SAFETY TERIAL 27-00000 ACRYLIC LACQUER AEROSOLS

PRODUCT NAME: 27-00000 ACRYLIC LACQUER AEROSOLS

HMIS CODES:

FORMULA KEY: 27-00000 AEROSOLS

SECTION I - MANUFACTURER IDENTIFICATION TEEETERROTERFEETE

MANUFACTURER'S NAME: Fasse Paint Company, Inc.

ADDRESS

: 215 Pine Street

Sheboygan Falls, WI 53085

EMERGENCY PHONE INFORMATION PHONE

: 1-800-535-5053 : 1-920-467-7850

DATE PRINTED

: 02/02/98

NAME OF PREPARER : Jim Fasse

SECTION II - HAZARDOUS INGREDIENTS/SARA III INFORMATION

REPORTABLE COMPORENTS	CAS MORTER	VAPON PRESSURE		WEIGHT PERCENT	
ACETONE	67-64-1	145.5	60 DE6 F	41

Pa

contained breathing apparetus.

UNUSUAL FIRE AND EXPLOSION HAZARDS

Keep container tightly closed. Isolate from heat, electrical equipment, sparks, and open flames. Closed containers may explorance to extreme heat. Do not apply on hot surfaces. Do not seld on or near container. Toxic gases may form when product contacted by flame or hot surfaces.

SECTION V - REACTIVITY DATA 32232222222222

STABILITY: Stable CONDITIONS TO AVOID

Avoid contact with strong alkalis, strong mineral acids, or strong oxidizing agents. Avoid high temperatures, direct heating.

HAZARDOUS DECOMPOSITION OR SYPRODUCTS

Hay produce hazardous decomposition products when heated. Welding, brazing, or flame-cutting on surfaces coated with this produce fumes including: Carbon Monoxide or Carbon Dioxide.

HAZARDOUS POLYMERIZATION: Not expected to occup,

SECTION VI - HEALTH HAZARD DATA STACTORESSESSES

INHALATION HEALTH RISKS AND SYMPTOMS OF EXPOSURE

Vapor and apray mist may be harmful if inhaled. Vapor irritates eyes, hose, and throat. Repeated exposure to high vapor concessary cause irritation of the respiratory system and paragnent brain and nervous system demage. Intentional misuse by deliberat inhaling the contents can be harmful or fatal.

SKIN AND EYE CONTACT HEALTH RISKS AND SYMPTOMS OF EXPOSURE Eye contact: causes eye irritation. Hay experience itching, burning sensation and visual disturbences.

SKIN ABSORPTION HEALTH RISKS AND SYMPTOMS OF EXPOSURE

May cause moderate skin irritation. May be harmful if absorbed through the skin. Dryness, itching, cracking, burning, radness swelling are conditions associated with excessive skin contact.

INGESTION HEALTH RISKS AND SYMPTOMS OF EXPOSURE Hereful or fatal if smallered.

HEALTH HAZARDS (ACUTE AND CHRONIC) Avoid long term and repeated contact.

MEDICAL CONDITIONS GENERALLY AGGRAVATED BY EXPOSURE HOL Applicable.

EMERGENCY AND FIRST AID PROCEDURES

INGESTION: If swallowed, do not induce vomiting. EYES: In case of eye contact, flush eyes ismediately with plenty of water for 15 minutes. SKIN: In case of skin contact, remove promptly by wiping, followed by waterless hend claumer and soep and water. INHALATION: If affected by inhelation of vapor or spray mist, remove to fresh air. Apply artificial respiration and other sup measures as required. Get medical attention.

---- SECTION VII - PRECAUTIONS FOR SAFE HANDLING AND USE

STEPS TO BE TAKEN IN CASE MATERIAL IS RELEASED OR SPILLED Provide maximum ventilation. Only personnel equipped with proper respiratory and skin and eye protection should be permitted area. Remove all sources of ignition. Take up spilled material with sawdust, variabilitie, or other absorbent meterial and pleontainers for disposal.

WASTE DISPOSAL METHOD

Ø 001\001

MATERIAL SAFETY DATA SHEET 27-00000 ACRYLIC LACQUER AEROSOLS

Pag

should be recycled or disposed of through an approved Wests Kenagement Facility.

PRECAUTIONS TO BE TAKEN IN HANDLING AND STORING

Do not store above 120 deg. F. Store large quantities in buildings designed and protected for storage of MFPA Flangable liquid

OTHER PRECAUTIONS

If this material is part of a multiple component coating system, read the MEDS for the other component or components before by the resulting wixture may have the hazarde of all of its parts. Containers should be grounded when pouring. Avoid free fall of in excess of a few inches. Containers of this meterial may be hezardous when emptied since they retain residues. Do not cut, por weld on or near container.

RESPIRATORY PROTECTION

Overexposure to vapors may be prevented by ensuring ventilation controls, vapor exhaust or fresh air entry. If TLY of any compexceeded, use an appropriate MIOSH/MSHA approved respirator. Follow respirator manufacturers directions for respirator use.

VENTILATION

Provide sufficient mechanical and/or local exhaust ventilation to keep the concentration of ingradients listed in Euction II be lewest exposure limits.

PROTECTIVE GLOVES

Impermeable chemical handling gloves for skin protection.

EYE PROTECTION

Use chamical eafery glasses, goggles, and facushields for eye protection.

OTHER PROTECTIVE CLOTHING OR EQUIPMENT

Use impermendic aprons and protective clothing whenever possible to prevent skin contact. The use of head cape whenever possib strongly recommended. Clean or discard contaminated clothing and shoes,

WORK/HYGIENIC PRACTICES

Eye washes and safety showers in the workplace are recommended.

The information and recommendations contained herein are believed to be accurate at the time of preparation or obtained from social balleved to be generally reliable. Fasse Paint Co. will not be held liable for claims relating to any party's use of or reliancinformation contained herein, regardless of whether it is claimed the information is inaccurate.

UNUSUAL FIRE AND EXPLOSION HAZARDS

Keep container tightly closed. Isolate from heat, electrical equipment, sparks, and open flames. Closed containers may explode exposed to extreme heat. Do not apply on hot surfaces. Do not weld on or near container. Toxic gases may form when product is contacted by flame or not surfaces.

STABILITY: Stable CONDITIONS TO AVOID

Avoid contact with strong alkalis, strong mineral acids, or strong oxidizing agents. Avoid high temperatures, direct heating.

HAZARDOUS DECOMPOSITION OR BYPRODUCTS

May produce hazardous decomposition products when heated. Welding, brazing, or flame-cutting on surfaces coated with this produc produce fumes including: Carbon Monoxide or Carbon Dioxide.

HAZARDOUS POLYMERIZATION: Not expected to occur.

=============== SECTION VI - HEALTH HAZARD DATA

INHALATION HEALTH RISKS AND SYMPTOMS OF EXPOSURE

Vapor and spray mist may be harmful if inhaled. Vapor irritates eyes, nose, and throat. Repeated exposure to high vapor concentr may cause irritation of the respiratory system and permanent brain and nervous system damage. Intentional misuse by deliberately inhaling the contents can be harmful or fatal.

SKIN AND EYE CONTACT HEALTH RISKS AND SYMPTOMS OF EXPOSURE Eye contact: causes eye irritation. May experience itching, burning sensation and visual disturbances.

SKIN ABSORPTION HEALTH RISKS AND SYMPTOMS OF EXPOSURE

May cause moderate skin irritation. May be harmful if absorbed through the skin. Dryness, itching, cracking, burning, redness, a swelling are conditions associated with excessive skin contact.

INGESTION HEALTH RISKS AND SYMPTOMS OF EXPOSURE Harmful or fatal if swallowed.

HEALTH HAZARDS (ACUTE AND CHRONIC) Avoid long term and repeated contact.

MEDICAL CONDITIONS GENERALLY AGGRAVATED BY EXPOSURE Not applicable.

EMERGENCY AND FIRST AID PROCEDURES

INGESTION: If swallowed, do not induce vomiting, EYES: In case of eye contact, flush eyes immediately with planty of water for at 15 minutes. SKIN: In case of skin contact, remove promptly by wiping, followed by waterless hand cleaner and soap and water. INHALATION: If affected by inhalation of vapor or spray mist, remove to fresh air. Apply artificial respiration and other suppor measures as required. Get medical attention.

SECTION VII - PRECAUTIONS FOR SAFE HANDLING AND USE =======

STEPS TO BE TAKEN IN CASE MATERIAL IS RELEASED OR SPILLED

Provide maximum ventilation. Only personnel equipped with proper respiratory and skin and eye protection should be permitted in a area. Remove all sources of ignition. Take up spilled material with sawdust, vermiculite, or other absorbent material and place containers for disposal.

WASTE DISPOSAL METHOD

Waste material must be disposed of in accordance with Federal. State, and Local environmental control regulations. Empty contains should be recycled or disposed of through an approved Waste Management Facility.

SECTION VIII - CONTROL MEASURES

RESPIRATORY PROTECTION

Overexposure to vapors may be prevented by ensuring ventilation controls, vapor exhaust or fresh air entry. If TLV of any compor exceeded, use an appropriate NIOSH/MSHA approved respirator, Follow respirator manufacturers directions for respirator use.

VENTILATION

Provide sufficient mechanical and/or local exhaust ventilation to keep the concentration of ingregients listed in Section II believest exposure limits.

PROTECTIVE GLOVES

Impermeable chemical handling gloves for skin protection.

EYE PROTECTION

Use chemical safety glasses, goggles, and faceshields for eye protection.

OTHER PROTECTIVE CLOTHING OR EQUIPMENT

Use impermeable aprons and protective clothing whenever possible to prevent skin contact. The use of head caps whenever possible strongly recommended. Clean or discard contaminated clothing and shoes.

WORK/HYGIENIC PRACTICES

Eye washes and safety showers in the workplace are recommended.

The information and recommendations contained herein are believed to be accurate at the time of preparation or obtained from solublished to be generally reliable. Fasse Paint Co. will not be held liable for claims relating to any party's use of or relian information contained herein, regardless of whether it is claimed the information is inaccurate.
