CASEWORK
2025

The Elements of Hamilton Distinction

One of the most innovative laboratory furniture systems with three core elements:

INNOVATIVE FEATURES | CONTEMPORARY STYLING | SUPERIOR VALUE

This workstation's unique design provides flexibility and portability in a self-contained modular bench system. Bring style into your laboratory with this sleek-but rugged-steel system by choosing from a vast selection of finishes. Meet the needs of your facility by adapting to change almost instantly with features that are setting new standards in lab customization. Aesthetically, practically and financially—Distinction is the ultimate solution for your laboratory needs.

Configurable / Designs

Flexibility, superior quality, and exacting specifications. These cornerstones ensure that laboratories can adapt to evolving research needs, maintain the highest standards of durability, and meet precise operational requirements. By integrating these principles, Hamilton Laboratory Systems empowers scientists and researchers to focus on groundbreaking discoveries in a seamlessly functional and reliable workspace.

Hamilton | Laboratory Solutions — Steel Laboratory Casework

Ensure / Value
