Insert Panels

Wall Rail Accessories

Island Supports

- Use to extend an island core from a wall rail system
- 12" (305 mm) wide

Product No.	Description
483H9060	Island core support panel

- Use to extend island panel at one end, or use between two wall rail systems
- 3-1/4" (83 mm) wide

Product No.	Description
483H9050	Island panel support bracket

## Bench-Top Uprights

Unique MAX/Lab **bench-top uprights** can help you utilize wasted space above a work surface without investing in an entirely new furniture system.

These uprights bolt easily to any work surface, and accommodate any of the full-line of MAX/Lab wall cases or shelving components. With bench-top uprights, it's possible to achieve up to five feet of shelf depth at a single level.

Bench-Top Uprights

Island Mounted Bench-top Uprights

- 49" (1245 mm) high x 12" (305mm) deep
- Bolts to any work surface – new or existing
- Provides up to five feet of storage at a single level
- Components adjustable in 1" (25 mm) increments
- Installation requires drilling holes in work surface
- Bench-top brace kit no. 901H2200 required – one per island assembly
- Weight capacity: 1,080 lbs.
- Ideal for instrumentation

Product No.	Width
436H4920	24" (610 mm)
436H3920	30" (762 mm)
436H6920	36" (914 mm)
436H8920	48" (1219 mm)
436H0920	60" (1524 mm)
436H2920	72" (1829 mm)

Bench-top Brace Kit

- Brace kit for work surface mount bench-top uprights
- Install below work surface
- One brace kit required per island assembly

Product No.
901H2200

Wall Mounted Bench-Top Uprights

- Use on top existing work surface
- Structure includes chase for housing gas, air, vacuum, water, electrical and other services
- 49" (1245 mm) high, 8-3/4" (222 mm) deep
- All mounting hardware provided
- See page 296 for plumbing and mounting details

Product No.	Width
436H4980	24" (610 mm)
436H3980	30" (762 mm)
436H6980	36" (914 mm)
436H8980	48" (1219 mm)
436H0980	60" (1524 mm)
436H2980	72" (1829 mm)

Upper Island Cores

- Use on existing work surface
- Structure includes utility pass-through for use with vertical service pedestals, series 950H
- 49" (1245 mm) high, 12" (305 mm) deep
- All mounting hardware provided
- See page 296 for mounting details

Product No.	Width
440H4920	24" x 49" x 12" (610 x 1244 x 305 mm)
440H3920	30" x 49" x 12" (762 x 1244 x 305 mm)
440H6920	36" x 49" x 12" (914 x 1244 x 305 mm)
440H8920	48" x 49" x 12" (1219 x 1244 x 305 mm)
440H0920	60" x 49" x 12" (1524 x 1244 x 305 mm)
440H2920	72" x 49" x 12" (1828 x 1244 x 305 mm)

## Using MAX/Lab Tables

Table frames are a basic building block in the MAX/Lab system. Once you've selected a support structure, you can begin planning work surfaces and storage using Cantilevered, Structural and Freestanding tables (work surfaces are specified separately, refer to pages 130-141 for surfaces).

**Cantilevered tables** attach directly to all MAX/Lab support structures. They can function simply as work surfaces, or can provide support for suspended cabinets.

In addition to their role as work surfaces and storage supports,

**Structural tables** provide support for MAX/Lab island and wall cores and panels that cannot be bolted to the floor.

**Freestanding tables** are ideal for situations where flexibility is important. These tables can be repositioned easily in the lab as they abut, but do not attach to, support structures. Many models support suspended cabinets, and several are height-adjustable and available with casters for even greater adaptability.

Work surface height is adjustable with cantilevered and adjustable-height four-leg tables, making them ideal ADA solutions.

**Cantilevered Table and  
Suspended Cabinets  
with Wall Panel**

**Structural Table with Island Core**

## Cantilevered Table Frames

**To be used with:**

- Island or wall core
- Island or wall panel
- Wall rail system

**Common features:**

- Table frame only – work surface must be ordered separately; see pages 130-141
- Vertical adjustment in 1" (25.4 mm) increments
- Includes surface leveling system
- 20" (508 mm) high

**■ ADA compliant****Component load ratings:**

- Cantilevered work surface mounted on island or wall core or wall panel – 600 lbs
- Cantilevered work surface mounted to a wall rail system – 400 lbs.
- Cantilever work surface mounted to island panel is configuration dependent – see pages 175-176
- Refer to core and/or panel assembly guidelines, pages 160-176, for maximum load ratings of support structure assemblies
- Full width suspended cabinet will be 1/2" (13 mm) wider than frame

## Cantilevered Table Frames

- Offset space at rear edge for cable drop
- 23" (584 mm) deep will accommodate cabinets with a total combined width of 6" (152 mm) less than the table frame
- 72" (1829 mm) wide tables have additional horizontal support channel

Product No.	Width
23" (584 mm) deep	
CEX40300	24" (610 mm)
CEX30300	30" (762 mm)
CEX60300	36" (914 mm)
CEX80300	48" (1219 mm)
CEX00300	60" (1524 mm)
CEX20300	72" (1829 mm)

- Offset space at rear edge for cable drop
- 26" (660 mm) deep will accommodate cabinets along the entire width of the table frame
- 72" (1829 mm) wide tables have additional horizontal support channel

Product No.	Width
26" (660 mm) deep	
224H2407	24" (610 mm)

224H3607	36" (914 mm)
224H4807	48" (1219 mm)
224H6007	60" (1524 mm)
224H7207	72" (1829 mm)

- Offset space at rear edge for cable drop
- 29" (737 mm) deep will accommodate cabinets with a total combined width equal to the width of the table frame
- 72" (1829 mm) wide tables have additional horizontal support channel

Product No.	Width
29" (737 mm) depth	
CEX40900	24" (610 mm)
CEX30900	30" (762 mm)
CEX60900	36" (914 mm)
CEX80900	48" (1219 mm)
CEX00900	60" (1524 mm)
CEX20900	72" (1829 mm)

- Offset space at rear edge for cable drop
- 23" (584 mm) deep – will accommodate cabinets with a total combined width of 6" (152 mm) less than the table frame
- 8" (203 mm) support arms, allows work surface to be lowered to 18" (457 mm) height to accommodate top-loaded instrumentation
- Weight capacity – 400 lbs.
- 72" (1829 mm) wide tables have additional horizontal support channel

Product No.	Width
23" (584 mm) deep	
224H4730	24" (610 mm)
224H3730	30" (762 mm)
224H6730	36" (914 mm)
224H8730	48" (1219 mm)
224H0730	60" (1524 mm)
224H2730	72" (1829 mm)

Cantilevered Table Frames

- To be used with:**

  - Island or wall core
  - Island or wall panel
  - Wall rail system

**Common features:**

  - Table frame only – work surface must be ordered separately; see pages 130-141
  - Vertical adjustment in 1" (25 mm) increments
  - Includes surface leveling system
  - 20" (508 mm) high
- Component load ratings:**

  - Cantilevered work surface mounted on island or wall core or wall panel – 600 lbs.
  - Cantilevered work surface mounted to a wall rail system – 400 lbs.
  - Cantilever work surface mounted to island panel is configuration dependent – see pages 175-176
  - Refer to core and/or panel assembly guidelines, pages 160-176, for maximum load ratings of support structure assemblies

Fixed-height Cantilevered Corner Table Frames

- 90° or 120° corners
- Optional 3-piece front closure panel for 36" (914 mm) wide 90° tables hides plumbing fixtures on sink units
- Not designed to support cabinets
- Assembly required

Cantilevered Corner Table – 90°

Cantilevered Corner Table – 90°  
with Three-sided Closure Panel

Cantilevered Corner Table – 120°

Product No.	Width	Depth
90° corner table frame		
CBX60600	36" (914 mm)	23" (584 mm)

120° corner table frame		
CDX60600	36" (914 mm)	23" (584 mm)
CDX60900	36" (914 mm)	29" (737 mm)

## Freestanding Table Frames

### To use:

- Abut to any MAX/Lab support structure
- Abut to wall
- Use in any location as freestanding work surface

### Common features:

- Four-leg adjustable-height table frames
- Table frame only – work surface must be ordered separately  
See pages 130-141
- Accepts suspended cabinets for storage
- Optional storage shelf available

### Installation Information:

- Leg height adjust easily with minimal tools
- Space available for cabinetry equals table width less 6" (152 mm)

## Four-leg Adjustable-height Table Frames with Levelers

- Height-adjustable from 28" (711 mm) to 37-3/8" (949 mm)
- Leveler load rating - 600 lbs
- Caster load rating - 300 lbs

Can replace "L" with "C" for caster table

Product No.	Width	Product No.	Width
23" (584 mm)		29" (737 mm)	
250H3240L	24" (610 mm)	250H9240L	24" (610 mm)
250H3300L	30" (762 mm)	250H9300L	30" (762 mm)
250H3360L	36" (914 mm)	250H9360L	36" (914 mm)
250H3480L	48" (1219 mm)	250H9480L	48" (1219 mm)
250H3600L	60" (1524 mm)	250H9600L	60" (1524 mm)
250H3720L	72" (1829 mm)	250H9720L	72" (1829 mm)

## Adjustable-height Table Frame with Levelers

- Height-adjustable from 30" (762 mm) to 36" (914 mm)
- Does not accept suspended cabinets
- Load rating - 300 lbs.
- This table ships KD "Knocked Down" and can be assembled using simple hand tools – eight machine screws complete the assembly
- Order mobile base units separately
- Depth is 28-1/2" (724 mm)

Product No.	Width
251H9240	24" (610 mm)
251H9300	30" (762 mm)
251H9360	36" (914 mm)
251H9420	42" (1067 mm)
251H9480	48" (1219 mm)
251H9600	60" (1524 mm)
251H9720	72" (1829 mm)

## Caster Kit for Four-leg Adjustable-height Table Frames

- For field-conversion of four-leg adjustable-height tables to mobile tables
- Four 4" (102 mm) diameter rubber-tired, hard-floor casters included with each order number

**Product No.**  
900H2300

Can only be used with 250H series tables

## Steel Storage Shelf for Four-leg Adjustable-height Table Frames

Product No.	Width	Product No.	Width
For 23" (584 mm) deep table frame		For 29" (737 mm) deep table frame

923H3720	72" (1829 mm)	923H9720	72" (1829 mm)

Can only be used with 250H series tables

**To specify MAX/Mobile:**

1. Choose specific **system components** (pages 60-61), including modular workstation components, service delivery modules, cabinets and transporters. A full line of steel cabinets designed especially for the MAX/Mobile system is included in this catalog.  
Refer to other MAX System catalogs for additional components for constructing modular workstation assemblies.  
Refer to the accessories sections for fillers, supports, mounting hardware and drawer partitions.
2. Use **option menus** (pages 62-63) to choose system colors and cabinet options.
3. Select modular **work surfaces** (pages 130-141) based upon matching performance characteristics to the work performed in the lab.
4. Choose **system accessories** as needed from the Fixtures and Accessories Product Specification Catalog.

All products are shipped assembled unless otherwise noted.

**MAX Adaptable Laboratory Furniture Systems****MAX/Mobile**

---

For a completely mobile lab, choose from a wide variety of furniture components and service delivery alternatives to accommodate the laboratory on the move.

## System Components

### Overhead Service Carrier

Provides overhead delivery of plumbed and wired services, minimizing floor penetrations. Available in widths from 24" (610 mm) to 72" (1828 mm). Telescoping, height-adjustable, slotted uprights hold equipment shelves.

### Vertical Overhead Service Carrier

Provides overhead delivery of all services, minimizing floor penetrations. For use with mobile workstations.

### Docking Station

Provides service delivery for mobile workstations and carts. Sink, plumbed services and electrical/ data in a single station.

## Service Delivery Modules

One key to optimizing the fixed footprint in a laboratory is to reduce or concentrate the floor penetration space of service lines. Service delivery modules are available in both overhead and floor-mounted configurations. Overhead service carriers move services overhead to free up floor space.

Floor-mounted docking stations concentrate service lines in a small area and are ideal for use with transporters.

### Mobile Workstations

Holds 900 lbs. Shelves and work surfaces adjustable in 1" (25 mm) increments. Choose from a wide variety of shelf and suspended cabinet combinations.

### Heavy-duty Mobile Workstations

Holds 2,000 lbs. Shelves and work surfaces adjustable in 1" (25 mm) increments. Features locking casters and built-in levelers for added stability. Accepts all MAX/Lab storage components. Available in 36" (914 mm), and 78" (1981 mm) heights, and widths from 30" (762 mm) to 72" (1828 mm).

### Equipment Rack

Holds 2,800 lbs. Shelves and work surfaces adjustable in 1" (25 mm) increments. Includes levelers and industrial two-way locking casters. Features two height-adjustable shelves and work surface. Available in 36" (914 mm), 48" (1219 mm) and 60" (1524 mm) widths.

## Transporters

Mobile workstation units with the same storage capacity and functionality as casework, tables, equipment racks and specialized mobile platforms. Transporters facilitate rapid rearrangement of room layout and are ideal for transporting, sharing and servicing lab instruments and equipment.

### Mobile Height-adjustable Table

Height-adjustable from 31" (787 mm) to 40-3/8" (1026 mm) with locking casters. Can be used with suspended cabinets or shelf. 300 lbs. load rating. Available in 23" (584 mm) or 29" (736 mm) depth and various widths.

### Robotics Table

Heavy-duty welded steel construction holds 900 lbs. Locking casters and built-in levelers for enhanced stability. Available in various table depths and widths.

## System Components

### Modular Workstation Assemblies

Utilize free-standing modular support structures to support work surfaces and storage components. The assemblies are not built-in or attached to the building structure to facilitate easy disassembly and reconfiguration.

### Mobile Cabinets

Equipped with modular work surfaces, mobile cabinets enhance overall flexibility. The units can be parked under cantilever table frames to duplicate the functionality of fixed casework and easily relocated to provide knee or equipment space or facilitate floor cleaning. Mobile cabinets can be used to quickly expand work surface space and are ideal for transporting or sharing supplies and instruments.

## System Colors

MAX/Mobile components are available in 18 standard colors. Choose a single color for any individual component or for the entire system or choose a base color for support structure frames, cabinet bodies and table frames, and an accent color for inserts and drawer and door fronts.

The following illustrations show typical MAX/Mobile system modules and the location of base and accent colors.

Color selection guidelines are as follows:

**Support Structures** – Base color for framework; accent color or fabric for facing inserts. (Insert fronts and backs are considered independently.)

**Cabinets** – Base color for cabinet body; accent color for drawer and door fronts.

**Table Frames, Instrument Carts & Shelves** – Base color only.

**Fillers, Service Columns and Other Visible Accessories** – Base color only.

**IMPORTANT:** Different base colors can be selected for each type of component in your system.

## System Colors

## 1 Powdercoat Colors

Select from 18 standard colors. Finished with a special powdercoating which has excellent chemical and abrasion-resistant characteristics.

Use the two-letter code for each color name to specify color choice.

## Steel Base Color

Code	Reference Color
<b>BK</b>	Black
<b>BL</b>	Blue

**Recommendation:** Prior to making your final selection, please contact your representative to obtain samples.

## Work Surfaces

---

Proper selection of work surface material is critical in creating a functional laboratory. MAX/Lab offers two basic types of work surface for your MAX/Mobile system. Modular Work Surfaces are used with table frames with a total surface width of 72" (1829 mm) or less.

Continuous Work Surfaces are used with floor-mounted cabinets and cantilevered table frames and are ordered by the lineal foot for runs over 72" (1829 mm) wide.

Work surfaces are available in your choice of epoxy resin and phenolic resin.

**See Work Surfaces Section (pages 130-141).**

## Accessories

---

A variety of accessories are available for the MAX/Mobile Furniture System.

**Divider Inserts** add privacy to workstations while maintaining the system's attractive appearance. **Marker Boards** and **Tackboards** provide extra convenience.

Easy to install **Task Lights** are available to enhance accuracy and productivity in your lab. Task lights convert from an under-shelf unit to a freestanding lamp.

Other accessories, including an **Adjustable Keyboard Platform** and **Pullboard**, make the MAX/Mobile system more comfortable and convenient for paperwork tasks.

**Refer to the Hamilton Fixtures and Accessories Catalog for the complete offering of laboratory accessories.**

## Service Delivery Modules

MAX/Mobile service delivery modules minimize the fixed footprint of service line penetrations at the floor by isolating service lines in localized docking stations or delivering the majority of services in overhead modules.

Strategically located around the laboratory, these modules allow for equipment movement with no loss of functionality.

**Overhead Service Carriers** provide overhead delivery of plumbed and wired services, minimizing floor penetrations. Available in widths from 24" (610 mm) to 72" (1828 mm). Telescoping, height-adjustable slotted uprights hold equipment shelves.

**Vertical Overhead Service Carriers** provide overhead delivery of all services, minimizing floor penetrations. For use with mobile workstations and carts.

**Docking Stations** provide service delivery for mobile workstations and carts, housing sinks, plumbed services and electrical/data in a single station.

**MAX/Mobile Overhead Service Carrier**

**Overhead Service Carriers** deliver plumbed and wired services from above, minimizing floor penetrations. Available in widths from 24" (610 mm) to 72" (1828 mm). May be ganged end-to-end for a continuous run. Telescoping, height-adjustable slotted uprights support equipment shelves and wall cases. Telescoping, height-adjustable slotted uprights support equipment shelves and wall cases.

Overhead Service Carrier

Common Features

- Fixture holes are plugged with ABS plastic caps
- Electrical/teledata junction boxes are factory attached, order outlets separately from the Hamilton Fixtures and Accessories Catalog
- Colors: Base color and optional accent color – per order
- Carrier body is 8-1/2" (216 mm) high x 18" (457 mm) deep
- Order vertical ceiling posts, ceiling extensions and mounting gussets separately

Ten steps to order

Step	Product
1	Carrier body with or without lights
2	Ceiling post assembly
3	Ceiling extension assembly
4	Ceiling riser gussets (if specified)
5	End umbilical assembly (if specified)
6	Filler panels for umbilical chases (if specified)
7	End cover plates and end panels (if specified)
8	Patch panels for the underside of the carrier body
9	Service fixtures, electrical and teledata outlets
10	Localized exhaust unit

1 Carrier Body without Light

Unit Width	Fixture Holes	Receptacles
24" (610 mm)	8	2
30" (762 mm)	10	2
36" (914 mm)	12	2
48" (1219 mm)	16	3
60" (1524 mm)	20	4
72" (1829 mm)	24	4

Product No.	Width
V2SC0000	24" (610 mm)
V9SC0000	30" (762 mm)
V3SC0000	36" (914 mm)
V4SC0000	48" (1219 mm)
V5SC0000	60" (1524 mm)
V6SC0000	72" (1829 mm)

1 Carrier Body with Light

- Includes two-tube fluorescent light fixture(s)

Unit Width	Fixture Holes	Receptacles
30" (762 mm)	10	2
36" (914 mm)	12	2
48" (1219 mm)	16	3
60" (1524 mm)	20	4
72" (1829 mm)	24	4

Product No.	Width
V9SCL000	30" (762 mm)
V3SCL000	36" (914 mm)
V4SCL000	48" (1219 mm)
V5SCL000	60" (1524 mm)
V6SCL000	72" (1829 mm)

Overhead Service Carrier

2 Ceiling Post Assembly

- Set of two ceiling posts and pipe supports to hang carrier body from ceiling area
- Each post is 1-1/4" thick x 6" wide (32 mm x 152 mm)
- Includes strut support

Product No.	Height
900V3030	36" (914 mm)
900V3040	48" (1219 mm)
900V3050	60" (1524 mm)

4 Ceiling Gusset Assembly

- Set of two ceiling gussets to add extra stability to ceiling extension
- Each gusset is 8-1/2" high x 18" wide (216 mm x 457 mm)

Product No.
900V3000

3 Ceiling Extension Assembly

- Set of two ceiling extension posts to insert into ceiling posts to add up to 24" (610 mm) to distance from carrier body to ceiling area

Product No.	Height
900V3020	36" (914 mm)

5 End Umbilical Assembly

- Six-inch deep end umbilical for utility distribution when center mechanical feeds are not an option
- With removable access panel
- 18" wide x 6" deep (457 mm x 152 mm)

Product No.	Height
V8EC4000	45" (1143 mm)
V8EC5000	57" (1448 mm)
V8EC6000	69" (1753 mm)

Overhead Service Carrier

6 Ceiling Post Assembly

- Set of two filler panels to enclose space between ceiling posts (center shelf is removed providing pipe chase from ceiling to carrier)
- Includes attaching hardware

Product No.	Fits Carrier Width	
12" (305 mm) high panels		
V2PC1000	24"	(610 mm)
V9PC1000	30"	(762 mm)

V5PC3000	60"	(1524 mm)
V6PC3000	72"	(1829 mm)

7 Carrier Body End Covers

- Set of two end cover assemblies to enclose exposed ends of carrier body
- Includes attaching hardware

Product No. 900V3010

## Overhead Service Carrier

## How to order and specify patch panels and lights for the overhead service carrier

- 1 Order appropriate electrical/teledata outlets and cover plates from the Hamilton Fixtures and Accessories catalog
- 2 Order appropriate service fixtures from the Hamilton Fixtures and Accessories catalog
- 3 Order task light  
(one each – 900V3250 24" (610 mm) task light)
- 4 Order patch panel  
(one each – 900V3060 6" (152 mm) patch panel)
- 5 Order snorkel panel  
(one each – 900V3080 6" (152 mm) snorkel panel)
- 6 Order patch panel  
(one each – 900V3120 12" (305 mm) patch panel)
- 7 Order appropriate shelving from pages 123-128

## 8 Patch Panel Assembly

- Use to enclose light panel area
- Patch panels must be ordered when no light is required
- Includes attaching hardware

Product No.	Length
Blank panels	
900V3240	24" (610 mm)
900V3300	30" (762 mm)
900V3360	36" (914 mm)
900V3180	18" (457 mm)
900V3120	12" (305 mm)
900V3060	6" (152 mm)
Snorkel panels for use with localized exhaust unit	
900V3070	6" (152 mm)
900V3080	6" (152 mm)

## Opening Dimensions for Patch Panels and Light Assemblies

- Patch panels must be ordered when no light assembly is required

Overhead Service Carrier

9 Light Assemblies

- Use to field convert “SC” series carriers, or to have a single light in 60” (1524 mm) and 72” (1829 mm) long carriers
- Includes lamp assembly, lens and lens frame, two fluorescent light tubes, and attaching hardware

Product No.	Length	Electrical Rating
900V3250	24” (610 mm)	Two 20W bulbs
900V3370	36” (914 mm)	Two 40W bulbs

10 Localized Exhaust Unit

Order from the Hamilton Fume Hood & Accessories Catalog

**Vertical Overhead Service Carrier**

Provide overhead delivery of plumbed and wired services, minimizing floor penetrations. This product is ideal for use with mobile workstations and carts.

**MAX/Mobile Instrument Cart****Create Your Own Mobile Instrument Cart**

Select from components on the next few pages to create the exact instrument cart you require. Instrument cart assembly consists of cart frame, cantilever table frame, work surface and shelves.

Single work surface load rating – 600 lbs.

Split work surface load rating – 300 lbs.

Total load rating:

Standard duty cart – 900 lbs.

Heavy-duty cart – 2,000 lbs.

**Typical Cart Configurations**

## Mobile Instrument Cart Frames

## Standard Duty Lower Frame Assembly

- 36-1/2" (927 mm) high
- Shipped knocked down
- 900 lb. capacity
- For shelving, see pages 123-128
- The KD assembly is made up of two products: A (base) and B (uprights); to order the base or uprights separately, replace the KD in the product number with either A or B

Product No.	Width
950H0390KD	24" (610 mm)
950H0410KD	30" (762 mm)
950H0420KD	36" (914 mm)
950H0500KD	48" (1219 mm)
950H0510KD	60" (1524 mm)
950H0520KD	72" (1829 mm)

## Standard Duty Lower Double Frame Assembly

- 36-1/2" (927 mm) high
- Shipped knocked down
- 900 lb. capacity
- For shelving, see pages 123-128
- The KD assembly is made up of two products: A (base) and B (uprights); to order the base or uprights separately, **replace** the KD in the product number with either A or B

Product No.	Width
950H0530KD	72" (1829 mm) Middle upright is centered (shown)
950H0440KD	72" (1829 mm) Middle upright is offset = 24" right side and 48" left side split
950H0430KD	72" (1829 mm) Middle upright is offset = 48" right side and 24" left side split

## Standard Duty Full-height Frame Assembly

- One-piece upright frame assembly
- 79" (2007 mm) high
- Shipped knocked down
- 900 lb. capacity
- For shelving, see pages 123-128
- The KD assembly is made up of two products: A (base) and B (upright assembly); to order the base or upright assembly separately, **replace** the KD in the product number with either A or B

Product No.	Width
950H0460KD	30" (762 mm)
950H0470KD	36" (914 mm)
950H0540KD	48" (1219 mm)
950H0550KD	60" (1524 mm)
950H0560KD	72" (1829 mm)

## Standard Duty Full-height Double Frame Assembly

- One-piece upright frame assembly
- 79" (2007 mm) high
- Shipped knocked down
- 900 lb. capacity
- For shelving, see pages 123-128
- The KD assembly is made up of two products: A (base) and B (upright assembly); to order the base or upright assembly separately, **replace** the KD in the product number with either A or B

Product No.	Width
950H0570KD	72" (1829 mm) Middle upright is centered (shown)
950H0480KD	72" (1829 mm) Middle upright is offset = 24" right side and 48" left side split
950H0490KD	72" (1829 mm) Middle upright is offset = 48" right side and 24" left side split

## Mobile Instrument Cart Frames

## Standard-duty Full-height Frame Assembly with Leg Levelers

- One-piece upright frame assembly
- 79" (2007 mm) high
- Shipped knocked down
- 900 lb. capacity
- For shelving, see pages 123-128
- The KD assembly is made up of two products: A (base) and B (upright assembly); to order the base or upright assembly separately, **replace** the KD in the product number with either A or B

Product No.	Width
950H1460KD	30" (762 mm)
950H1470KD	36" (914 mm)
950H1540KD	48" (1219 mm)
950H1550KD	60" (1524 mm)
950H1560KD	72" (1829 mm)

## Standard-duty Lower Instrument Cart Double Frame Assembly with Leg Levelers

- 36-1/2" (927 mm) high
- Shipped knocked down
- 900 lb. capacity
- For shelving, see pages 123-128
- The KD assembly is made up of two products: A (base) and B (uprights)

Product No.	Width
<b>Full Assembly</b>	
950H1530KD	72" (1829 mm) Middle upright is centered
950H1440KD	72" (1829 mm) Middle upright is offset = 24" right side and 48" left side split
950H1430KD	72" (1829 mm) Middle upright is offset = 48" right side and 24" left side split

## Standard-duty Full-height Double Frame Assembly with Leg Levelers

- One-piece upright frame assembly
- 79" (2007 mm) high
- Shipped knocked down
- 900 lb. capacity
- For shelving, see pages 123-128
- The KD assembly is made up of two products: A (base) and B (upright assembly); to order the base or upright assembly separately, replace the KD in the product number with either A or B

Product No.	Width
950H1570KD	72" (1829 mm) Middle upright is centered
950H1480KD	72" (1829 mm) Middle upright is offset = 24" right side and 48" left side split
950H1490KD	72" (1829 mm) Middle upright is offset = 48" right side and 24" left side split

<b>Base Only</b>	
950H1530A	72" (1829 mm) Middle upright is centered
950H1440A	72" (1829 mm) Middle upright is offset = 24" right side and 48" left side split
950H1430A	72" (1829 mm) Middle upright is offset = 48" right side and 24" left side split

<b>Uprights Only</b>	
950H0530B	72" (1829 mm) Middle upright is centered
950H0440B	72" (1829 mm) Middle upright is offset = 24" right side and 48" left side split
950H0430B	72" (1829 mm) Middle upright is offset = 48" right side and 24" left side split

## Mobile Instrument Cart Frames Heavy Duty

## Heavy Duty Full-height Frame Assembly

- One-piece upright heavy duty frame assembly
- No leg levelers
- 2000 lbs. capacity
- 79" (2007 mm) high
- Shipped knocked down
- 30" (762 mm) deep work surfaces can be vertically stacked
- The bottom leg members and vertical riser support have incorporated additional reinforcement channels for strength
- Utilize the standard instrument cart components to adapt these heavy duty carts to fit any application
- Bottom shelf supports 1,000 lbs.
- Overall cart weight capacity with bottom shelf tested at 2,000 lbs.
- For shelving, see pages 123-128
- The KD assembly is made up of two products: OA (base) and MDAB (vertical uprights)

Product No.	Width
<b>Full Assembly</b>	
950H047MDAKD	36" (914 mm)
950H054MDAKD	48" (1219 mm)

## Mobile Instrument Cart Frames – Heavy Duty

- Select from components on the next two pages to create the exact heavy-duty mobile instrument cart with leveling casters required
- Order suspended cabinets and wall cases separately

- Suffix “A” indicates base assembly with white casters
- Suffix “AB” indicates base assembly with black casters

**Total load rating – 900 lbs**

## Single-wide Mobile Cart Frame Assemblies

- Leveling casters
- 78-1/8" (1985 cm) total height
- 29-7/8" (759 cm) total depth
- Base and top frame shipped separately
- For shelving, see pages 123-128

Product No.	Width
Base assembly	
950H3050A	36" (914 mm)
950H3050AB	36" (914 mm)
Upright assembly	
950H3050B	36" (914 mm)

## Double-wide Mobile Cart Frame Assemblies

- Double mobile cart frame assembly with utility pass-thru in the top cross members
- Leveling casters
- 78-1/8" (1985 mm) total height
- 29-7/8" (759 mm) total depth
- Base and top frame shipped separately
- For shelving, see pages 123-128

Product No.	Width
Double base assembly	
950H3080A	72" (1828 mm)
950H3080AB	72" (1828 mm)
Double upright assembly	
950H3080B	72" (1828 mm)

- Mobile cart frame assembly with utility pass-thru in the top cross member
- Leveling casters
- 78-1/8" (1985 mm) total height
- 29-7/8" (759 mm) total depth
- Base and top frame shipped separately
- For shelving, see pages 123-128

Product No.	Width
Base assembly	
950H3060A	36" (914 mm)
950H3060AB	36" (914 mm)
Upright assembly	
950H3060B	36" (914 mm)

- Double mobile cart frame assembly with utility pass-thru in the top cross member
- Frame assembly incorporates a locking mechanism for four-leg table assemblies
- Leveling casters
- 78-1/8" (1985 mm) total height
- 29-7/8" (759 mm) total depth
- Base and top frame shipped separately
- For shelving, see pages 123-128

Product No.	Width
Double base assembly	
950H3090A	72" (1828 mm)
950H3090AB	72" (1828 mm)
Double upright assembly	
950H3090B	72" (1828 mm)

- Mobile cart frame assembly with utility pass-thru in the top cross member
- Frame assembly incorporates a locking mechanism for four-leg table assemblies
- Leveling casters
- 78-1/8" (1985 mm) total height
- 29-7/8" (759 mm) total depth
- Base and top frame shipped separately
- For shelving, see pages 123-128

Product No.	Width
Base assembly	
950H3070A	36" (914 mm)
950H3070AB	36" (914 mm)
Upright assembly	
950H3070B	36" (914 mm)

## Mobile Instrument Cart Frames – Heavy Duty

- Select from components shown below to create the exact heavy-duty mobile instrument cart with leveling casters required
- Order suspended cabinets and wall cases separately

- Suffix "A" indicates base assembly with white casters
- Suffix "AB" indicates base assembly with black casters

**Total load rating – 900 lbs**

## Single-wide Double-sided Mobile Cart Frame Assemblies

- Leveling casters
- 78-1/8" (1985 mm) total height
- 48" (1219 mm) total depth
- Base and top frame shipped separately
- For shelving, see pages 123-128

Product No.	Width
Extended-depth base assembly	
950H3100A	36" (914 mm)
950H3100AB	36" (914 mm)
Upright assembly	
950H3100B	36" (914 mm)

- Mobile cart frame assembly with utility pass-thru in the top cross member
- Leveling casters
- 78-1/8" (1985 mm) total height
- 48" (1219 mm) total depth
- Base and top frame shipped separately
- For shelving, see pages 123-128

Product No.	Width
Extended-depth base assembly	
950H3110A	36" (914 mm)
950H3110AB	36" (914 mm)
Upright assembly	
950H3110B	36" (914 mm)

- Mobile cart frame assembly with utility pass-thru in the top cross member
- Frame assembly incorporates a locking mechanism for four-leg table assemblies
- Leveling casters
- 78-1/8" (1985 mm) total height
- 48" (1219 mm) total depth
- Base and top frame shipped separately
- For shelving, see pages 123-128

Product No.	Width
Extended-depth base assembly	
950H3120A	36" (914 mm)
950H3120AB	36" (914 mm)
Upright assembly	
950H3120B	36" (914 mm)

## Double-wide Double-sided Mobile Cart Frame Assemblies

- Double-wide extended-depth mobile cart frame assembly with utility pass-through in the top cross members
- Leveling casters
- 78-1/8" (1985 mm) total height
- 48" (1219 mm) total depth
- Base and top frame shipped separately
- For shelving, see pages 123-128

Product No.	Width
Extended-depth double base assembly	
950H3130A	72" (1828 mm)
950H3130AB	72" (1828 mm)
Double upright assembly	
950H3130B	72" (1828 mm)

- Double-wide extended-depth mobile cart frame assembly with utility pass-through in the top cross member
- Frame assembly incorporates a locking mechanism for four-leg table assemblies
- Leveling casters
- 78-1/8" (1985 mm) total height
- 48" (1219 mm) total depth
- Base and top frame shipped separately
- For shelving, see pages 123-128

Product No.	Width
Extended-depth double base assembly	
950H3140A	72" (1828 mm)
950H3140AB	72" (1828 mm)
Double upright assembly	
950H3140B	72" (1828 mm)

## Component Accessories for Standard and Heavy-duty Mobile Instrument Carts

## Upper Cart Frame Assembly for Standard Duty and Heavy Duty Mobile Instrument Cart

- Mounts on top of lower instrument cart frames to create a full height assembly
- 42" (1077 mm) high
- For shelving, see pages 123-128

Product No.	Width
950H0730	24" (610 mm)
950H0740	30" (762 mm)
950H0580	36" (914 mm)
950H0590	48" (1219 mm)
950H0600	60" (1524 mm)
950H0610	72" (1828 mm)

## Cantilever Table Frames

72" (1828 mm) wide frame and all 29" (737 mm) deep frames have additional horizontal support channel

- Height adjustable in 1" (25 mm) increments
- Weight capacity – 600 lbs
- Use 23" (584 mm) deep cantilever table frame for 31" (787 mm) deep work surface, 23" deep frame will accommodate cabinets with a total combined width of 6" (152 mm) less than the table frame
- Use 29" (737 mm) deep cantilever frame for 37" (940 mm) deep work surface

Product No.	Width
23" (584 mm) deep cantilever frame	
224H6030	36" (914 mm)
224H8030	48" (1219 mm)
224H0030	60" (1524 mm)
224H2030	72" (1828 mm)
29" (737 mm) deep cantilever frame	
224H6090	36" (914 mm)
224H8090	48" (1219 mm)
224H0090	60" (1524 mm)
224H2090	72" (1828 mm)

72" (1828 mm) wide frame has additional horizontal support channel

- 23" (584 mm) deep - will accommodate cabinets with a total combined width of 6" (152 mm) less than the table frame
- 8" (203 mm) support arms, allows work surface to be lowered to 18" (457 mm) height to accommodate top-loaded instrumentation
- Weight capacity – 400 lbs.
- 72" (1829 mm) wide tables have additional horizontal support channel

Product No.	Width
23" (584 mm) deep	
224H4730	24" (610 mm)
224H3730	30" (762 mm)
224H6730	36" (914 mm)
224H8730	48" (1219 mm)
224H0730	60" (1524 mm)
224H2730	72" (1829 mm)

## Instrument Cart Work Surfaces

- 1" (25 mm) thick plastic laminate with waterfall front edge
- 31" (787 mm) deep work surface requires 23" (584 mm) deep cantilever table frame
- 37" (940 mm) deep work surface requires 29" (737 mm) deep cantilever frame
- Specify two work surfaces for double frame assemblies

Product No.	Width	Product No.	Width
31" (787 mm) deep work surface		37" (940 mm) deep work surface	
630H1100	24" (610 mm)	630H1120	24" (610 mm)
630H1110	30" (762 mm)	630H1130	30" (762 mm)
630H1000	36" (914 mm)	630H0080	36" (914 mm)

630H1030	72" (1829 mm)	630H0110	72" (1829 mm)

## Instrument Cart Lower Shelves

- 1" (25 mm) thick plastic laminate
- Specify two 36" (914 mm) wide lower shelves for double frame assemblies 950H053 and 950H057
- Shelf support kit 900H0520 required for installation

Product No.	Fits Cart Width
630H1080	24" (610 mm)
630H1090	30" (762 mm)
630H1040	36" (914 mm)
630H1050	48" (1219 mm)
630H1060	60" (1524 mm)
630H1070	72" (1829 mm)

## Instrument Cart Epoxy Resin Work Surfaces and Lower Shelves

- 1" (25 mm) thick black epoxy resin work surfaces and lower shelves

Product No.	Fits Cart Width
37" (940 mm) deep work surface	
630H1120BK	24" (610 mm)
630H1130BK	30" (762 mm)

630H1070BK	72" (1828 mm)

## Component Accessories for Standard and Heavy-duty Mobile Instrument Carts

## Shelf Support Kit for Mobile Carts

- Extra support for lower shelf
- Attaches to lower cross frame
- Hardware included

**Product No.**

900H0520

## Wall Case Hanger Rails

- Pair of rails required to suspend above-counter storage cabinets on support structure frame
- Rails must be as wide or wider than cabinets and equal in length to support structure frame

**Product No.****Width**

900H1040	24" (610 mm)
900H1050	30" (762 mm)
900H1000	36" (914 mm)
900H1010	48" (1219 mm)
900H1020	60" (1524 mm)
900H1030	72" (1829 mm)

## Bottom Shelf Assembly for Heavy Duty Instrument Carts

- Bottom shelf assembly fits heavy-duty instrument carts
- Includes two swivel casters
- Shelf supports 1,000 lbs.
- 26-1/2" (673 mm) deep

**Product No.****Fits Frame Width**

950H0760	36" (914 mm)
950H0770	48" (1219 mm)
950H0780	60" (1524 mm)
950H0790	72" (1828 mm)

## Power Strip Kit for Mobile Carts

- Kit includes one pair of power strip brackets
- Order power strip separately (See below)
- Color per order

**Product No.**

900H0510

## Auxiliary Leg Assembly for Heavy Duty Instrument Carts

- Auxiliary leg assembly easily attaches between cantilever frame at top and bottom leg member of heavy-duty instrument cart
- Height adjustable
- Increases load-bearing capacity of work surface from 600 to 1,000 lbs.
- Order one pair per cantilever frame

**Product No.**

950H0750

## Pre-wired Power Strips

15 Amp Power Strip

20 Amp Power Strip

- White painted aluminum with black receptacles
- 15 amps 120 volts AC with 15 amp SJT 6-foot long power cord, or, 20 amps 125 volt
- Built-in circuit protection with reset switch
- Undersized to run end-to-end, adjustable horizontally
- Available in 3-6 ft. lengths (nominal)
- Includes mounting hardware
- UL Approved

Product Numbers 15 Amp	Product Numbers 20 Amp	Number of Plug-Ins	Length

**Max/Mobile Heavy-duty Equipment Rack****Create Your Own Heavy-duty Equipment Rack**

Heavy-duty equipment rack components consist of cart base with uprights, lower shelf support, lower shelf work surface, work surface frame and work surface, shelf frame and shelf work surface, and retaining rails.

Work surface load rating – 925 lbs.

Shelf load rating – 550 lbs.

Total load rating – 2,800 lbs.

### Heavy Duty Equipment Rack and Component Accessories Heavy Duty Cart with Leveling Casters

- All carts will ship KD (knocked down)
- 36" high uprights include top caps

Product No.	Height
950H1800B	36" (914 mm)
Product No.	Width
950H1800KD	30" (762 mm)
950H1810KD	36" (914 mm)
950H1820KD	48" (1219 mm)
950H1830KD	60" (1524 mm)
950H1840KD	72" (1828 mm)
950H1800B	Uprights Only

### Heavy Duty Cart with Leveler and Caster

- All carts will ship KD (knocked down)
- 36" high uprights include top caps

Product No.	Height
950H1850B	36" (914 mm)
Product No.	Width
950H1850KD	36" (914 mm)
950H1860KD	48" (1219 mm)
950H1870KD	60" (1524 mm)
950H1880KD	72" (1828 mm)
950H1850B	Uprights Only

### Heavy Duty Rack Base with Casters and Levelers with Cable Management

- Base assembly with casters, levelers and cable management
- Height: 78" (1981 mm)
- Order work surfaces for use with cable management
- Add "KD" suffix to the product number to ship frame assembly "knocked down"

Product No.	Width
950H2610	36" (914 mm)
950H2620	48" (1219 mm)
950H2630	60" (1524 mm)

### Heavy Duty Rack Base with Leveling Casters without Cable Management

- Base assembly with leveling casters
- Height: 78" (1981 mm)
- Order work surfaces for use without cable management
- Add "KD" suffix to the product number to ship frame assembly "knocked down"

Product No.	Width
950H2810	30" (762 mm)
950H2820	36" (914 mm)
950H2830	48" (1219 mm)
950H2840	60" (1524 mm)

### Heavy Duty Rack Base with Casters and Levelers without Cable Management

- Base assembly with casters and levelers
- Height: 78" (1981 mm)
- Order work surfaces for use without cable management
- Add "KD" suffix to the product number to ship frame assembly "knocked down"

Product No.	Width
950H2640	36" (914 mm)
950H2650	48" (1219 mm)
950H2660	60" (1524 mm)

### Heavy Duty Rack Base with Levelers without Cable Management

- Base assembly with adjustable levelers
- Height: 78" (1981 mm)
- Order work surfaces for use without cable management
- Product is shipped "knocked down"

Product No.	Width
950H2430	36" (914 mm)
950H2440	48" (1219 mm)
950H2450	60" (1524 mm)
950H2990	72" (1828 mm)

## Heavy Duty Equipment Rack – Component

## Accessories Frame for Work Surface

- Frame for 30" (762 mm) deep work surface, mounts to base frame assemblies shown at left
- MAX/Lab suspended cabinets can be used with this frame

Product No.	Width
950H2670	36" (914 mm)
950H2680	48" (1219 mm)
950H2690	60" (1524 mm)
950H2940	72" (1839 mm)

## Work Surface – Epoxy

- 1" (254 mm) thick epoxy, see page 94 for color options
- 30" (762 mm) deep

Product No.	Width
<b>Epoxy for base with cable management</b>	
21L03400BK	36" (914 mm)
21L03500BK	48" (1219 mm)
21L03600BK	60" (1524 mm)
21L06400BK	72" (1839 mm)
<b>Epoxy for base without cable management</b>	
21L01600BK	36" (914 mm)
21L01700BK	48" (1219 mm)
21L01800BK	60" (1524 mm)
21L06500BK	72" (1839 mm)

## Work Surface – Phenolic Resin

- 5/8" (16 mm) thick white texture crystal, core color and edges are black
- 30" (762 mm) deep

Product No.	Width
<b>With Cable Management</b>	
21L02800WH	36" (914 mm)
21L02900WH	48" (1219 mm)
21L03000WH	60" (1524 mm)
21L06800WH	72" (1839 mm)
<b>Without Cable Management</b>	
21L00700WH	36" (914 mm)
21L00800WH	48" (1219 mm)
21L00900WH	60" (1524 mm)
21L06900WH	72" (1839 mm)

## Retaining Rail Package for Work Surface

- Mounts at rear of work surface

Product No.	Width
950H2730	36" (914 mm)
950H2740	48" (1219 mm)
950H2750	60" (1524 mm)
950H2980	72" (1839 mm)

## Heavy Duty Equipment Rack – Component Accessories

## Frame for Upper Shelf

- Frame for 18" (457 mm) deep upper shelf, mounts to the base frame assembly

Product No.	Width
950H2700	36" (914 mm)
950H2710	48" (1219 mm)
950H2720	60" (1524 mm)
950H2950	72" (1828 mm)

## Retaining Rail Package for Upper Shelf

- Mounts at rear and sides of upper shelf
- Order one package per shelf

Product No.	Width
950H2760	36" (914 mm)
950H2770	48" (1219 mm)
950H2780	60" (1524 mm)
950H2960	72" (1828 mm)

## Upper Shelf – Epoxy

- 1" (25 mm) thick epoxy, see page 94 for color options
- 18" (457 mm) deep
- For retaining rails, specify upper shelf rail package

Product No.	Width
<b>Epoxy with cable management</b>	
21L03700BK	36" (914 mm)
21L03800BK	48" (1219 mm)
21L03900BK	60" (1524 mm)
21L00700BK	72" (1828 mm)
<b>Epoxy without cable management</b>	
21L01000BK	36" (914 mm)
21L01100BK	48" (1219 mm)
21L01200BK	60" (1524 mm)
21L07100BK	72" (1828 mm)

## Support for Lower Shelf

- Required for support of lower shelf
- Order one per shelf

Product No.	Width
950H2580	36" (914 mm)
950H2590	48" (1219 mm)
950H2600	60" (1524 mm)
950H2970	72" (1828 mm)

## Lower Shelf – Phenolic Resin

- 5/8" (16 mm) thick white texture crystal, core color is black
- 18" (457 mm) deep
- Retaining rails are not used on lower shelf

Product No.	Width
21L00400VH	36" (914 mm)
21L00500VH	48" (1219 mm)
21L00600VH	60" (1524 mm)
21L07600VH	72" (1828 mm)

## Upper Shelf – Phenolic Resin

- 5/8" (16 mm) thick white texture crystal, core color is black
- 18" (457 mm) deep
- For retaining rails, specify upper shelf rail package

Product No.	Width
<b>With cable management</b>	
21L03100VH	36" (914 mm)
21L03200VH	48" (1219 mm)
21L03300VH	60" (1524 mm)
21L07400VH	72" (1828 mm)
<b>Without cable management</b>	
21L00100VH	36" (914 mm)
21L00200VH	48" (1219 mm)
21L00300VH	60" (1524 mm)
21L07500VH	72" (1828 mm)

## Lower Shelf – Epoxy

- 1" (25 mm) thick epoxy, see page 94 for color options
- 18" (457 mm) deep
- Retaining rails are not used on lower shelf

Product No.	Width
<b>Epoxy</b>	
21L01300BK	36" (914 mm)
21L01400BK	48" (1219 mm)
21L01500BK	60" (1524 mm)
21L07700BK	72" (1828 mm)

**Heavy-Duty Rack Base with Leveling Casters without Cable Management**

- Base assembly with leveling casters
- Height: 78" (1981 mm)
- Order work surfaces for use without cable management
- Product is shipped "knocked down"

Product No.	Width
950H0140KD	30" (762 mm)
950H0150KD	36" (914 mm)
950H0160KD	48" (1219 mm)
950H0170KD	60" (1524 mm)
950H0180KD	72" (1839 mm)

**Frame for Work Surface**

- Frame for 30" deep work surface, mounts to base frame assembly shown above
- MAX/Lab suspended cabinets can be used with this frame

Product No.	Width
950H0190	30" (762 mm)
950H0200	36" (914 mm)
950H0210	48" (1219 mm)
950H0220	60" (1524 mm)
950H0230	72" (1839 mm)

**Frame for Upper Shelf**

- Aluminum frame for 18" deep upper shelf, mounts to base frame assembly shown above

Product No.	Width
950H0240	30" (762 mm)
950H0250	36" (914 mm)
950H0260	48" (1219 mm)
950H0270	60" (1524 mm)
950H0280	72" (1839 mm)

## MAX/Mobile PowerBench

The MAX/Mobile PowerBench provides instant height adjustment over a 12" (305 mm) range to adapt to personnel, equipment and procedures. Smooth linear actuators provide fluid lift motion that is ideal for microscope and other sensitive equipment. Cantilevered shelving units and suspended wall and base cabinets can be added for extra storage.

MAX/Mobile PowerBench

Height-adjustable PowerBench Frame

- Adjustable height table frame assembly provides support from which suspended cabinets can be hung and adjusted horizontally
- Height-adjustable to work surface from 28" (711 mm) to 40" (1016 mm) above finished floor
- Equipped with four leveling casters
- A control switch can be detached and relocated within the each assembly
- Weight load including system components is 1,280 lbs.
- Color per order

Product No.	Width
950H1650	36" (914 mm)
950H1660	42" (1067 mm)
950H1670	48" (1219 mm)
950H1680	60" (1524 mm)
950H1690	72" (1829 mm)

Order cantilevered shelving units, suspended wall and base cabinets separately

Upright Frame Assembly

- 38-1/4" (971 mm) high upright frame assembly provides support for MAX/Lab shelving units and hanger rails for wall cases and flipper door hutch
- Height-adjustable (frame with uprights attached) from 66" (1676 mm) to 78" (1981 mm) above finished floor
- Height-adjustable components on 1" (25 mm) increments
- Ordered separately and field installed to top frame of PowerBench
- Color per order

Product No.	Width
950H1700	36" (914 mm)
950H1710	42" (1067 mm)
950H1720	48" (1219 mm)
950H1730	60" (1524 mm)
950H1740	72" (1829 mm)

**MAX/Mobile Equipment Carts**

- Extruded aluminum vertical uprights, shelf and work surface supports
- Vertical uprights, with full length front slot for accessory attachment – order separately
- Height adjustable work surface and shelf frame assemblies on 1" (25 mm) increments
- Full-width extruded aluminum rear shelf lip
- Phenolic resin 5/8" (16 mm) thick top shelf, bottom shelf and work surface
- Leveling casters
- Product ships knocked down and requires field assembly

## MAX/Mobile Equipment Carts

- Extruded aluminum vertical uprights, shelf and work surface supports
- Vertical uprights, with full length front slot for accessory attachment (ordered separately)
- Height-adjustable work surface and shelf frame assemblies on 1" (25 mm) increments
- Full-width extruded aluminum rear shelf lip
- Phenolic resin 5/8" (16 mm) thick top shelf, bottom shelf and work surface
- Leveling casters
- Product ships knocked down and requires field assembly

## Cart Assembly

- 30" (762 mm) deep x 77" (1956 mm) high

Product No.	Width
950H2030KD	30" (762 mm)
950H2036KD	36" (914 mm)
950H2048KD	48" (1219 mm)
950H2060KD	60" (1524 mm)
950H2072KD	72" (1839 mm)

## Rolling Cabinet Kit for Work Surface Frame

- Complete kit for work surface frame shown at left, mounts to top frame of suspended cabinet
- Allows suspended cabinet to be easily moved horizontally along frame
- Includes hand knob to secure cabinet in desired location

**Product No.**

950H0130

## Work Surface Frame

- 28" (711 mm) deep

Product No.	Width
950H2011P	30" (762 mm)
950H2012P	36" (914 mm)
950H2013P	48" (1219 mm)
950H2014P	60" (1524 mm)
950H2015P	72" (1839 mm)

## Upper Shelf Frame

- 16" (406 mm) deep

Product No.	Width
950H2018P	30" (762 mm)
950H2019P	36" (914 mm)
950H2020P	48" (1219 mm)
950H2021P	60" (1524 mm)
950H2022P	72" (1839 mm)

## MAX/Mobile Equipment Carts

- Extruded aluminum vertical uprights, shelf and work surface supports
- Vertical uprights, with full length front slot for accessory attachment (ordered separately)
- Height-adjustable work surface and shelf frame assemblies on 1" (25 mm) increments
- Full-width extruded aluminum rear shelf lip
- Phenolic resin 5/8" (16 mm) thick top shelf, bottom shelf and work surface
- Leveling casters
- Product ships knocked down and requires field assembly

## Bottom Shelf

- 5/8" (16 mm) thick
- 13 1/4" (337 mm) deep

Product No.	Width
25L0126P	30" (762 mm)
25L0127P	36" (914 mm)

## Phenolic Vertical Top Caps

Product No.
25L0150P

**MAX/Mobile Table Frames**

Ideal for situations where flexibility is important, these units can be repositioned easily in the lab. Many models support suspended cabinets and several are height-adjustable.

Work surface height is adjustable with cantilevered and adjustable-height four-leg tables, making them ideal ADA solutions.

## Mobile Table Frames

## To be used with:

- Abut to any MAX support structure or wall
- Use in any location as freestanding work surface

## Common features:

- Table frame only – order work surface separately, see pages 130-141
- Accepts suspended cabinets for storage EXCEPTION: Mobile Robotics Table

## Component load ratings:

- Adjustable-height tables – 300 lbs.

## Installation information:

- Space available for cabinetry equals table width less 6" (152 mm)

## Four-leg Adjustable-height Mobile Table Frames

- Height-adjustable from 31" (787 mm) to 40-3/8" (1026 mm)
- Leg height adjusts easily with minimal tools
- Optional storage shelf available
- ADA compliant

## MAX/Mobile Equipment Bench

- Specifically designed for analytical instrumentation
- Can be ganged side-by-side and back-to-back
- Hand operated levelers extend, to lift table and casters off the floor into a stable, stationary position
- Height: 36" with top (order top separately)
- Load rating: 800 lbs., including work surface weight

Product No.	Width	Depth	Height

## Mobile Robotics Table\*

- Specifically designed to transport and accommodate robotic analyzers and heavy analytical instrumentation – can be ganged side-by-side and back-to-back
- Equipped with retractable levelers and heavy-duty casters
- Levelers extend, lifting table and casters off the floor into a stable, stationary position
- Height: 36" (914 mm) with top
- Load rating: 800 lbs.

Product No.	Width	Depth	Work Surface
251H660A	60" (1524 mm)	31" (787 mm)	None
251H6600	60" (1524 mm)	31" (787 mm)	1" (25 mm) thick black epoxy resin
251H763A	71" (1803 mm)	33" (838 mm)	None
251H7630	71" (1803 mm)	33" (838 mm)	1" (25 mm) thick black epoxy resin

## Work surface only \*Drawing reference only

21L3160EB	60" (1524 mm)	31" (787 mm)	1" (25 mm) thick black epoxy resin
21L3371EB	71" (1803 mm)	33" (838 mm)	1" (25 mm) thick black epoxy resin

\*This table frame does NOT accept suspended cabinets for storage.

Mobile Table Frames

Common features:

- Table frame only – order work surface separately, see pages 145-151
- Accepts suspended cabinets for storage
- Order caster kit separately

To Be Used With:

- Use in any location as freestanding work surface

Component Load Ratings:

- Adjustable-height tables – 600 lbs.

Four-leg Adjustable-height Mobile Table Frames

- Height-adjustable from 25-3/4" (654 mm) to 35-1/8" (892 mm)
- Leg height adjusts easily with minimal tools

Product No.	Width
27-7/8" (708 mm) deep	
950H3020	48" (1219 mm)
950H3030	60" (1524 mm)
950H3040	72" (1828 mm)

- Height-adjustable from 25-3/4" (654 mm) to 35-1/8" (892 mm)
- Leg height adjusts easily with minimal tools

Product No.	Width
26-1/8" (664 mm) deep	
950H3000	24" (610 mm)
950H3010	60" (1524 mm)

Leveling Caster Kit

- Combination leveler and caster
- Height-adjustable from 3-5/16" to 3-25/32" (84 to 96 mm)
- Product number includes four casters

Product No.	Width
950H3200	White
950H3200BLK	Black

## Table Frame Work Surfaces – General Information

Choosing the material for your work surfaces is one of the most important decisions you will make regarding your lab. The work surface must be appropriate to the type of work performed in the lab and the chemicals that are used, or the integrity of the entire lab may be jeopardized.

Work surfaces are available in modified epoxy resin and stainless steel. These materials meet our stringent tolerance requirements. Modular work surfaces in particular require exact tolerances in order to maintain uniformity between system components.

After materials are selected, please consult your sales representative for available colors. Epoxy resin work surfaces are available in black only.

## Glossary of Work Surface Terms

**Cord Gap** – 3/4" (19 mm) gap at rear of work surface to accommodate excess lengths of equipment cords

**Self-Banding** – Side and front edges of the work surface are of the same color and material as the top

**Waterfall Edge** – A radiused, or rounded upper front edge

## Work Surface Performance Properties

Description	Epoxy Resin	Phenolic Resin	Stainless Steel
<b>Basic Material</b>	Epoxy resins and inert materials		
<b>Physical Properties</b>	Extremely hard		
<b>Appearance/Color</b>	Low sheen finish, black	Low sheen finish 50+ colors	Low sheen finish One color
<b>Cost</b>	Initial installation cost is not an adequate indicator of long-term value. Choose a surface based on lab requirements.		
<b>Cleaning, Ease</b>	Good		
<b>Abrasion Resistance</b>	Good	Fair	Excellent
<b>Chemical Resistance**</b>	Excellent resistance to wide range of acids, solvents, and alkalies	Good	Good
<b>Stain Resistance</b>	Good	Excellent	Good
<b>Bacteria Resistance</b>	Excellent	Excellent	Excellent
<b>Heat Resistance</b>	Excellent	Good	Good
<b>Impact Resistance</b>	Good	Good	Good
<b>Load Capacity*</b>	Good	Excellent	Good
<b>Electrical Conductivity</b>	None		
<b>Moisture Resistance</b>	Excellent	Excellent	Excellent
<b>Use with Fume Hoods</b>	Recommended	Recommended	Recommended
<b>Suggested Use Areas</b>	Areas requiring chemical and heat resistance		

\*\* Detailed chemical resistance test data is available upon request.

\* Load capacities are also determined by supporting structures.

## Table Frame Work Surface Accessories

## Cord Gap Fillers

- For use with all table frames
- Fills 3/4" (19 cm) gap between work surface and wall
- Attaches with screws or tape

**Product No.**                      **Width**

For Rectangular Work Surfaces

901H4120	24" (610 mm)
901H4130	30" (762 mm)
901H4000	36" (914 mm)
901H4010	48" (1219 mm)
901H4020	60" (1524 mm)
901H4030	72" (1829 mm)

For Corner Work Surfaces

901H4100	36" (914 mm)
901H4110	48" (1219 mm)

## Backsplash Rails

- For use with all table frames
- Painted steel rail extends 1/2" (13 mm) above work surface
- Prevents items from falling into cord gap
- Attaches with screws or tape

**Product No.**                      **Width**

For Rectangular Work Surfaces

900H4120	24" (610 mm)
900H4130	30" (762 mm)
900H4000	36" (914 mm)
900H4010	48" (1219 mm)
900H4020	60" (1524 mm)
900H4030	72" (1829 mm)

For Corner Work Surfaces

900H4100	36" (914 mm)
900H4110	48" (1219 mm)

## Backsplashes for Modular Work Surfaces

- For use with all table frames
- Can be attached to work surface on-site, using epoxy cement
- All backsplashes are self-banded
- Epoxy resin backsplashes are satin black
- 4" (102 mm) high

**Product No.**                      **Width**

Epoxy Resin

672H2440	24" (610 mm)
672H3640	36" (914 mm)
672H4840	48" (1219 mm)
672H6040	60" (1524 mm)
672H7240	72" (1829 mm)

- Vinyl edging for top of steel backsplash rail

**Product No.**                      **Description**

900H7110	100-foot roll
----------	---------------

### To specify MAX/Wall:

1. Select the appropriate **support structures** (pages 101-102) for each work area, based on current and future requirements. Consider the overall room layout as well as needs for individual task-oriented modules.  
Refer to Assembly Guidelines (pages 160-176) for each type of support structure including fillers, base covers and columns. This section also includes valuable assembly information, load ratings, wall blocking guidelines and plumbing access dimensions.
2. Choose specific **system components** (pages 103-104), including storage cabinets and table frames.
3. Use **option menus** (pages 105-106) to choose colors and cabinet options.
4. Select modular or continuous **work surfaces** (130-141) in the material that best suits the work performed in the laboratory.
5. Choose **system accessories**, including task lighting, marker boards, divider panels or computer support accessories.
6. Choose **auxiliary lab equipment** including safety equipment, fume hoods, fixtures, sinks, electrical equipment and accessories.

### An Adaptable Laboratory Furniture System with a Narrow Footprint

MAX/Wall is a true full-height, floor-to-ceiling partition wall system including door and window components for full isolation capability.

Slotted supports accept all MAX/Lab adjustable-height system components, including cantilevered work surfaces, shelving and wall cases.

Upper frames can be open or closed with painted steel, fabric or glazed insert panels. Easy access to service lines reduces installation and maintenance costs.

- Frames can be configured as an 85" (2159 mm) high panel or a floor-to-ceiling partition wall. Add ceiling extension components to 85" (2159 mm) high frames to enclose an area up to 120" (3048 mm) high.
- The 6" (152 mm) wide footprint consumes half the space of traditional service core frames while the 4" (101 mm) interior free width houses drain, vent, service, data and electrical lines.
- Reagent facing inserts are designed to accommodate piped services, electrical, data, communications, and ultra pure gas distribution. Integral cupsink inserts are also available.

## MAX/Wall frames are available in several configurations

- 30" (762 mm) high ledge
- Open upper frame

- 36" (914 mm) high ledge
- Open upper frame

- 46" (1168 mm) high ledge
- 10" (254 mm) high reagent facing inserts
- Open upper frame

- Frames are 85" (2159 mm) high
- Ceiling extension components\* can be added to enclose an area up to 120" (3048 mm) high
- Lower frames are available with or without service panels
- Upper frames are available in open or closed configurations

\*Ceiling extensions with glazed inserts shown

- 56" (1424 mm) high ledge
- 20" (508 mm) high reagent facing inserts
- Open upper frame

- 20" (508 mm) high reagent facing inserts
- Closed upper frame

- Door frames available in 48" (1219 mm) and 60" (1524 mm) widths
- Door panels are 36" (914 mm) wide
- Side panels are 8" (203 mm) or 20" (508 mm) wide

**How to Order**

Follow these steps to selecting a MAX/Wall system – **STEP ONE: Select a Frame Configuration (Open or Closed)**

Floor-mounted base cabinet  
to utility core connection  
(free-standing)

### Adaptable MAX/Wall frames can be supported three ways

#### Cabinet/Table Supported

- Frames are attached to and supported by floor-mounted, fixed-height steel base cabinets or MAX/Lab structural tables
- Frames are bolted to the finished floor to protect service line connections
- Straight run and intersecting frame configurations are possible – refer to Assembly Guidelines

Floor-to-ceiling connection  
(ceiling grid or building  
structure dependent)

#### Structurally Supported

- Telescoping upper frame extensions fasten to the T-grid of a suspended ceiling structure or to permanent ceiling structures
- Frames are bolted to the finished floor
- Straight run and intersecting frame configurations are possible – refer to Assembly Guidelines

Frame-to-frame connection  
(configuration dependent,  
free-standing)

#### Configuration Supported

- Intersecting frames support each other
- Straight run and intersecting frame configurations are possible – refer to Assembly Guidelines
- Straight runs require intersecting frames for support every eight feet
- Frames are bolted to the finished floor to protect service line connections

## How to Order a MAX/Wall system – STEP TWO: Select a Frame Style

Begin with the support structure frame and build your system around it.  
Frames are designed for applications where a service chase is required.

### Frame Style A

### Frame Style B

### Frame Style C

### Frame Style D

## How to Order a MAX/Wall system – STEP TWO: Select a Frame Style (continued)

## Frame Style E

- Open upper frame
- Steel ledge cap **included**
- Specify reagent facing insert separately
- Widths as shown

■ Reagent Facing Insert  
 ■ Lower Facing Insert

## Frame Style F

- Open or closed upper frame
- Order ledge cap separately for open upper frame option
- Order upper and lower facing inserts separately
- Specify reagent facing inserts separately
- Widths as shown

■ Upper Facing Insert or Open Frame  
 ■ Reagent Facing Insert  
 ■ Lower Facing Insert

## Frame Style G

- Open or closed upper frame
- Order ledge cap separately for open upper frame option
- Order upper and lower facing inserts separately
- Specify reagent facing inserts separately
- Widths as shown

■ Upper Facing Insert or Open Frame  
 ■ Reagent Facing Insert  
 ■ Lower Facing Insert

**How to Order a MAX/Wall system – STEP THREE: Select the System Components**

Choose system components for specific function and storage needs.

**Table Frames****Cantilevered Tables**

Attach to MAX/Wall frame. Can support cabinets. Vertical adjustment in 1" (25 mm) increments. Available in various sizes.

(See pages 55-56)

**Four-leg Tables**

Available as fixed- or adjustable-height, with or without casters. Able to support structures. Can support storage shelf or suspended cabinets.

(See page 57)

**Structural Tables**

Provides support for MAX/Wall frame. Available in 26" (660 mm), 29" (736 mm) or 36" (914 mm) heights and widths from 24" (610 mm) to 72" (1828 mm). Required for table supported MAX/Wall frames.

**Below-counter Storage****Suspended Cabinets**

Mount under a variety of tables to permit height adjustability and system flexibility. Available in a variety of styles and sizes.

## How to Order a MAX/Wall system – STEP THREE: Select the System Components (continued)

## Above-Counter Storage

**Suspended Wall Cases**

Mount on support structure. Wide selection of heights, widths and depths. Choose from open and closed units. Hinged or sliding doors – solid or glass.

**Upper Cases**

Rugged cases rest directly on work surface or mount to wall. Solid or framed-glass doors. Work surface mounted units should be mounted on work surfaces supported by floor mounted base cabinets.

**Outer Shelves**

Hang on the outside of support structure. Available with or without lip in 6" (152 mm), 8" (203 mm), 12" (305 mm), 18" (457 mm), and 24" (610 mm) depths. Lengths from 24" (610 mm) to 72" (1828 mm). Also available: 12" (305 mm) tilting shelves and top shelves.

(See pages 123-128)

**Inner Shelves**

Hang between upright supports. 6" (152 mm) depth available with or without lip. Height adjustable in 1" (25.4 mm) increments. Can be positioned at the same height as outside shelves to provide up to 54" (1371 mm) of shelf depth.

(See pages 123-128)

## Flammable Liquid Storage

**Flammable Liquid Storage**

UL® approved. Available in suspended, floor-mounted or mobile. For storage of flammable or combustible liquids. Convenient rear access panel. Floor-mounted units are 35" (889 mm) high, 22" (558 mm) deep.

### How to Order a MAX/Wall system – STEP FOUR: Select Colors

MAX/Wall components are available in 18 standard colors. Select a single color for any individual component or for the entire system or choose a base color for support structure frames, cabinet bodies and table frames, and an accent color for inserts and drawer and door fronts.

Core Structure with Cantilevered Table and Suspended Cabinet

Color selection guidelines:

**Support structures** – Base color for framework; accent color or fabric for facing inserts  
(Insert fronts and backs are considered independently)

**Cabinets** – Base color for cabinet body; accent color for drawer and door fronts

**Table frames, instrument carts & shelves** – Base color only

**Fillers, service columns and other visible accessories** – Base color only

**Cupsink facing inserts** – Black, Dove Gray, or Petal White

Different base colors may be selected for each type of component in the system.

## How to Order a MAX/Wall system – STEP FOUR: Select Colors (continued)

**A Powdercoat Colors**

Select from 18 standard colors. Finished with a special powdercoating which has excellent chemical and abrasion resistant characteristics.

Base color: select color listed at right.

Accent color: select color listed at right.

Use the two-letter code for each color name to specify color choice.

**Base Color**

## How to Order a MAX/Wall system – STEP FIVE: Select Work Surface

Proper selection of work surface material is critical in creating a functional laboratory. Work surfaces not designed to withstand the chemicals and processes specific to a lab can interfere with operations and pose danger to personnel.

Two basic types of work surfaces for the MAX/Wall system are offered:

**Modular Work Surfaces** are used with core and panel support structures and table frames with a total surface width of 72" (1828 mm) or less.

**Continuous work surfaces** are used with floor-mounted cabinets and cantilevered table frames and are ordered by the lineal foot for runs over 72" (1828 mm) wide.

Both types of work surfaces are available in a choice of epoxy resin or stainless steel.

## STEP SIX: Select System Accessories

Various MAX/Wall system accessories are available to ensure that your lab is efficient, comfortable and attractive.

**Divider inserts** add privacy to workstations while maintaining the system's attractive appearance. Marker boards and tackboards provide extra convenience.

**Easy to install task and pent lights** are available to enhance accuracy and productivity in a lab. The task light even converts from an under-shelf unit to a freestanding lamp.

**Other accessories**, including adjustable keyboard platforms and pullboards, make the MAX/Wall system more comfortable and convenient for paperwork tasks.

**Refer to the Hamilton Fixtures and Accessories Catalog**

## STEP SEVEN: Select Auxiliary Lab Components

Refer to the **Hamilton Fixtures and Accessories** and **Fume Hood & Accessories Catalogs** for more information on safety equipment, fume hoods, fixtures, sinks, electrical equipment, computer support equipment and accessories.

## Frame Component Identification

## To specify a complete frame assembly

1. Define **frame style** number without reagent panels, pages 109-111
2. Define **frame assemblies** number including reagent panels, pages 112-113
3. Select **lower facing inserts**, pages 109-111 (ordered separately)
4. Select **upper facing inserts** options, page 116 (ordered separately)
5. Select **ceiling extensions, channels and reinforcements** when tied into the ceiling deck and/or T-grid (ordered separately)
6. Select **ceiling facing insert and/or trim package** options as required, pages 117-118 (ordered separately)
7. Select a **door frame assembly** if required, page 122 (ordered separately)
8. Refer to Common Components, pages 123-152, for table frames, work surfaces, shelves and casework

## Open Frame Styles A, B and C Frame

## Style A [Open Upper Frame]

Frame Product Number		Facing Insert Product Number

72" (1828 mm)	V6G00000	V6050000	V6060000

Reagent Facing Inserts for Frame Styles D & E

- Styles 1, 2 and 3 are panels on face side only; styles A thru F are combinations of face and back side panels, configurations are listed below
- Reagent facing inserts with fixture holes provided with color-matched plug buttons (order fixtures separately)\*
- Reagent facing inserts with electrical cutouts provided with 2-3/4" (70 mm) deep boxes only (order duplexes and flush plates separately)\*
- Reagent facing inserts come equipped with the following quantity of electrical and fixture hole cutouts:
  - 18" (457 mm) wide - 3 each
  - 24" (610 mm) wide - 4 each
  - 30" (762 mm) wide - 5 each

\*See Hamilton Fixtures and Accessories Catalog

Configurations

Style	Face Side	Back Side
1	Plain	None
2	Electric	None
3	Fixture	None
A	Plain	Plain
B	Plain	Electric
C	Plain	Fixture
D	Electric	Plain
E	Electric	Electric
F	Fixture	Plain

- 24" (610 mm) wide frames – 1 facing insert per side
- 30" (762 mm) wide frames – 1 facing insert per side
- 36" (914 mm) wide frames – 2 facing insert per side
- 48" (1219 mm) wide frames – 2 facing insert per side
- 60" (1524 mm) wide frames – 2 facing insert per side
- 72" (1828 mm) wide frames – 3 facing insert per side

Ordering Guidelines

To build a product number for a MAX/Wall frame with reagent facing inserts, replace the designated 0's in the product number with the appropriate reagent facing insert style letter or number.

Examples: V4E01030  
V2D0E000  
V6E02320

 72" (1828 mm) wide frames – 3 facing insert per side

## Ordering Guidelines

To build a product number for a MAX/Wall frame with reagent facing inserts, replace the designated "O's" in the MAX/Wall frame product number with the appropriate reagent facing insert Style letter or number.

Examples: V4G0M040  
 V2F0S000  
 V6G03540

## Service Umbilical Frame

The MAX/Wall frame has cutouts on the top and sides for concealing and routing service lines. This umbilical frame accommodates vertical delivery for electrical, data/voice, plumbing, venting and localized exhaust. A separate exhaust snorkel unit has been designed for use in conjunction with the umbilical to provide bench top exhaust.

This umbilical frame can be used in-line with other MAX/Wall frames and has incorporated slotted uprights for support of MAX/Wall system storage components. The top horizontal structural member has two access ports for vertical utility feeds and vent lines if required.

Each service umbilical ships complete with:

- Top and lower facing inserts
- Horizontal frame brackets
- "L" brackets for attachment of fume extractor and reagent frame inserts

Reagent facing inserts and fume extractor inserts must be ordered separately from the next page.

Service fixtures and electrical/data order separately from the **Hamilton Fixtures and Accessories Catalog**.

## Service Umbilical Components

- Frame style "U" for service umbilical assembly
- 85" (2159 mm) high and 6" (152 mm) deep – compatible with all other MAX/Wall frame styles
- Top and lower facing inserts are included
- Reagent facing inserts must be ordered separately
- Fume extractor inserts must be ordered separately

Frame Product No.	Width
V1U0000	12" (305 mm)
V8U0000	18" (457 mm)

## Ceiling Facing Inserts and Trim

## Ceiling Facing Inserts or Open Ceiling Trim for all MAX/Wall Frames

- Use to enclose space between ceiling and MAX/Wall frames
- Installation hardware included
- Fabric and steel inserts cover one side only (Mix or match for both sides closed, ceiling trim kit not required)
- Fabric and steel inserts are field-trimmable
- 6mm glazed vision lite inserts are positioned in the center of the frame, requiring one unit only per frame assembly
- Vision lite inserts are ordered to size (Special size must be detailed)
- Ceiling extensions and ceiling channel are required and must be specified separately, see pages 119-120

## Service Chase

- Service Chase, 24" (610 mm) wide x 5-7/8" (149 mm) deep

Product No.	Height	Use with Frame Style
<b>Upper</b>		
930V6120	11-1/4" (286 mm)	All
930V6240	23-1/4" (590 mm)	All
930V6360	35-1/4" (895 mm)	All
<b>Lower</b>		
930V6280	26-1/2" (673 mm)	F & G
930V6380	36-1/2" (927 mm)	D & E
930V6480	46-1/2" (1181 mm)	B & C
930V6540	62-1/2" (1587 mm)	A

## Fillers

- End filler (wall/start scribe) for use at end of MAX/Wall assembly

Product No.	A	B
605V1840	1" (25 mm)	84-3/8" (2143 mm)
605V1120	1" (25 mm)	118" (2997 mm)

- Filler for use at end of MAX/Wall assembly or between units

Product No.	A	B
605V6840	6" (152 mm)	84-3/8" (2143 mm)
605V6120	6" (152 mm)	118" (2997 mm)
605V2840	12" (304 mm)	84-3/8" (2143 mm)
605V2120	12" (304 mm)	118" (2997 mm)

## Shelves

- Inner shelf – 6" (152 mm) deep

Product Number	Fits Frame Width
913V6240	24" (610 mm)
913V6300	30" (762 mm)
913V6360	36" (914 mm)
913V6480	48" (1219 mm)
913V6600	60" (1524 mm)
913V6720	72" (1828 mm)

## Vertical Raceway

900V0518 Shown

- Designed to run electrical and teledata cabling through the 6" (152 mm) wide vertical upright
- Includes factory installed junction box
- Order electrical outlets and teledataconnects separately from the **Hamilton Fixtures and Accessories Catalog**

Product No.	Description
900V0513	13" (330 mm) high raceway assembly with single electrical/teledata service
900V0518	19" (482 mm) high raceway assembly with double electrical/teledata service

## Accessories

Drain Lines

---

- Inline drain assembly for single cupsink facing
- Pre-assembled
- Outlets – 1-1/2" (38 mm) straightpipe thread
- Instructions included

---

**Product No.**

34L23100

- Inline drain assembly for back-to-back cupsink facing inserts
- Pre-assembled
- Outlets – 1-1/2" (38 mm) straightpipe thread
- Instructions included

---

**Product No.**

34L23200

Door Frame Assemblies

Door Frame Assemblies – 4’ and 5’ wide

- Use to create a wall with a door that can be used in conjunction with all MAX/Wall frames
- Door size – 36” (914 mm) x 80” (2032 mm)
- Includes an 8” (203 mm) x 80” (2032 mm) inactive panel on four-foot unit, 20” (508 mm) x 80” (2032 mm) inactive panel on 5 ft. unit – can be unlatched to swing open
- Door prepped for cylindrical latch/lock 2-3/4” (70 mm) back set – **latch/lock not included**
- Steel door supplied primed
- Select optional ceiling extensions and ceiling inserts to enclose space between frame and ceiling deck or ceiling grid, see pages 119-120

Single-acting door – hinged right

Single-acting door – hinged left

Double-acting door

4’ Wide Door Frame Assemblies

Product No.	Description
<b>Single-acting Door</b>	
V4HSSOR0	Steel door without vision lite, hinged right
V4HSSWR0	Steel door with vision lite, hinged right
V4HSSOL0	Steel door without vision lite, hinged left
V4HSSWL0	Steel door with vision lite, hinged left
<b>Double-acting Door</b>	
V4HDSO00	Steel door without vision lite
V4HDSW00	Steel door with vision lite

5’ Wide Door Frame Assemblies

Product No.	Description
<b>Single-acting Door</b>	
V5HSSOR0	Steel door without vision lite, hinged right
V5HSSWR0	Steel door with vision lite, hinged right
V5HSSOL0	Steel door without vision lite, hinged left
V5HSSWL0	Steel door with vision lite, hinged left
<b>Double-acting Door</b>	
V5HDSO00	Steel door without vision lite
V5HDSW00	Steel door with vision lite

## Shelves

The MAX/Lab system is designed to accommodate every storage requirement, including shelving. Our adjustable-height steel shelves come in a variety of depths. Inner and outer shelves can be mounted at the same height to provide up to five feet of continuous shelf depth at a single level.

Special tilting shelves also are available.

Shelf lips can be added at any time for enhanced spill prevention.

**Core with Two 12" (305 mm) Inner Shelves**

**Wall Panel with Two 12" (305 mm) Outer Shelves**

**Island Core with Two Each:**

- 12" (305 mm) Top Shelves
- 12" (305 mm) Outer Shelves
- 18" (457 mm) Outer Shelves
- 12" (305 mm) Inner Shelves

## Shelving

## To be used with:

- MAX/Lab support structures

## Installation information:

- Hook-on attachment

## Component load ratings:

- 6" (152 mm) deep – 180 lbs.
- 8-3/4" (222 mm) deep – 180 lbs.
- 12" (305 mm) deep – 180 lbs.
- 18" (457 mm) deep – 130 lbs.
- 24" (610 mm) deep – 100 lbs.

## Outer Shelves

- Adjustable shelf suitable for any MAX/Lab support structure
- Adjustable in 1" (25 mm) increments over entire height of support structure
- Optional lips may be ordered from this section
- Ships unassembled

## Shelf Extenders

- Add to back of outer shelves to fill the space between island and/or peninsula uprights, wall panel or extended table frame uprights
- Screw to underside of existing shelf
- Does not increase the shelf load rate
- Adds 3-1/4" (83 mm) to depth of shelf

Product No.	Fits Shelf Width
924H2570	24" (610 mm)
924H2580	30" (762 mm)
924H2590	36" (914 mm)
924H2600	48" (1219 mm)
924H2610	60" (1524 mm)
924H2620	72" (1828 mm)

## Outer Shelf End Brackets

- Pair of steel end brackets designed to fit most types of outer shelves
- Can be cantilevered from any MAX/Lab structural support structure

Product No.	Depth
925H0060	6" (152 mm)
925H0080	8-3/4" (222 mm)
925H0120	12" (305 mm)
925H0180	18" (457 mm)
925H0240	24" (610 mm)

## Top Inverted Shelves

- Fits flush with top ledge of panel or core-top surface of panel or core acts as inner shelf
- Includes end lips. Optional front lip may be ordered from this section

Product No.	Depth
12" (305 mm) deep	
928H1224	24" (610 mm)

912H9420	42" (1067 mm)
912H9480	48" (1219 mm)
912H9600	60" (1524 mm)
912H9720	72" (1829 mm)

## Shelving

## To be used with:

- MAX/Lab support structures

## Component load ratings:

- 12" (305 mm) deep – 180 lbs.

## Installation information:

- Hook-on attachment

## Inner Shelves

- Adjustable shelf hung on the inside of island or wall core upper frames
- Choose 8 3/4" (222 mm) for wall cores and 12" (305 mm) depth for island cores
- Manually adjustable in 1" (25 mm) increments throughout entire height of support structure
- Adjustable shelf hung on the inside of island core upper frames
- Included two oval cable pass-throughs with rubber
- U-channel to alleviate the possibility of catching or crimping cables
- 12" (35 mm) depth
- Manually adjustable in 1" (25 mm) increments throughout entire height of support structure

533H1060	30" (762 mm)
533H1070	36" (914 mm)
533H1080	42" (1067 mm)
533H1090	48" (1219 mm)
533H1110	60" (1524 mm)
533H1130	72" (1829 mm)
533H1140	84" (2134 mm)
533H1150	96" (2438 mm)

- Sloping corner filler top

Product No.	Width
For 13" (330 mm) deep cabinets	
531H1060	1" (25 mm)
531H2060	2" (51 mm)
For 16" (406 mm) deep cabinets	
531H1070	1" (25 mm)
531H2070	2" (51 mm)

## Hanger Rails

- Pair of rails required to suspend above-counter storage cabinets on support structure frame
- Rails must be as wide or wider than cabinets and equal in length to support structure frame

Product No.	Width
900H1040	24" (610 mm)
900H1050	30" (762 mm)
900H1000	36" (914 mm)
900H1010	48" (1219 mm)
900H1020	60" (1524 mm)
900H1030	72" (1829 mm)

## Wall Cleats

- Pair of cleats required to hang above-counter storage cabinets on wall

Product No.	Width
900H1250	24" (610 mm)
900H1200	30" (762 mm)
900H1210	36" (914 mm)
900H1220	48" (1219 mm)
900H1230	60" (1524 mm)
900H1240	72" (1829 mm)

## Work Surfaces

### Work Surface Color Choices

#### PVC Banding

Code	Reference Color
9H	Black
9I	Chameleon
9J	Gray
9K	White

Modified epoxy resin work surfaces are only available in black.

### Glossary of Work Surface Terms

**Cord Gap** – 3/4" (19 mm) gap at rear of work surface to accommodate excess lengths of equipment cords

**Self-Banding** – Side and front edges of the work surface are of the same color and material as the top

**Waterfall Edge** – A radiused, or rounded upper front edge

### Work Surface Performance Properties

Work surfaces are available in modified epoxy resin and stainless steel because these materials meet stringent tolerance requirements. Modular work surfaces in particular require exact tolerances to maintain uniformity among system components.

Description	Epoxy Resin	Phenolic Resin	Stainless Steel
<b>Chemical Resistance</b>	Excellent	Good	Good
<b>Moisture Resistance</b>	Excellent	Excellent	Excellent
<b>Heat Resistance</b>	Excellent	Good	Good
<b>Abrasion Resistance</b>	Good	Fair	Excellent
<b>Stain Resistance</b>	Good	Excellent	Good
<b>Impact Resistance</b>	Good	Good	Good
<b>Bacteria Resistance</b>	Excellent	Excellent	Excellent
<b>Load Capacity</b>	Excellent	Excellent	Good
<b>Colors</b>	Unlimited	50+	One
<b>Appearance</b>	Low Sheen Satin	Low Sheen	Low Sheen
<b>Repairability</b>	Good	Poor	Fair
<b>Fume Hood Usage</b>	Excellent	Good	Excellent

**Recommendation:** Prior to making your final selection, please contact your representative to obtain samples.

## Modular Work Surfaces

This selection of Modular Work Surfaces has been specifically designed for the MAX/Lab system. Only materials that can meet our rigid tolerance requirements were chosen for this offering.

Modular work surfaces are available for cores, island panels, fixed- and adjustable-height tables, and cantilevered tables with work surface width requirements of 72" (1829 mm) or less.

Most modular work surfaces can be ordered with an optional 3/4" (19 mm) "cord gap" to accommodate equipment cords.

Backsplashes and fillers also are available to complete your work surface assembly.

**Island Core  
with Modular Work Surface**

**Corner Table Assembly  
with Modular Work Surface**

**Wall Rail System and  
Cantilevered Table  
with Modular Work Surface**

**Panel Support Structure  
and Fixed-Height Table  
with Modular Work Surface**

Modular Work Surfaces

To be used with:

- Wall or island core support structures

Assembly drawings are examples only and do not represent all possible configurations

Common features:

- 1" (25 mm) thick
- Epoxy resin surfaces are satin black
- Work surfaces for wall cores are 8-3/4" (222 mm) deep
- Work surfaces for island cores are 12" (305 mm) deep

Installation information:

- Three plugs are provided with work surfaces ordered with fixture cutouts so that unused holes can remain closed until needed
- Epoxy resin surfaces must be pre-cut at the factory

For Cores — Epoxy Resin

- No cupsink or fixture cutouts
- Square edges

Product No.	Fits Frame Width
For wall cores	
605H8240	24" (610 mm)
605H8300	30" (762 mm)
605H8360	36" (914 mm)
605H8480	48" (1219 mm)
605H8600	60" (1524 mm)
605H8720	72" (1829 mm)

- Two fixture cutouts
- Square edges

Product No.	Fits Frame Width
For wall cores	
660H8240	24" (610 mm)
660H8300	30" (762 mm)
For island cores	
660H2240	24" (610 mm)
660H2300	30" (762 mm)

## Modular Work Surfaces and Fillers

## To be used with:

- Wall or island core support structures

Assembly drawings are examples only and do not represent all possible configurations

## Common features:

- 1" (25 mm) thick
- Epoxy resin surfaces are satin black
- Work surfaces for wall cores are 8-3/4" (222 mm) deep
- Work surfaces for island cores are 12" (305 mm) deep

## Installation information:

- Three plugs are provided with work surfaces ordered with fixture cutouts so that unused holes can remain closed until needed
- Epoxy resin surfaces must be pre-cut at the factory

## Epoxy Resin Fillers For Cores

- Epoxy Resin reagent shelf filler
- Designed for 12" low island core applications
- Color per order
- Specify color by adding 2-digit code, from chart below, to end of product number

Product No.	Dimension A
-------------	-------------

For island cores

951H1010__	1-1/4" (32 mm)
951H1020__	2-9/16" (65 mm)

- Epoxy Resin reagent shelf filler
- Designed for 8-3/4" low wall core applications
- Color per order
- Specify color by adding 2-digit code, from chart below, to end of product number

Product No.	Dimension A
-------------	-------------

For wall cores

951H1040__	1-1/4" (32 mm)
951H1050__	2-9/16" (65 mm)

## Code

BK Black	PE Pearl
BL Blue	PL Platinum
BR Brown	AW Antique White
GR Green	SD Sand
GY Gray	SS Sandstone
SW Super White	DK Dark Khaki
WH White	

## For Cores – Epoxy Resin (continued)

- Three fixture cutouts
- Square edges

Product No.	Fits Frame Width
-------------	------------------

For wall cores

660H8360	36" (914 mm)
660H8480	48" (1219 mm)

660H8720	72" (1829 mm)

For island cores

660H2360	36" (914 mm)
660H2480	48" (1219 mm)
660H2600	60" (1524 mm)
660H2720	72" (1829 mm)

- One cupsink and two fixture cutouts
- Square edges

Product No.	Fits Frame Width
-------------	------------------

For wall cores

661H8240	24" (610 mm)
661H8300	30" (762 mm)
661H8360	36" (914 mm)

For island cores

661H2240	24" (610 mm)
661H2300	30" (762 mm)
661H2360	36" (914 mm)

For Wall Cores

- One cupsink and four fixture cutouts
- Square edges

Product No.	Fits Frame Width
-------------	------------------

For wall cores

661H8480	48" (1219 mm)
661H8600	60" (1524 mm)
661H8720	72" (1829 mm)

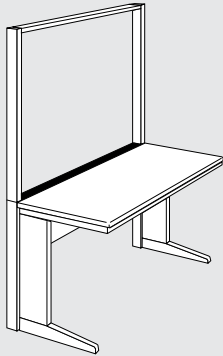

For island cores

661H2480	48" (1219 mm)
661H2600	60" (1524 mm)
661H2720	72" (1829 mm)

For Island Cores

Modular Work Surfaces

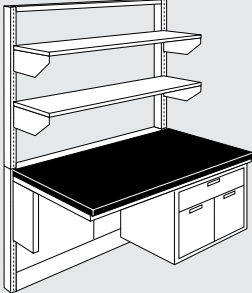

Assembly drawings are examples only and do not represent all possible configurations

**To Be Used With:**

- Island panel support structures

**Common Features:**

- 1" (25 mm) thick
- Epoxy resin surfaces are satin black

Assembly drawings are examples only and do not represent all possible configurations

**To Be Used With:**

- Individual table frames
- All floor-mounted cabinets positioned in front of a MAX/Lab support structure

**Common Features:**

- 1" (25 mm) thick
- Epoxy resin surfaces are satin black

**Ordering Information:**

- Suffix indicates:
  - E = Self-edge laminate
  - W = Waterfall laminate front edge

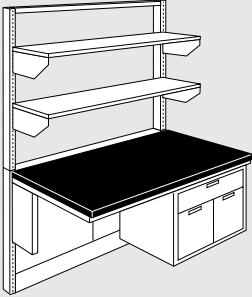

For Island Panels – Epoxy Resin

- Square edge
- 3-1/4" (83 mm) deep

Product No.	Fits Frame Width
605H3210	24" (610 mm)
605H3270	30" (762 mm)
605H3330	36" (914 mm)
605H3450	48" (1219 mm)
605H3570	60" (1524 mm)
605H3690	72" (1829 mm)

Modular Work Surfaces

**To Be Used With:**

- Individual table frames
- All floor-mounted cabinets positioned in front of a MAX/Lab support structure

**Common Features:**

- 1" (25 mm) thick
- Epoxy resin surfaces are satin black

Assembly drawings are examples only and do not represent all possible configurations

For Fixed-Height & Cantilevered Tables – Epoxy Resin

- 90° work surface for corner fixed-height and cantilevered table frames
- Square edge

Product No.	Width
With Cord Gap – 23" (584 mm) Deep	
647H3231	36" (914 mm)
Without Cord Gap – 23-3/4" (756 mm) Deep	
647H3241	36" (914 mm)
With Cord Gap – 29" (737 mm) Deep	
647H3291	36" (914 mm)
Without Cord Gap – 29-3/4" (756 mm) Deep	
647H3301	36" (914 mm)

- 90° work surface for corner fixed-height and cantilevered table frames
- Waterfall edge

Product No.	Width
With Cord Gap – 23" (584 cm) Deep	
647W3231	36" (914 mm)
Without Cord Gap – 23-3/4" (756cm) Deep

Modular Work Surfaces

Backsplashes for Modular Work Surfaces

- For use with all table frames
- Can be attached to work surface on-site, using epoxy cement
- All backsplashes are self-banded
- Epoxy resin backsplashes are satin black
- 4" (10 mm) high

Product No.	Width
Epoxy Resin	
672H2440	24" (610 mm)
672H3640	36" (914 mm)
672H4840	48" (1219 mm)
672H6040	60" (1524 mm)
672H7240	72" (1829 mm)

Cord Gap Fillers

- For use with all table frames
- Fills 3/4" (19 mm) gap between work surface and wall
- Attaches with screws or tape

Product No.	Width
For rectangular work surfaces	
901H4120	24" (610 mm)
901H4130	30" (762 mm)
901H4000	36" (914 mm)
901H4010	48" (1219 mm)
901H4020	60" (1524 mm)

For corner work surfaces	
901H4100	36" (914 mm)
901H4110	48" (1219 mm)

Backsplash Rails

- For use with all table frames
- Painted steel rail extending 1/2" (13mm) above shelf surface
- Prevents items from falling into cord gap
- Attached with screws or tape

Product No.	Width
For rectangular work surfaces	
900H4120	24" (610 mm)
900H4130	30" (762 mm)
900H4000	36" (914 mm)
900H4010	48" (1219 mm)
900H4020	60" (1524 mm)
900H4030	72" (1829 mm)
For corner work surfaces	
900H4100	36" (914 mm)
900H4110	48" (1219 mm)

- Vinyl edging for top of steel backsplash rail

Product No.	Description
900H7110	100-foot roll

## Continuous Work Surfaces

Continuous work surfaces are available for runs of floor-mounted cabinets that exceed 72" (1829 mm) in width.

Choose from our selection of high-quality epoxy resin. Cutouts for fixtures, sinks, cupsinks, electrical boxes and columns can be specified separately.

It is very important that dimensioned drawings be included with your order, so that there is a clear understanding of hole and cutout locations.

### Measuring for Continuous Work Surfaces

These illustrations show how to measure for typical continuous work surface configurations. Refer to these before placing your order.

**Two Work Surfaces at Right Angle**

**Two Work Surfaces with 45° Corner at Right Angle**

**Two Perpendicular Work Surfaces**

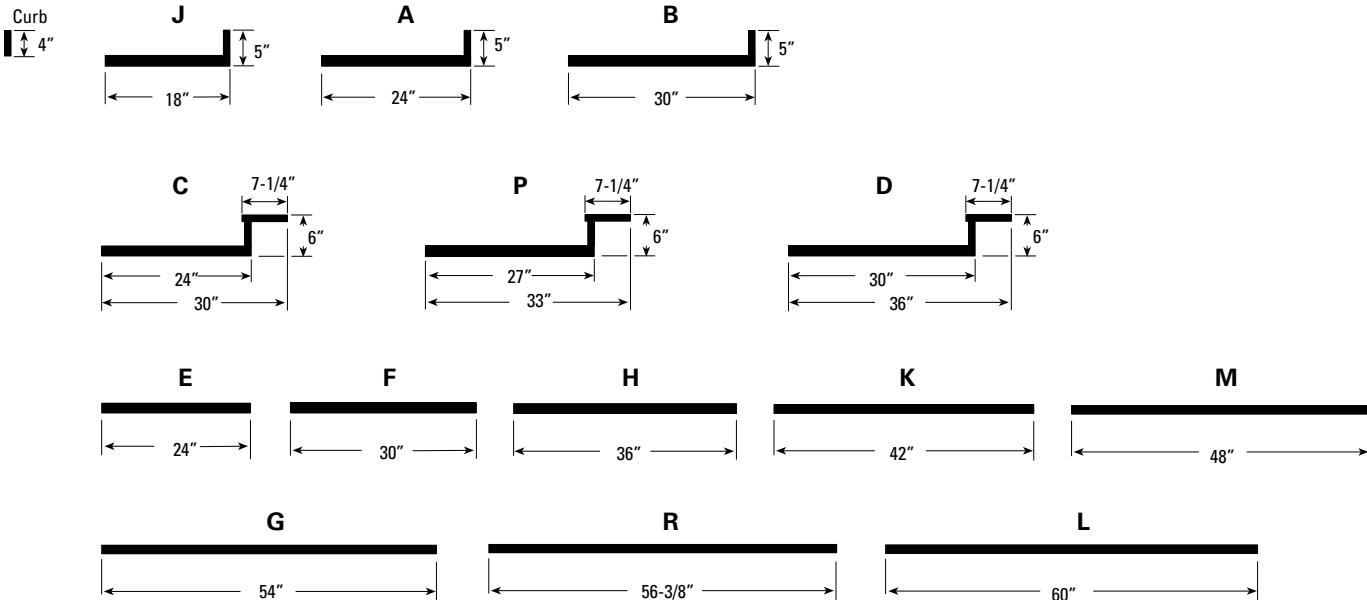

Continuous Work Surfaces

Edge Configurations and Curb Styles

- Epoxy resin: Standard edge profile features a 1/4" (32 mm) radius on top and bottom corners. Continuous epoxy resin tops are not available with 3mm and waterfall edges

Work Surface Configurations

## Continuous Work Surfaces

## Ordering Standard Work Surfaces Without Custom Fabrication

1. Select a work surface configuration from drawings A through R
2. Select a work surface material from the performance properties chart
3. Using the configuration letter and work surface material, locate the ordering number on the work surface product numbers chart

## For ordering 1" (25 mm) thick tops for all MAX/Lab base cabinets

## Auxiliary Lab Components Cabinet

## Shelves For Steel Cabinets

- For steel suspended and floor-mounted cabinets
- Additional or replacement shelf to fit inside suspended or floor-mounted cabinets
- Height-adjustable in 1/2" (13 mm) increments
- Includes four mounting clips
- 3/4" (19 mm) high

Product No.	Cabinet Width
922H0010	15" (381 mm)
922H0020	18" (457 mm)
922H0030	21" (533 mm)
922H0040	24" (610 mm)
922H0050	30" (762 mm)
922H0060	36" (914 mm)
922H0070	42" (1067 mm)
922H0080	48" (1219 mm)

- For steel wall and upper storage cases
- Additional or replacement shelf to fit inside wall-hung storage cabinets
- Height-adjustable in 1/2" (13 mm) increments
- Includes four mounting clips
- 3/4" (19 mm) high

Product No.	Cabinet Width	Cabinet Depth
For hinged door and open cases		
922H0250	30" (762 mm)	13" (330 mm)
922H0290	30" (762 mm)	16" (406 mm)
922H0260	36" (914 mm)	13" (330 mm)

922H0350	36" (914 mm)	16" (406 mm)
922H0330	42" (1067 mm)	13" (330 mm)
922H0360	42" (1067 mm)	16" (406 mm)
922H0220	48" (1219 mm)	13" (330 mm)
922H0370	48" (1219 mm)	16" (406 mm)

## Cabinet Shelves For Steel Cabinets (continued)

- For steel tall cases
- Additional or replacement shelf to fit inside tall cases
- Height-adjustable in 1/2" (13 mm) increments
- Includes four mounting clips
- 3/4" (19 mm) high

Product No.	Cabinet Width	Cabinet Depth
For hinged door and open cases		
922H0440	24" (610 mm)	16" (406 mm)
922H0040	24" (610 mm)	22" (559 mm)

922H0430	48" (1219 mm)	22" (559 mm)

## Shelf Retaining Lip

- Attaches to front edge of steel shelf in base cabinets, wall cases, upper cases and tall cases
- Keeps objects from accidentally falling from the shelf and applicable for seismic applications
- Attaching hardware included
- 1/2" high plexiglass lip

Product No.	Cabinet Width
531S3910	15" (381 mm)
531S3920	18" (457 mm)
531S3930	21" (533 mm)
531S3940	24" (610 mm)
531S3950	30" (762 mm)
531S3960	36" (914 mm)
531S3970	42" (1067 mm)
531S3980	48" (1219 mm)

## Pullboards

- Steel pullout provides additional reference surface
- Attaches and stores under work surface

523H1150	Overall Dimensions:
Width	13" (330 mm)
Depth	21" (533 mm)
Height	1" (25 mm)

## Auxiliary Lab Components

## Slide-Out Keyboards

- Attach to underside of plain work surface or 18" deep shelf only
- Not for use on corner work surface
- 4" keyboard drop
- Mouse tray slides right or left
- Color - Black
- Attaching hardware included
- 4" and 7" high keyboards may be layered

Product No.	Tray Size
637H1530	10-1/2" x 20"

- Attach to underside of plain work surface cantilever table frames or 18" and 24" deep shelves
- Not for use on corner work surface
- 4" keyboard drop
- Mouse tray slides right or left
- Color - Black
- Attaching hardware included
- 4" and 7" high keyboards may be layered

Product No.	Tray Size
637H1540	10-1/2" x 20"

- Attach to underside of plain work surface or 18" deep shelf only
- Not for use on corner work surface
- 7" keyboard drop
- Mouse tray slides right or left
- Color - Black
- Attaching hardware included
- 4" and 7" high keyboards may be layered

Product No.	Tray Size
637H1550	10-1/2" x 20"

- Attach to underside of plain work surface cantilever table frames or 18" and 24" deep shelves
- Not for use on corner work surface
- 7" keyboard drop
- Mouse tray slides right or left
- Color - Black
- Attaching hardware included
- 4" and 7" high keyboards may be layered

Product No.	Tray Size
637H1560	10-1/2" x 20"

## Articulated Keyboard Platform for Corner Work Surface or Cantilever Frame

- Attach to underside of plain corner work surface with reinforcement rails or cantilever frame
- Swivels 360°
- 6" height adjustment
- Soft-touch keyboard tray with right or left sliding mouse tray
- Color - Black
- Attaching hardware included
- Easy pull latch activates tilt feature

Product No.	Tray Size
637H1510	10-1/2" x 21"

- Attach to underside of plain corner work surface
- Swivels 360°
- 6" height adjustment
- 2" to 6" extension bracket adjustable in 1" increments, hold-out lock
- Color - Black
- Attaching hardware included
- Easy pull latch activates tilt feature

Product No.	Tray Size
637H1520	10-1/2" x 21"

- Includes keyboard mechanism, keyboard platform, keyboard lip and a right-handed or non-handed sliding mouse tray
- Attach to underside of an 18" and/or 24" deep shelf
- Swivels 360°
- 6" height adjustment
- 2" to 6" extension bracket adjustable in 1" increments, hold-out lock
- Color - Black
- Attaching hardware included
- Easy pull latch activates tilt feature

Product No.	Tray Size
637H1500	10-1/2" x 21"

## Auxiliary Lab Components

### Mouse Tray

- Attach to underside of work surface, keyboard tray or shelf
- Full 360° swivel for easy storage
- 40° tilt feature allows for comfortable working angle
- Color - Black
- Attaching hardware included

Product No.	Tray Size
637H1570	8" x 8" (203 x 203 mm)

### Palm Rest

- Attach to keyboard tray (637H1510 and 637H1520 only)
- 19-1/2" x 2" x 3/4" (495 x 51 x 19 mm) black molded foam pad with steel insert
- Steel mounting bracket
- Color - Black
- Attaching hardware included

Product No.
637H1590

### Keyboard Garages

- Use as monitor support and keyboard storage
- Height adjusts from 3" (76 mm) to 5" (127 mm)
- Made of 3/8" (10 mm) thick clear plexiglass

Product No.	Width	Depth
637H1600	12" (305 mm)	12" (305 mm)
637H1610	22-1/2" (572 mm)	12" (305 mm)
637H1620*	22-3/4" (578 mm)	12" (305 mm)

\* Made of 1/2" thick clear plexiglass.

- Use as monitor support and keyboard storage on a corner work surface
- Height adjusts from 3" (76 mm) to 5" (127 mm)
- Made of 3/8" (10 mm) thick clear plexiglass

Product No.	Width	Depth
637H1630	22-1/2" (572 mm)	12" (305 mm)

Auxiliary Lab Components – Lan Specialty Arms

There are **three basic components** when ordering a specialty arm. These basic components are:

- 1. The **Specialty Arm Mechanism**
- 2. The **Platform** (on which the monitor sits) or **LCD Mounting Brackets**
- 3. The **Mount Brackets**

The main components of our line of monitor arms are designed to be **interchangeable**, allowing you to mix and match components to your specific needs.

- **Use with monitors larger than 15"**
- Capable of holding between 40-100 lbs. (heavy duty)
- Combination handle/keyboard holder adjusts to any keyboard width
- Length of arm is 14" (356 mm) plus the platform (usually an additional 12" (305 mm) for a total of 26" (660 mm)
- Over 13-1/4" (337 mm) of vertical movement
- Arm rotates 360°, platform rotates 360°
- Color – Black

**Product No.**

951H0620

Mount Options:

- 951H0600 Panel/Frame mount
- 951H0580 Desk Edge mount
- 951H0590 Wall mount

Platform Options:

- 951H0640 18-1/2" x 14-1/2"  
(470 mm x 368 mm) Tilt
- 951H0650 18-1/2" x 14-1/2"  
(470 mm x 368 mm) Non-Tilt
- 951H0660 10-1/2" x 10-3/4"  
(267 mm x 273 mm) Adj. Width

1 Arm Mechanisms

- **Use with 12" to 15" monitors**
- Capable of holding between 10-50 lbs. (light duty)
- Combination handle/keyboard holder adjusts to any keyboard width
- Length of arm is 14" (356 mm) plus the platform (usually an additional 12" (305 mm)) for a total of 26" (660 mm)
- Over 13-1/4" (337 mm) of vertical movement
- Arm rotates 360°, platform rotates 360°
- Color – Black

**Product No.**

951H0780

Mount Options:

- 951H0600 Panel/Frame mount
- 951H0580 Desk Edge mount
- 951H0590 Wall mount

Platform Options:

- 951H0640 18-1/2" x 14-1/2"  
(470 mm x 368 mm) Tilt
- 951H0650 15-3/4" x 14-1/2"  
(470 mm x 368 mm) Non-Tilt
- 951H0660 10-1/2" x 10-3/4"  
(267 mm x 273 mm) Adj. Width

## Auxiliary Lab Components – Lan Specialty Arms

There are **three basic components** when ordering a specialty arm. These basic components are:

1. The **Specialty Arm Mechanism**
2. The **Platform** (on which the monitor sits) or **LCD Mounting Brackets**
3. The **Mount Brackets**

The main components of our line of monitor arms are designed to be **interchangeable**, allowing you to mix and match components to your specific needs.

### 1 Arm Mechanisms (continued)

- Flat panel radial
- Extends 23-1/2" (597 mm) from mounting surface, folds into 3" (76 mm) of space
- Adjustable gas cylinder creates a counterbalance, LCD displays of 8-24 lbs. become weightless enabling movement with the touch of a finger
- Over 13" (330 mm) of vertical movement - 1/2" (165 mm) up and down
- Arm rotates 360° at three joints, the tilter mechanism can tilt over 200° forward and backward
- 45° adjustment
- Flex-Mount kit is included
- Cable management is included - cables are hidden within the arm
- Friction joints can be adjusted for touch-screen applications
- Accessory products are available for holding keyboards or notebook computers
- 75mm and 100mm VESA compliant adapter brackets included

**Product No.**

637H1720

- Flat panel radial arm
- Extends 27" (686 mm) from mounting surface, folds into 3" (76 mm) of space
- Over 18" (457 mm) of vertical movement
- Internal cable management system
- Accommodates monitors from 15-30 lbs.
- Arm rotates 360° at three swivel joints, the tilter mechanism can tilt over 200°
- Keyboard and notebook accessories available
- 75mm and 100mm VESA compliant adapter brackets included
- Standard models are finished in powdercoated Vista Black

**Product No.**

637H1710

Auxiliary Lab Components – Lan Specialty Arms and Platforms

There are **three basic components** when ordering a specialty arm. These basic components are:

- 1. The **Specialty Arm Mechanism**
- 2. The **Platform** (on which the monitor sits) or **LCD Mounting Brackets**
- 3. The **Mount Brackets**

The main components of our line of monitor arms are designed to be **interchangeable**, allowing you to mix and match components to your specific needs.

1 Arm Mechanisms (continued)

- Triple articulating pneumatic panel LCD arm
- Extends 20" (508 mm) from mounting surface, folds into 3" (76 mm) of space
- Over 12-1/2" (318 mm) of vertical movement
- Internal cable management system
- Gas cylinder creates counterbalance, displays between 8-22 lbs. become weightless
- Arm rotates 360° at three swivel joints, the tilter mechanism can tilt over 200°
- Designed to work with most of our line of monitor mounting brackets and platforms
- An adapter plate is needed to attach the LCD arm to the display (637H1690 or 637H1700)

Product No.  
637H1680

- Adapter plate
- Product No.
- |          |  |
|----------|--|
| 637H1690 | Versa 75-R adapter plate for 3" (76 mm) screw hole pattern   |
| 637H1700 | Versa 100-R adapter plate for 4" (102 mm) screw hole pattern |

- Keyboard platform for LCD arms only
  - Includes 75mm and 100mm VESA compliant adapter brackets
- Product No.  
637H1650

2 Platforms

- Keyboard platform attaches to monitor arm, for CRT only
- 15 degree tilt
- Includes 75mm and 100mm VESA compliant adapter brackets

Product No.  
637H1660

- Flat keyboard platform attaches to monitor arm, for CRT only
- Includes 75mm and 100mm VESA compliant adapter brackets

Product No.  
637H1670

Auxiliary Lab Components – Lan Specialty Arms and Mounting Brackets

3 Mounting Brackets

- Desk edge monitor arm mount assembly
- Color – Black

**Product No.**  
951H0580

- Wall-mount monitor arm mount assembly
- Color – Black

**Product No.**  
951H0590

- Panel/frame-mount monitor arm mount assembly
- Color – Black

**Product No.**  
951H0600

- Monitor arm mount bracket attaches to one vertical upright and/or one slot
- Color – Black

**Product No.**  
637H1740

Electrical and Telecommunications Raceway

The raceway is a vertical, space-saving solution for electrical and telecommunications requirements in the MAX/Lab System. Product includes the vertical chase and a system of four vertically stacked junction boxes. Color selection of the raceway consists of 18 standard colors.

Select related electrical and telecommunications components and cover plates from the Hamilton Fixtures and Accessories product specification catalog.

■ Requires hard wiring in the field by other trades

Product No.	
920H1470	Electrical Chase MAX Riser, single outside end, inside facing outlets
920H2480	Electrical Chase MAX Riser, double outside end, double facing outlets
920H1480	Electrical Chase MAX Riser, double inside risers, single facing outlets
Product is not for use with Bench Top uprights	

Pocket Shelf

- For use in conjunction with electrical and telecommunications raceway
- Sliding pocket sections allow for raceway accommodation and cable access/passage
- Includes four wraparound brackets that engage the vertical slotted upright
- Depth: 12" (305 mm)

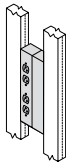

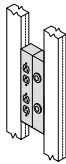

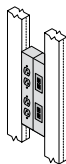

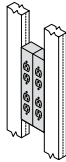

Product No.	Fits Frame Width
915H0241	24" (610 mm)
915H0301	30" (762 mm)
915H0361	36" (914 mm)
915H0481	48" (1219 mm)
915H0601	60" (1524 mm)
915H0721	72" (1828 mm)

Vertical Service Pedestal

The service pedestal is a space-saving solution to electrical, telecommunications, and vacuum/air/gas service requirements for the MAX/Lab System (color selection of the pedestal consists of 18 standard colors)

- UL approved
- Dual channel
- Aluminum construction
- Designed for one-sided applications
- Removable top plate
- Entrance holes of end plate are sized for standard conduit and copper couplers
- Pre-drilled with screws attached for field installation to vertical standards
- Requires hard wiring and plumbing in the field by other trades

**Product No.**  
24L140V0 Vacuum  
24L140A0 Air  
24L140G0 Gas

	Product No.	Channel One	Channel Two
	950H012A	Two 20 amp grey duplex outlets	One blank channel
	950H012B	Two 20 amp grey duplex outlets	Two 30L23900*
	950H012C	Two 20 amp grey duplex outlets	One voice/fax receptacle One CAT 5E fiber receptacle
	950H012D	Four 20 amp grey duplex outlets	

\* WaterSaver connector fittings. Order fixtures separately from the Hamilton Fixtures and Accessories Catalog

Auxiliary Lab Components

Bookends

- Three or four total compartments, each 4-5/8" (117 mm) wide
- Each compartment can be used individually
- Attaches to 12" (305 mm) deep shelf assembly with adhesive fastener
- Steel construction

900H0120	Overall Dimensions:
Width	18-1/2" (470 mm)
Depth	11-1/2" (292 mm)
Height	6-1/2" (165 mm)

File Drawer Followers

- For use with steel file drawers
- Provides support for folders in file drawers
- Adjustable spring-loaded movement
- Color – Chameleon

Product No.	Fits Drawer Width
531S1510	14-1/8" (359 mm)
531S1520	17-1/8" (435 mm)
531S1530	20-1/8" (511 mm)

Miscellaneous Hardware

- Front corner support
- Connects to table frame and stabilizes end panel, providing additional support for cantilevered work surfaces
- One pair of supports included for each product number ordered

Product No.
900H1300

- Accessory mounting clips
- Required for mounting non-MAX/Lab accessories to MAX/Lab support structures
- Six each right- and left-hand clips included for each product number ordered

Product No.
900H0130

- Cable clip
- Engages in slotted upright of all Hamilton MAX/Lab support structures
- Holds power cords neatly against upright
- Ideal for use with modular task light and other overhead electronic devices
- Package of ten clips included for each product number ordered

Product No.
900H0150

- Cable basket for use on tables without built-in cable management
- Mounts on top flange of modesty panel on freestanding tables
- 9-1/2" (241 mm) deep
- 3" (76 mm) high

Product No.	Width
951H0300	24" (610 mm)
951H0310	38-3/4" (984 mm)
951H0320	53-1/2" (1359 mm)

Pre-Wired Power Strips

- White painted aluminum with black receptacles
- 15Amps 120Volts AC with 15Amp SJT cord, or, 20Amps 125Volt
- Built-in circuit protection with reset switch
- Undersized to run end-to-end, adjustable horizontally
- Available in 3-6 foot lengths (nominal)
- Includes mounting hardware
- UL Approved

Product Numbers		Number of Plug-Ins	Length
15 Amp	20 Amp		
900H0280	900H0200	6	36" (914 mm)
900H0290	900H0210	8	48" (1219 mm)
900H0300	900H0220	10	60" (1524 mm)
900H0310	900H0230	12	72" (1829 mm)

## Island Panel Assembly Guideline – Support Restrictions

Island Panel with End Supports

- Length of straight, unsupported run of structural frames should not exceed 96" (2438 mm) between end supports, with maximum of three island panels per run
- When panels are used as end supports in a run, they may be positioned at angles of 90° or 120° only

Island Panel Run with Support at One End

- Maximum width of an island panel which provides support at only one end is 30" (762 mm)

- A single cantilevered work surface attached to an island panel must be supported as shown

Island Panel with Single Cantilevered Work Surface

- When two adjacent cantilevered work surfaces are at different heights, the higher of the two must be supported where they abut

Panels with Two Cantilevered Work Surfaces of Different Heights

- Cantilevered work surfaces of similar height may be bolted together at the front edge for improved rigidity

Panels with Two Cantilevered Work Surfaces of Same Height

Island Panels Supported by End Panel and Support Leg

Island Panels Supported by Structural Tables

- End supports include the following: structural tables, 24" (610 mm) or 30" (762 mm) wide island panels, and support legs
- Shelves, cabinets, and cantilevered work surfaces may be attached only to the supported side of a structural frame

## Island Panel Assembly Guideline

- Island panel height may not exceed 67" (1676 mm) when panel or run of island panels are supported on only one side. No height restrictions apply to island panels supported on both sides

Island Panel Supported by Structural Table Frames

- In order to attach a 24" (610 mm) or 30" (762 mm) wide island panel to an existing island panel, the work surface must be attached to the existing panel with a front corner support

Adding to Existing Island Panels

Island Panel Configurations with Support  
Panel Depth Totaling at Least 96" (2438 mm)

- No height restrictions apply to island panels when the sum of the depth of the end supports is 96" (2438 mm) or greater (shaded areas are end supports)

Front Corner Supports

- Front corner supports are used to help support cantilevered work surfaces and to stabilize island panels used at the end of a run. They can only be used when the work surface is equal to or deeper than the width of the island panel

### Island Panel Assembly Guideline – Weight Capacities

- Listed weight capacities are maximum live loads and include weight applied to top of work surface, as well as total weight of below-counter storage units and other accessories
- Load ratings are reduced when a cantilevered table is attached to one side of an island panel only
- Loads should not exceed the individual component load ratings for any surface
- Use these capacities as guidelines only, consult your sales representative for specific loading applications

Cantilever Table One Side**

**Island Panel with Cantilever  
Table and Support Leg One Side**

**Island Panel with Cantilever  
Tables Two Sides**

**Wall Panel with  
Cantilever Table**

### Maximum Load Ratings

#### ■ Individual Components

Cantilevered work surface (mounted on cores) .....	600 lbs.
Top of core .....	180 lbs.
Top of reagent rack .....	180 lbs.
Suspended lower storage cabinet ...	300 lbs.
Suspended upper storage cabinet ...	300 lbs.

#### ■ Shelves

6" (152 mm) deep .....	180 lbs.
8" (203 mm) deep .....	180 lbs.
12" (305 mm) deep .....	180 lbs.
18" (457 mm) deep .....	130 lbs.
24" (610 mm) deep .....	100 lbs.

#### ■ Total Assembly

Island Panel ..... 1,520 lbs.  
Must be balanced both sides. With two work surfaces @ 400 lbs. each, and other components at their rated loads, not to exceed a total of 720 lbs.

Wall Panel ..... 1,140 lbs.  
With one work surface @ 600 lbs. and other components at their rated loads, not to exceed a total of 540 lbs.

## Wall Panel Assembly Guideline

### Wall Panel Blocking

- Position blocking as requested by user for either standing or sitting height
- Standing height:  
Work surface height = 36-5/16" (922 mm)  
Blocking height = 35" (889 mm)
- Sitting height:  
Work surface height = 29-5/16" (744 mm)  
Blocking height = 29" (737 mm)

36" (914 mm) High  
WAH, WAI and  
413H(?) Series

84" (2134 mm) High  
413H Series

84" (2134 mm) High  
WAH and WAI Series

### Wall Panel Anchoring

- Architect/customer must verify that floor design allows for proper anchorage

#### Standard Anchorage:

Concrete must have a minimum compressive strength of 2,500 lbs. per square inch

#### Seismic Anchorage:

Concrete must have a minimum compressive strength of 3,500 lbs. per square inch

Anchorage Detail

## Panel-to-Base Cabinet Attachment Details

## Island and Wall Core Assembly Guidelines

### Assembly Guidelines

- Length of straight, unsupported run of structural frames should not exceed 8' (2438 mm); maximum of three frames per run
- Shelves, cabinets, and cantilevered work surfaces may be attached only to the supported side of a structural frame
- Cantilevered work surfaces and/or tables of similar height should be bolted together at the front edge for maximum rigidity; if not, load ratings are reduced
- When panels are used as end supports in a run, they may be positioned at angles of 90° or 120° only
- End supports are defined as any of the following items which add stability to a run of structural panels: supported table, support leg, full-height
- Adjustable support legs cannot be attached to corner tables

### Weight Capacities

- Listed weight capacities are maximum live loads and include weight applied to top of work surface, as well as total weight of below-counter storage units and other accessories
- Load ratings are reduced when a cantilevered table is attached to one side of an island core only
- Loads should not exceed the individual component load ratings for any surface
- Use these capacities as guidelines only; consult Hamilton for specific loading applications

### Maximum Load Ratings

#### ■ Individual Components

Cantilevered work surface (mounted on core)	600 lbs.
Top of core	180 lbs.
Top of reagent rack	180 lbs.
Suspended lower storage cabinet	300 lbs.
Suspended upper storage cabinet	300 lbs.

#### ■ Shelves

6" (152 mm) deep	180 lbs.
8" (203 mm) deep	180 lbs.
12" (305 mm) deep	180 lbs.
18" (457 mm) deep	130 lbs.
24" (610 mm) deep	100 lbs.

#### ■ Total Assembly

Island Core ..... 2,820 lbs.

Must be balanced both sides. With two work surfaces at 600 lbs. each, and any combination of inner shelves or general-purpose shelves and suspended upper storage cabinets at their rated loads, at a total not to exceed 1,620 lbs.

Wall Core ..... 1,680 lbs.

With one work surface at 600 lbs. and other components at their rated loads, at a total not to exceed 1,080 lbs.

## Island and Wall Core Assembly Guidelines

## Island Core

**Maximum Total Live Load = 3400 lbs.**  
Balanced Load

**Maximum Total Live Load = 1380 lbs.**  
Unbalanced Load – One side only

## Wall Core

**Maximum Total Live Load = 1680 lbs.**

## Seismic Test Results

- Island Cores have been tested to a proof load of 4200 lbs.
- Wall Cores have been tested to a proof load of 2400 lbs.
- Proof load verifies the structural integrity of the product; it is not intended to be a working load rating
- For structural loads only, exceeds SEFA allowable deflection

## Island and Wall Core Assembly Guidelines

## Wall Core Wall Blocking Guidelines

- Position blocking as requested by user for either standing or sitting height

**Standing Height:**  
Work surface height = 36-5/16" (922 mm)  
Blocking height = 35" (889 mm)

**Sitting Height:**  
Work surface height = 29-5/16" (744 mm)  
Blocking height = 29" (737 mm)

## Standard Anchoring Guidelines

- Architect/customer must verify that floor design allows for proper anchorage

**Standard Anchorage:**  
Concrete must have a minimum compressive strength of 2,500 lbs. per square inch

## Seismic Anchoring Guidelines

## Wall Cores

- Architect/customer must verify that floor design allows for proper anchorage

**Seismic Anchorage:**  
Concrete must have a minimum compressive strength of 3,500 lbs. per square inch

## Island Cores

- Architect/customer must verify that floor design allows for proper anchorage

**Seismic Anchorage:**  
Concrete must have a minimum compressive strength of 3,500 lbs. per square inch

## Wall Rail Assembly Guidelines

### Assembly Guidelines

- Walls must be securely anchored at the floor and ceiling
- Walls must be plumb and smooth; if not, shims are required for proper system alignment
- Blocking is required; see page 171 for guidelines
- If not properly anchored, wall rail systems are unsafe and cannot support specified weights
- Procure mounting hardware appropriate to your wall material
- One number 10 pan-head screw required every 12" (305 mm) to attach horizontal rails
- One number 10 flat-head screw required every 12" (305 mm) to attach vertical rails; must be 1" (25 mm) longer than pan-head screws
- All screw locations must be securely anchored. If screw(s) are not securely anchored into the blocking, add an additional screw in the same area

### Typical Wall Rail Configurations

Island Panel Assembly Guideline Typical

Wall Rail Configurations (continued)

Weight Capacities

- Listed weight capacities are maximum live loads and include weight applied to top of work surface, as well as total weight of below-counter storage units and other accessories
- Loads should not exceed the individual component load ratings for any surface

Maximum Load Ratings

■ Individual Components

Cantilevered work surfaces.....400 lbs.  
Suspended lower storage cabinets .....300 lbs.  
Suspended upper storage cabinets .....300 lbs.

■ Shelves

6" (152 mm) deep.....180 lbs.  
8" (203 mm) deep.....180 lbs.  
12" (301 mm) deep.....180 lbs.  
18" (457 mm) deep.....130 lbs.  
24" (610 mm) deep.....100 lbs.

■ Total Assembly

Wall Rail System.....760 lbs.  
With one work surface @ 400 lbs. and other components at their rated loads, at a total not to exceed 360 lbs.

## Wall Rail Assembly Guideline

### Wall Blocking

### Full-height Wall Rail Cord Gap Details

- Cord gap for 23" (584 mm) or 29" (737 mm) deep work surface is 1-15/16" (49 mm)
- Cord gap for 23-3/4" (603 mm) or 29-3/4" (756 mm) deep work surface is 1-3/16" (30 mm)
- If optional insert panel is installed and work surface is raised to 37-5/16" (948 mm) or more above the floor, the cord gap is reduced to 15/16" (24 mm) and 3/16" (5 mm) respectively

Bench-Top Uprights — Assembly Guidelines

Island Core

Wall Core

■ For mounting bench-top uprights to any work surface

For Core Width:	A
24" (610 mm)	20-23/32" (526 mm)
30" (762 mm)	26-23/32" (679 mm)
36" (914 mm)	32-23/32" (831 mm)
48" (1219 mm)	44-23/32" (1136 mm)
60" (1524 mm)	56-23/32" (1441 mm)
72" (1829 mm)	68-23/32" (1745 mm)

Plumbing Access Dimensions — Typical Bench-top Upright Installations

Shaded areas indicate space available for plumbing access.

Free Plumbing Area

A	B	C
54" (1372 mm)	8-1/8" (206 mm)	21" (533 mm)
60" (1524 mm)	14-1/8" (359 mm)	25" (635 mm)
62" (1575 mm)	16-1/8" (410 mm)	25" (635 mm)

Free Plumbing Area

A	B
23-3/4" (603 mm)	9-1/2" (243 mm)
29-3/4" (756 mm)	15-1/2" (395 mm)

## Structurally Supported

## Overview of Anchoring Frames

- Structurally supported MAX/Wall frames are anchored by bolting to the floor and attaching to the ceiling
- If the ceiling is structural, channel may be mounted directly to the ceiling
- If the ceiling is suspended, reinforcement channels installed above the ceiling tiles support the ceiling channel. Reinforcement channels are oriented at a right angle to the ceiling channel
- No additional structural support required
- No limit or number of individual MAX/Wall frames in an end-to-end assembly
- Refer to the **Hamilton MAX/Wall Installation Manual** for additional ceiling connection details

## Plumbing Access Dimensions

Shaded areas indicate space available for plumbing access

## Anchoring Guidelines

- MAX/Wall frames must be anchored to the floor to maintain alignment with utility service lines and ceiling anchorage. Refer to the **Hamilton MAX/Wall Installation Manual** for specific recommendations

## Cabinet or Table Supported

## Frames Supported by Structural Tables or Cabinets

- The following items add stability to a single frame or a run of frames: structural table, or floor-mounted steel base cabinets with 901H3210 or 901H3220 cabinet to panel attachment bracket
- MAX/Wall frames are bolted to floor
- Maximum eight-foot span of unsupported frames between supported frames

## Configuration Supported

- "H", "U", and "L" shaped configurations are possible
- Anchor the MAX/Wall frames to the floor and to each other. Use riser plugs at the top of the frames in place of riser extensions, this prevents crushing the risers when they are bolted together
- Do not exceed eight feet between intersecting MAX/Wall frames

- Front corner supports are used to help support cantilevered work surfaces and to stabilize MAX/Wall frame used at the end of a run. They can only be used when the work surface is equal to or deeper than the width of the intersecting frame

- The addition of a second 24\"/>

## Configuration Supported

### Frames with Single Cantilevered Work Surface

- A single cantilevered work surface attached to a configuration supported MAX/Wall frame must be supported as shown

### Frames with Two Cantilevered Work Surfaces at Different Heights

- When two cantilevered work surfaces are next to each other but at different heights, the higher of the two work surfaces must be supported at the juncture
- Adjustable support legs cannot be attached to corner tables
- Take ceiling height into consideration when using corner post as a direct power entry source

### Frames with Single Cantilevered Work Surface

- Shelves, closed cabinets, and cantilevered work surfaces may only be attached to the supported side of a wall frame or run of wall frames.
- Cantilevered work surfaces and/or tables of similar height may be bolted together at the front edge for improved rigidity.

## Specifications and Compliance Tests

### Materials Specifications

MAX/Wall products are manufactured of materials meeting the following specifications.

#### Work Surfaces

- Work surface frames are 11-gauge cold-rolled steel tubing
- Cabinet support channels are 14-gauge cold-rolled steel
- Leg members are 16-gauge cold-rolled steel
- Hanger hooks are 11-gauge cold-rolled steel
- Table feet are die-cast aluminum alloy
- Built-in modesty panels are 18-gauge cold-rolled steel

#### Tops

- Epoxy resin is cast top of a combination of epoxy resins and inert materials, oven cured in molds and annealed; 1"-thick top with uniform low-sheen black surface

#### Facing Inserts

- Facing inserts are 20-gauge cold-rolled steel
- Dual-lock fasteners are molded Polyolefin

#### Support Structures

- Frames and uprights are 16-gauge cold-rolled steel

#### Corner Post

- Four-way corner post is extruded aluminum

#### Metal Cabinets/Shelves

- Shells for lower storage cabinets are constructed of a combination of 18- and 20-gauge cold-rolled steel; support rails are 16-gauge cold-rolled steel; drawer suspensions, hinges, and corner gussets are 14-gauge cold-rolled steel; and drawer and door pulls are injection-molded, flame-retardant ABS
- Shelves and optional shelf lips are 18-gauge cold-rolled steel; shelf end support brackets are 11-gauge cold-rolled steel
- Shells for upper storage cabinets are 20-gauge cold-rolled steel; mounting hooks are 16-gauge cold-rolled steel; door construction is 19-gauge cold-rolled steel

Specifications are based on the latest product information available at the time of publication. The right is reserved to make changes in products at any time without notice.

### Finish Specifications

MAX/Wall products are finished to meet the following specifications.

#### Metal Finish

- Colored metal surfaces are finished in electrostatically applied medium gloss urethane powdercoat. SEFA 8 metal compliant

#### Metal Pretreatment

- **Salt Spray** – 200-300 hours
- **Humidity Resistance** – 1000 hours with saturated humidity at 100°F
- **Hot-Water Resistance** – In a five minute test, no effect from boiling water poured from a vessel onto a facing insert oriented for 45°F at planar mode
- **Constant Moisture** – No effect from water-saturated cellulose sponge applied for 100 hours
- **Adhesion** – No loss of adhesion under application of cross-hatch scribe test (100 squares, 1–5mm) pulled with tape
- **Hardness** – Resists scratching from drafting leads of at least hardness grades: 4H to 5H

#### Fabrics

- **Moisture Regain** – Less than 0.5% by ASTM Tested Method D-2654 Procedure #2
- **Tensile Strength** – 150 lbs. minimum warp and fill by ASTM D-1682
- **Tear Strength** – 55 lbs. minimum warp and fill by FTMS 191-5136 Trapezoid Method
- **Abrasion Resistance** – Rated as Full Commercial Serviceability by ASTM D-3597 Modified Voluntary Product TS-198
- **Colorfastness** – To Light: 40 hours exposure in Fadeometer when tested in accordance with AATCC 16-A. To Cracking: To have a minimum rating of #4 wet and #4 dry when evaluated per AATCC-8
- **Flame Retardance** – To enable the finished fabric to meet the requirements listed in Section V "Flammability Resistance Performance." Information on chemical and applications proprietary

Specifications are based on the latest product information available at the time of publication. The right is reserved to make changes in products at any time without notice.

## Specifications and Compliance Tests

MAX/Wall was designed with reference to the following specifications:

- Underwriters Laboratory 1262 Laboratory Equipment
- SAMA Chemical Resistance
- California Seismic Code
- Underwriters Laboratory 1286 Office Furnishings
- Underwriters Laboratory 478 Information-Processing and Business Equipment
- Canadian Standards Association C22.2 No. 220-M 1986 Information Processing and Business Equipment (power-adjustable tables only)
- ANSI/BIFMA X5.5-1983 Standard for Office Furnishings-Desk Products
- ANSI/BIFMA X5.6-1986 Tests for Panel Systems
- European Ergonomic Standards
- Anthropometric Data

### UL1262 Laboratory Equipment

The standard applies to laboratory equipment intended to perform one of the following activities:

- a) The measurement of physical or chemical properties of materials.
- b) The measurement of the functional performance of a piece of equipment.
- c) Qualitative or quantitative analysis, or measurements.
- d) Preparation of materials for further use, analysis, or measurements.
- e) Any of the support operations essential to items a)-d) above.

### Auxiliary or Accessory Equipment

This standard also applies to auxiliary equipment and accessories intended to be used with laboratory equipment covered by this standard. These auxiliary or accessory equipment may be separate by themselves and may or may not by themselves perform a complete function, but are used in addition to or as a supplement to the equipment specified in sub-clause 1.1.3.

### Equipment Covered

Laboratory equipment includes, but is not necessarily restricted to: Cabinets and workstations.

## Standard Compliance Tests

### UL 478 Information Processing and Business Equipment

These requirements cover information processing and business equipment intended for permanent or cord connection to 600-volt or lower-potential branch circuits. The information processing and business equipment is intended for installation in conformance with the National Electrical Code, ANSI/NFPA 70, and may be installed in accordance with the Standard for the Protection of Electronic Computer/Data-Processing Equipment, ANSI/NFPA 75. Equipment that meets the requirements in this standard may be installed in a computer/data processing room, in an office or other business establishment, in an educational facility, or in another similar environment.

Examples of the types of equipment covered by this standard include: power-driven drafting tables and adjustable tables; accounting and calculating machines; cash registers; copiers, data processing equipment, dictating and transcribing machines and associated equipment; duplicators; erasers; modems and other data communication equipment, motor-driven filing cabinets; printers; staplers; tabulating machines; typewriters; and other electrically operated equipment that separately or assembled in systems will accumulate, process and store data.

### C22.2 No. 220-M1986 Information Processing and Business Equipment

This Standard applies to information processing equipment and associated electronic units and to business equipment intended to be connected to supply circuits with a maximum nominal voltage of 600-V and designed to be operated under conditions of normal use in non-hazardous locations in accordance with the Canadian Electrical Code, Part 1.

This Standard applies to equipment that does not comply precisely with the definitions of information processing system or business equipment, so long as the manufacturer has stated that the equipment may form part of an information processing system.

This Standard applies to equipment in which protection from electric shock and energy hazard due to failure of insulation is provided by grounding or double-insulated construction.

Examples of the types of equipment covered by this standard include, but are not limited to, such equipment as: typewriters, dictating and transcribing machines, accounting and calculating machines, copying and duplicating machines, motor-driven filing cabinets, microfilm readers, document-and paper-handling and collating machines, paper shredders, staplers, pencil sharpeners, erasers, cash registers, motor-driven drafting tables, postage meters, and overhead projectors.

### European Ergonomic Standards

In Europe standards have been adopted to ensure workstations provide the optimum conditions for workers doing a number of different tasks. These standards address work surfaces, seating, lighting, etc.

### Anthropometric Data

Anthropometric data, human body dimensions, are primary inputs in the design of work stations. While the critical measure is the actual size of the worker on the job, it is necessary to use data which describes the overall population from which the workers will be selected. According to Henry Dryfuss and Associates, Hamilton MAX/Wall addresses the 5th and 95th percentiles.

## Standard Compliance Tests

### **C22.2 No. 220-M1986 Information Processing and Business Equipment**

This Standard applies to information processing equipment and associated electronic units and to business equipment intended to be connected to supply circuits with a maximum nominal voltage of 600-V and designed to be operated under conditions of normal use in non-hazardous locations in accordance with the Canadian Electrical Code, Part 1.

This Standard applies to equipment that does not comply precisely with the definitions of information processing system or business equipment, so long as the manufacturer has stated that the equipment may form part of an information processing system.

This Standard applies to equipment in which protection from electric shock and energy hazard due to failure of insulation is provided by grounding or double-insulated construction.

Examples of the types of equipment covered by this standard include, but are not limited to, such equipment as: typewriters, dictating and transcribing machines, accounting and calculating machines, copying and duplicating machines, motor-driven filing cabinets, microfilm readers, document-and paper-handling and collating machines, paper shredders, staplers, pencil sharpeners, erasers, cash registers,

motor-driven drafting tables, postage meters, and overhead projectors.

### **ANSI/BIFMA X5.5-1989 Standard for Office Furnishings-Desk Products**

This standard is intended to provide manufacturers, specifiers, and users with a common basis for evaluating the safety, durability, and structural adequacy of freestanding desk products such as single-and double-pedestal desks, extended desk units, credenzas, and four-legged or center-column-type tables. The standard defines specific tests used to determine the acceptability of the product by specifying recommended acceptable levels of performances.

These acceptance levels are based on the actual field and test experience of The Business and Institutional Furniture Manufacturers' Association (BIFMA) members.

The intention of this standard is to describe the means of evaluating the function and safety of desk-related products, independent of construction materials, manufacturing processes, or mechanical and aesthetic designs.

### **ANSI/BIFMA X5.6-1986 Tests for Panel Systems**

This standard is intended to provide manufacturers, specifiers, and users with a common basis for evaluating the safety, durability, and structural adequacy of panel systems products such as freestanding non-loadbearing panels, panel-supported systems, modular systems, and various hang-on components used in conjunction with panel systems products. The standard defines specific tests used to determine the acceptability of the products by specifying recommended acceptable levels of performance.

These acceptance levels are based on the actual field and test experience of The Business and Institutional Furniture Manufacturers' Association (BIFMA) members.

The intention of this standard is to describe the means of evaluating the function and safety of panel systems-related products, independent of construction materials, manufacturing processes, or mechanical and aesthetic designs.

### **Anthropometric Data**

Anthropometric data, human body dimensions, are primary inputs in the design of work stations. While the critical measure is the actual size of the worker on the job, it is necessary to use data which describes the overall population from which the workers will be selected. According to Henry Dryfuss and Associates, MAX/Lab addresses the 5th and 95th percentiles.

## Standard Compliance Tests

### SEFA Chemical Resistance

#### Cabinet Surface Finish Tests:

All casework construction and performance characteristics shall be in full compliance with SEFA 8 – 2010 standards. At the owner's request, independent, third party performance testing must be submitted validating compliance and adheres to the finish specifications.

#### 8.0 Cabinet Surface Finish Tests.

#### 8.1 Chemical Spot Test.

8.1.1 Purpose of Test. The purpose of the chemical spot test is to evaluate the resistance a finish has to chemical spills.

Many organic solvents are suspected carcinogens, toxic and/or flammable. Great care should be exercised to protect personnel and the environment from exposure to harmful levels of these materials.

8.1.2 Test Procedure. Obtain one sample panel measuring 14" x 24" (356 mm x 609 mm). The received sample to be tested for chemical resistance as described herein.

Place panel on a flat surface, clean with soap and water and blot dry. Condition the panel for 48-hours at 73+ 3F (23+ 2(C) and 50+ 5% relative humidity. Test the panel for chemical resistance using forty-nine different chemical reagents by one of the following methods:

Method A – Test volatile chemicals by placing a cotton ball saturated with reagent in the mouth of a one-ounce (29.574cc) bottle and inverting the bottle on the surface of the panel.

Method B – Test volatile chemicals by placing five drops of the reagent on the surface of the panel and covering with a 24 mm watch glass, convex side down.

For both of the above methods, leave the reagents on the panel for a period of one hour. Wash off the panel with water, clean with detergent and naphtha, and rinse with deionized water. Dry with a towel and evaluate after 24-hours at 73±3°F (23°±2°C) and 50±5% relative humidity using the following rating system:

- Level 0 – No detectable change.
- Level 1 – Slight change in color or gloss.
- Level 2 – Slight surface etching or severe staining.
- Level 3 – Pitting, cratering, swelling, or erosion of coating.
- Obvious and significant deterioration.

Test No.	Chemical Reagent	Test Method
1.	Acetate, Amyl	A
2.	Acetate, Ethyl	A
3.	Acetic Acid, 98%	B
4.	Acetone	A
5.	Acid Dichromate, 5%	B
6.	Alcohol, Butyl	A
7.	Alcohol, Ethyl	A
8.	Alcohol, Methyl	A
9.	Ammonium Hydroxide, 28%	B
10.	Benzene	A
11.	Carbon Tetrachloride	A
12.	Chloroform	A
13.	Chromic Acid, 60%	B
14.	Cresol	A
15.	Dichlor Acetic Acid	A
16.	Dimethylformamide	A
17.	Dioxane	A
18.	Ethyl Ether	A
19.	Formaldehyde, 37%	A
20.	Formic Acid, 90%	B
21.	Furfural	A
22.	Gasoline	A
23.	Hydrochloric Acid, 37%	B
24.	Hydrochloric Acid, 48%	B
25.	Hydrogen Peroxide, 3%	B
26.	Iodine, Tincture of	B
27.	Methyl Ethyl Ketone	A
28.	Methylene Chloride	A
29.	Mono Chlorobenzene	A
30.	Naphthalene	A
31.	Nitric Acid, 20%	B
32.	Nitric Acid, 30%	B
33.	Nitric Acid, 70%	B
34.	Phenol, 90%	A
35.	Phosphoric Acid, 85%	B
36.	Silver Nitrate, Saturated	B
37.	Sodium Hydroxide, 10%	B
38.	Sodium Hydroxide, 20%	B
39.	Sodium Hydroxide, 40%	B
40.	Sodium Hydroxide, Flake	B
41.	Sodium Hydroxide, Saturated	B
42.	Sulfuric Acid, 33%	B
43.	Sulfuric Acid, 77%	B
44.	Sulfuric Acid, 96%	B
45.	Sulfuric Acid, 77% and Nitric Acid, 70%, equal parts	B
46.	Toluene	A
47.	Trichloroethylene	A
48.	Xylene	A
49.	Zinc Chloride, Saturated	B

## Standard Compliance Tests

- 8.1.3 Acceptance Level. Results will vary from manufacturer to manufacturer. Laboratory grade finishes should result in no more than four Level 3 conditions. Suitability for a given application is dependent upon the chemicals used in a given laboratory.
- 8.2 **Hot Water Test.**
- 8.2 Purpose of Test. The purpose of this test is to insure the coating is resistant to hot water.
- 8.2.2 Test Procedure. Hot water, 190°F to 205°F (88°C to 96°C), shall be allowed to trickle (with a steady stream and at a rate of not less than 6 ounces (177.44 cc) per minute on the surface, which shall be set at an angle of 45-degrees, for a period of five minutes.
- 8.2.3 Acceptance Level. After cooling and wiping dry, the finish shall show no visible effect from the hot water.
- 8.3 **Impact Test.**
- 8.3.1 Purpose of Test. The purpose of this test is to evaluate the ductility of the coating.
- 8.3.2 Test Procedure. A one-pound ball approximately 2" (51 mm) in diameter shall be dropped from a distance of 12" (305 mm) onto a flat horizontal surface, coated to manufacturer's standard manufacturing method.
- 8.3.3 Acceptance Level. There shall be no visible evidence to the naked eye of cracks or checks in the finish due to impact.
- 8.4 **Paint Adhesion on Steel Test.**
- 8.4.1 Purpose of Test. The paint adhesion test is used to determine the bond of the coating to steel. This does not apply to non-steel products.
- 8.4.2 Test Procedure. This test is based on ASTM D2197-86 "Standard Method of Test for Adhesion of Organic Coating". Two sets of eleven parallel lines 1/16" (2 mm) apart shall be cut with a razor blade to intersect at right angles thus forming a grid of 100 squares. The cuts shall be made just deep enough to go through the coating, but not into the substrate. They shall then be brushed lightly with a soft brush for one minute. Examine under 100-foot candles of illumination.
- 8.4.3 Acceptance Level. Ninety or more of the squares shall show finish intact.

## 8.5 Paint Hardness on Steel Test.

- 8.5.1 Purpose of Test. The paint hardness test is used to determine the resistance of the coatings to scratches.
- 8.5.2 Test Procedure. Pencils, regardless of their brand, are valued in this way: 8-H is the hardest, and next 11 order of diminishing hardness are 7-H, 6-H, 5-H, 4-H, 3-H, 2-H, H, F, HB, B (soft), 2-B, 3-B, 4-B, 5-B (which are softest).
- The pencils shall be sharpened on emery paper to a wide sharp edge. Pencils of increasing hardness shall be pushed across the paint film in a chisel-like manner until one is found that will cut or scratch the film. The pencil used before that one, that is the hardest pencil that will not rupture the film, is then used to express or designate the hardness.
- 8.5.3 Acceptance Level. The paint shall have a hardness of 4-H minimum.

### Hamilton Distinction

---

This modular, self-contained laboratory bench system is designed to respond to the changing lab equipment and instrumentation, personnel, research activities and room layouts with minimal downtime, cost and effort.

- Built around bench structures with adjustable height work surfaces and shelving.
- Self-contained benches house pre-piped and pre-wired services.
- Sinks and fume hoods use special mobile cabinets to conceal drain lines.
- Adjustable components are designed to be easily repositioned.
- Service lines with quick-connect fittings connect to overhead service distribution panels.
- Components can be used independently or integrate with mobile cabinetry to provide a tailored solution for each application.
- Components are non-generational and completely compatible, ensuring continuing availability.

### To specify Hamilton Distinction:

---

1. Choose specific **system components**, including bench structures, upper and lower storage components and work surfaces.
  - Three styles of mobile cabinets designed especially for the **Hamilton Distinction** system are included in this catalog.
  - Refer to other Hamilton product catalogs for casework, fume hoods, fixtures and accessories.
2. Use **options menus** to choose system colors and cabinet options for steel cabinets.
3. Select modular **work surfaces** based upon matching performance characteristics to the work performed in the lab.
4. Choose **system accessories** as needed from the accessories section of this catalog.
5. Choose **auxiliary lab equipment**, including safety equipment, fixtures, sinks and accessories from the related Hamilton product catalogs.
  - Service fixtures designed exclusively for Hamilton Distinction workstations are included in this catalog.

## Hamilton Distinction System

---

### Choosing Hamilton Distinction Colors

Components are available in 18 standard colors. Choose a single color for any component or the entire system. Or, choose a base color for bench frames and cabinet bodies, and an accent color for drawer and door fronts. It is not necessary to choose the same base and accent colors for each component.

Color selection guidelines:

Cabinets – Base color for cabinet body; accent color for drawer and door fronts

Bench Frames, Shelves – Base color only

Dimensions are nominal. Illustrations and specifications are based on the latest product information available at the time of publication.

Product Options Menu

Cabinet Finish Selection

- For cabinet shell, select from the 18 steel colors listed below
- For door and drawer fronts, select from steel colors listed below
- Color charts can be referenced online at:  
[https://hamiltonlab.com/wp-content/uploads/2020/06/hls\\_steel\\_product\\_color\\_guide\\_scg0915.pdf](https://hamiltonlab.com/wp-content/uploads/2020/06/hls_steel_product_color_guide_scg0915.pdf)

**Recommendation:** Prior to making your final selection, please contact your local representative to obtain samples.

Steel Color Selections\*

Color Code	Reference Color
<input type="checkbox"/> BK	Black
<input type="checkbox"/> BL	Blue
<input type="checkbox"/> BS	Blue Slate
<input type="checkbox"/> BD	Brown Burgundy
<input type="checkbox"/> CH	Chameleon

## **Hamilton Distinction System**

---

### **System Components**

### **System Colors and Cabinet Options**

---

Proper selection of work surface material is critical in creating a functional laboratory.

Work surface options include epoxy resin, or phenolic resin.

See Work Surfaces section, page 222.

### **Accessories**

---

Key service delivery components including ceiling panels, quick-connect fixtures and service lines are included in this section. Other accessories, including modesty panels, lighting and computer support arms make the Hamilton Distinction system more comfortable and convenient for paperwork tasks.

For additional laboratory accessories refer to the Hamilton Fixtures & Accessories Catalog.

# Hamilton Distinction System

Hamilton Distinction System

Single Frame Assemblies

Single structural frame assemblies become freestanding structures when combined with two-post bench frames.

Single frames are available in painted steel.

Painted steel frames can have none, one, two or three 1/4" diameter copper tubing service lines with chrome plated brass fittings. Unions, reducers, disconnects and service fixtures are installed by others.

Raceway Outlets

Width	(Duplex) Electrical	(Double) Telecommunications
41-3/4"	2	1
47-3/4"	2	1
59-3/4"	3	1
71-3/4"	3	1
95-3/4"	4	1

Single Frame Assemblies

Raceways for the single frames are to have two 20 amp hospital grade duplexes on the horizontal raceway on the 42" and 48" units, three 20 amp hospital grade duplexes on the 60", 72" and 96" wide units and an optional 20 amp duplex outlet located in the vertical upright under the work surface.

Single frames are equipped with 3-prong, twist-lock power cords:

- 1 circuit – 1 power cord – 16 AMP
- 2 circuit – 2 power cords – 16 AMP

Color

All duplexes are grey in color with the exception of 20A outlets on the lower and uprights of single frames, which are black.

Single Frame Assemblies . . . . .p. 192-208

Dimensions are nominal. Illustrations and specifications are based on the latest product information available at the time of publication.

- Powdercoated steel finish
- 2" tubular legs with levelers
- Includes single or double circuit electric/telecommunications raceway with power cord routed to top of upright
- Modesty panel is optional, see Accessories section
- For upper shelving, see Upper Storage section
- Height is 84" (2134mm)
- Order service fixtures and quick-connects separately – for field installation

Left Single Frame Assembly - Without Receptacle or Fixtures

- Plugged holes for fixtures in left upright and covered opening for receptacle in right upright

Hamilton Distinction System

Shared Frame Assemblies

Shared structural frame assemblies become freestanding structures when combined with two-post bench frames. Shared frames are available in painted steel.

Shared frames are factory installed with electrical wiring and outlets. CAT6 teledata cables must be ordered separately and field installed.

Shared frames are equipped with two twist lock power cords with a total of four 16 amp circuits. Each twist lock power cord has four wires and handles two circuits. The neutral and ground wires are common between the two circuits.

Painted steel frames can have none, one, two or three service lines with chrome plated brass stems. The top fixture stem has a copper tubing line. The middle and bottom fixture stem have polyethylene tubing.

Unions, reducers, disconnects and service fixtures are installed by others.

**Shared Frame Assemblies**  
Raceways for shared frames are to have two per side 20 amp hospital grade duplexes on the horizontal raceway for the 42", 48" wide frames and 3 per side on the 60", 72" and 96". Two separate (shared circuits) shall be located in the side vertical upright under the work surface.

Shared frames are equipped with two four-prong twist lock 4' power cords with a total of four 16 amp circuits. Each twist lock power cord has four wires and handles two circuits. The neutral and ground wires are common between the two circuits.

**Color**  
All duplexes are grey in color.

## Shared Frame Assemblies

**Common Features:**

- Powdercoated steel finish
- 6" deep upright assembly with levelers
- Order work surfaces, back splashes and side splashes separately, see Work Surfaces section
- Includes two duplex electric receptacle in lower right-hand frame upright
- Includes **four Mini-Com blank modules** in upper right-hand frame upright
- CAT 6 teledata cables ordered separate and field installed
- Includes **four 16AMP circuits**

- Two twist lock power cords with each cord having two circuits at top extending 4' of frame
- Modesty panel and bulletin boards are optional, see Accessories section
- Includes removable side cover for access to service valve and electrical and teledata outlet connections
- For upper shelving, see Upper Storage Section
- Height is 83-1/4" (2114mm)
- Order **service fixtures and quick-connects** separately, for field installation

## Shared Frame Assembly — Without Fixture Stems

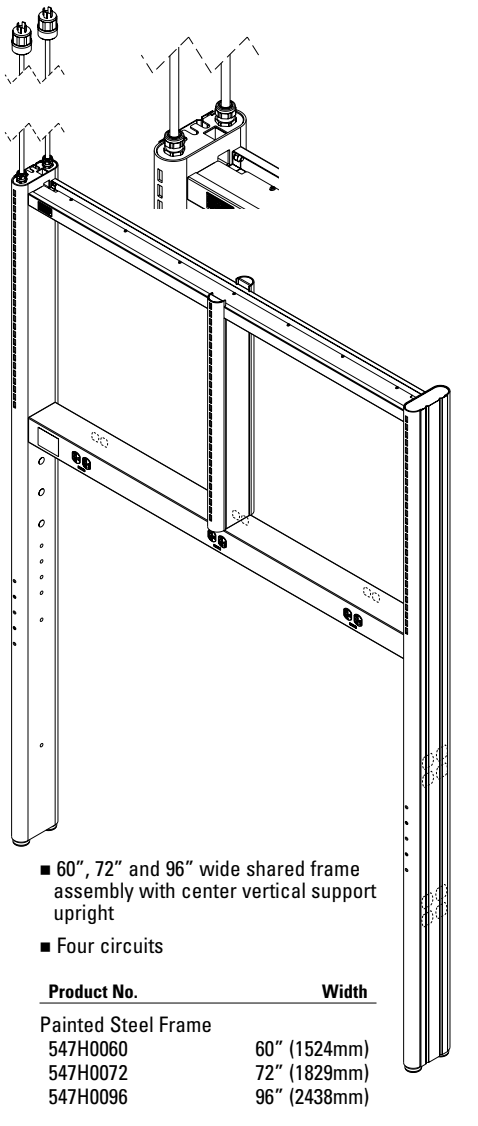

- 42" and 48" wide shared frame assembly
- Four circuits

## Distinction Frame - Wall Mount Units and Suspended Units

Common Features:

■ Distinction Frame - Wall mount units and suspended units

■ Field installable with Single or Shared Frame Distinction

Distinction frame - load not to exceed  
150 lbs. per cabinet

### Wall Mount Units

- Wall rails mount into shelf slots in Distinction vertical uprights
- Wall mount units require (1) product 549HWH... per wall cabinet
- Maximum (2) wall cabinets per Distinction frame - load not to exceed 150 lbs. per cabinet

Product No.	Width
For use with center vertical upright	
549HWH42	42" (1066mm)
549HWH48	48" (1219mm)
549HWH60	31" (787mm)
549HWH72	37" (940mm)
549HWH96	49" (1245mm)

For use without center vertical upright	
549HWH60F	60" (1524mm)
549HWH72F	72" (1829mm)

### Suspended Units

- Suspended rails are bolted to Distinction table frame (fasteners included)
- Suspended units require (1) product 549HTH... per (2) suspended units
- Maximum (2) suspended cabinets per Distinction frame - load not to exceed 150 lbs. per cabinet

Product No.	Width
549HTH42	38-7/16" (965mm)
549HTH48	44-7/16" (1219mm)
549HTH60	56-7/16" (1422mm)
549HTH72	68-7/16" (1727mm)
549HTH84	80-7/16" (2032mm)
549HTH96	92-7/16" (2337mm)

Dimensions are nominal. Illustrations and specifications are based on the latest product information available at the time of publication.

Hamilton Distinction System

Upper Storage

All Hamilton shelves are built to the highest standards of quality. Durable construction and a choice of tough, chemical-resistant finishes ensure high performance and a timeless appearance.

**Shelving Diagram** ..... p. 216

**Wall-Mount Standards** ..... p. 217

**Shelf Front Retainer Rods** ..... p. 217

**Steel Shelf Assemblies** ..... p. 218

**Shelf Brackets** ..... p. 219-220

**Steel Shelf Lip** ..... p. 221

Dimensions are nominal. Illustrations and specifications are based on the latest product information available at the time of publication.

## Hamilton Distinction System

### Shelving Diagram

A variety of shelving widths (3) accommodate various bench and wall configurations. To avoid confusion when specifying the product line, follow the attached guideline in respect to widths:

- Shelving that mounts to a Hamilton Distinction rear frame without a center upright: Width = Nominal rear frame size – (minus) 2.125" (54mm)
- Shelving that mounts to a Hamilton Distinction rear frame with a center upright: Width = Nominal rear frame size/2 – (minus) 1.062" (27mm)
- Shelving that mounts to Hamilton Distinction wall standards = Nominal center- to-center wall standard dimension – (minus) 0.062" (1.6mm)

**All shelf widths refer to the outside dimension of the shelf with brackets attached. Product numbers for shelving units correspond to the shelf width.**

Hamilton Distinction wall standards are shared between table joints. The first wall standard lines up with the first table leg. The second wall standard splits the joint between the second and third leg, fourth and fifth, etc. The tubing is 2" diameter and the shelf slots are on the centerline of the tubing.

# Hamilton Distinction System

## Wall Standards, Shelf Brackets and Retainer Rods

### Wall Standard

- Mounts directly to interior wall when wall-mounted shelves are required
- Wall grounds are required
- Powdercoated steel
- Two wall standards are required for each shelf assembly
- Hardware included

Product No.	Height
Powdercoated Steel	
549H0202	29-1/8" (740mm)

### Shelf Front Retainer Rod

- Prevents items from sliding off shelf
- Attaches to end brackets
- Powdercoated steel or stainless steel
- Hardware included
- Use with either 546H or 549H series shelf brackets with holes for attaching retainer rods

**Add 1.93 to shelf width below for correct rod length**

Product No.	Width
Powdercoated Steel	
549H9229	28-5/8" (727mm)

## Service Fixtures

### Union, Tube-to-Tube for Tubular and Shared Rear Frames

- For connecting the internal tubing to straight or coiled lines

Product No.	(Shared Frames)
-------------	-----------------

547H0526	(3/8" to 3/8") Brass
547H0526SS	(3/8" to 3/8") Stainless Steel

Product No.	(Tubular Frames)
-------------	------------------

547H0540	(1/4" to 3/8") Brass
547H0540SS	(1/4" to 3/8") Stainless Steel

## Service Fixture

- Service fixture connects to fitting in tubular upright
- Includes a color-keyed index button on handle
- For natural gas applications on the shared rear frame, it is recommended that the tubing, elbow and top fixture stem location be stainless steel. Contact the factory for assistance.

Product No.	Service	Color
549H0234	White – Burning Gas	Chrome Plated Brass
549H0236	Brown – N <sub>2</sub>	Chrome Plated Brass
549H0237	Orange – Air	Chrome Plated Brass
549H0238	Yellow – Vac	Chrome Plated Brass
549H0239	Blue – Gas	Chrome Plated Brass
549H0252	Black – He	Chrome Plated Brass
549H0253	Violet – Ar	Chrome Plated Brass

## Back-To-Back Mounting Kit

- Use to secure two tubular rear frame assemblies back-to-back – two kits are required for each frame assembly
- Powdercoated steel or stainless steel
- The 5/16" diameter hardware for connecting top of tubular frames is user supplied
- Hardware included with instructions

Product No.	Material
549H0201	Powdercoated Steel

## Side-To-Side Mounting Kit

- Use to secure two tubular rear frame assemblies side-to-side – one kit is required for each pair of frames
- Powdercoated steel
- Hardware included

Product No.	Material
Front post-side to side bracket 549H0248	Powdercoated Steel
Back post-side to side bracket 549H0249	Powdercoated Steel

Dimensions are nominal. Illustrations and specifications are based on the latest product information available at the time of publication.

## LCD Arm, Mounting Kits, and Electrical

### LCD Arm

- Fully adjustable arm and keyboard holder with right or left slide-out mouse pad platform
- Bracket attaches to rear frame upright
- Black finish

**Product No.**

549H0247

### Task Lights

- Black fixture housing
- LED light
- UL Listed, includes diffuser
- Gangable up to 10 units maximum with optional jumper cable
- 100 fc at 18" from workshop in complete darkness
- 40 fc at 30" from worktop in complete darkness
- Stick-on wire management kits with each fixture
- Mechanical screws are included

**Product No.****Length**

548H1708BK	16" (406mm)
548H1709BK	25" (635mm)
548H1710BK	38" (966mm)
548H1711BK	50" (1270mm)

### Starter Lead (black)

**Product No.****Length**

548H1716BK	30" (762mm)
------------	-------------

### Jumper Cable (black)

**Product No.****Length**

548H1714BK	15" (381mm)
548H1715BK	30" (762mm)

### Electrical Cable Assemblies for Shared Rear Frames

- Use to connect telephone and data outlets
- Order 6 (Hubbell Mfg.) CAT6 cables, for data or phone to attach to Hubbell faceplates in rear frames
- Cables are equipped with one male plug end (ceiling service panel) and one female plug end (rear leg outlet)
- Cables will extend from the outlets in the frame upright, up inside the upright, across the top horizontal support and four-feet above the top of the upright
- Order separately for field installation

**Product No.****Length**

CAT6 Cables for data or phone	
547H0532	42" (1065mm)
547H0533	48" (1219mm)
547H0534	60" (1524mm)
547H0535	72" (1827mm)
547H0536	96" (2437mm)

Dimensions are nominal. Illustrations and specifications are based on the latest product information available at the time of publication.

## Modesty Panels and Bulletin Boards

- Bulletin boards are dyed linoleum material framed in either powdercoated painted.
- Specify one of the following color options:
  - BC2 Champagne
  - BC27 Slate Grey
  - BC16 Graphite

### Modesty Panel for Tubular Rear Frame Assembly

- Mounts to tubular rear frame assembly below counter top
- Powdercoated steel
- Height is 19" (483mm)
- Hardware included

Product No.	Width
Powdercoated Steel	
549H7342	42" (1065mm)
549H7348	48" (1219mm)
549H7360	60" (1524mm)
549H7372	72" (1827mm)
549H7396	96" (2437mm)

### Bulletin Board Assemblies for Tubular Rear Frame Assemblies

- Mounts to rear frame above electrical raceway
- Powdercoated frame
- Height is 28-1/4" (718mm)
- Hardware included

Product No.	Width
Powdercoated Steel Frame	
549H8642	42" (1065mm)
549H8648	48" (1219mm)
549H8660	60" (1524mm)
549H8672	72" (1827mm)
549H8696	96" (2437mm)

### Modesty Panel for Shared Rear Frame Assembly

- Mounts to shared rear frame assembly below counter top (side mounts to vertical frame)
- Powdercoated steel
- Height is 19" (483mm)
- Hardware included

Product No.	Width
Powdercoated Steel	
547H0442	37-5/8" (957mm)
547H0448	43-5/8" (1110mm)
547H0460	55-5/8" (1414mm)
547H0472	67-5/8" (1719mm)
547H0496	91-5/8" (2329mm)

Dimensions are nominal. Illustrations and specifications are based on the latest product information available at the time of publication.

## Ceiling Service Panels

Ceiling panel typical view from below

### Ceiling Service Panels for Shared Rear Frame Assemblies

- Use when services from ceiling area are desired
- 24" x 24" panel replaces standard size ceiling panel
- Three electrical junction boxes and three service access holes
- Order service fixtures separately
- Color per order

Product No.  
547H0545

- Use when services from ceiling area are desired
- 24" x 24" panel replaces standard size ceiling panel
- Six electrical junction boxes and six service access holes
- Order service fixtures separately
- Color per order

Product No.  
547H0546

- Three prong outlet
- Twist lock 125V outlet assembly
- To be used with tubular rear frame assemblies

Product No.  
549H0246

- Four prong outlet
- Twist lock NEMA L14-20 outlet assembly
- To be used with shared rear frame assemblies

Product No.  
547H0547

Dimensions are nominal. Illustrations and specifications are based on the latest product information available at the time of publication.
